Forward-Looking Statement

Certain statements in this presentation are “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Such forward-looking statements may be identified by reference to a future period or periods, or by the use of forward-looking terminology such as “may”, “will”, “believe”, “expect”, “estimate”, “anticipate”, “continue”, or similar terms or variations on those terms, or the negative of those terms. These forward-looking statements generally pertain to management’s goals, intentions and expectations regarding such matters as revenues, earnings, funding, loan production, asset quality, capital, regulations and acquisitions of other entities. Forward-looking statements may also address the estimated costs and benefits of our actions; our assessments of interest rates and other market factors that may influence our performance; and our ability to achieve our financial and other strategic goals.

It is important to note that forward-looking statements are subject to numerous assumptions, risks and uncertainties which may change over time. Accordingly, our actual results and events could differ materially from those anticipated in our forward-looking statements and our future performance could differ materially from our historical results.

You will find more detailed information regarding the factors that could affect these forward-looking statements in our filings with the U.S. Securities and Exchange Commission, including in the “Risk Factors” section of our 2015 Annual Report on Form 10-K and our Quarterly Reports on Form 10-Q for subsequent periods. In addition, it should be noted that our forward-looking statements speak only as of the date of this presentation. We do not undertake to update our forward-looking statements to reflect the impact of events or circumstances that may arise after the date on which such statements are made.

Non-GAAP Financial Measures

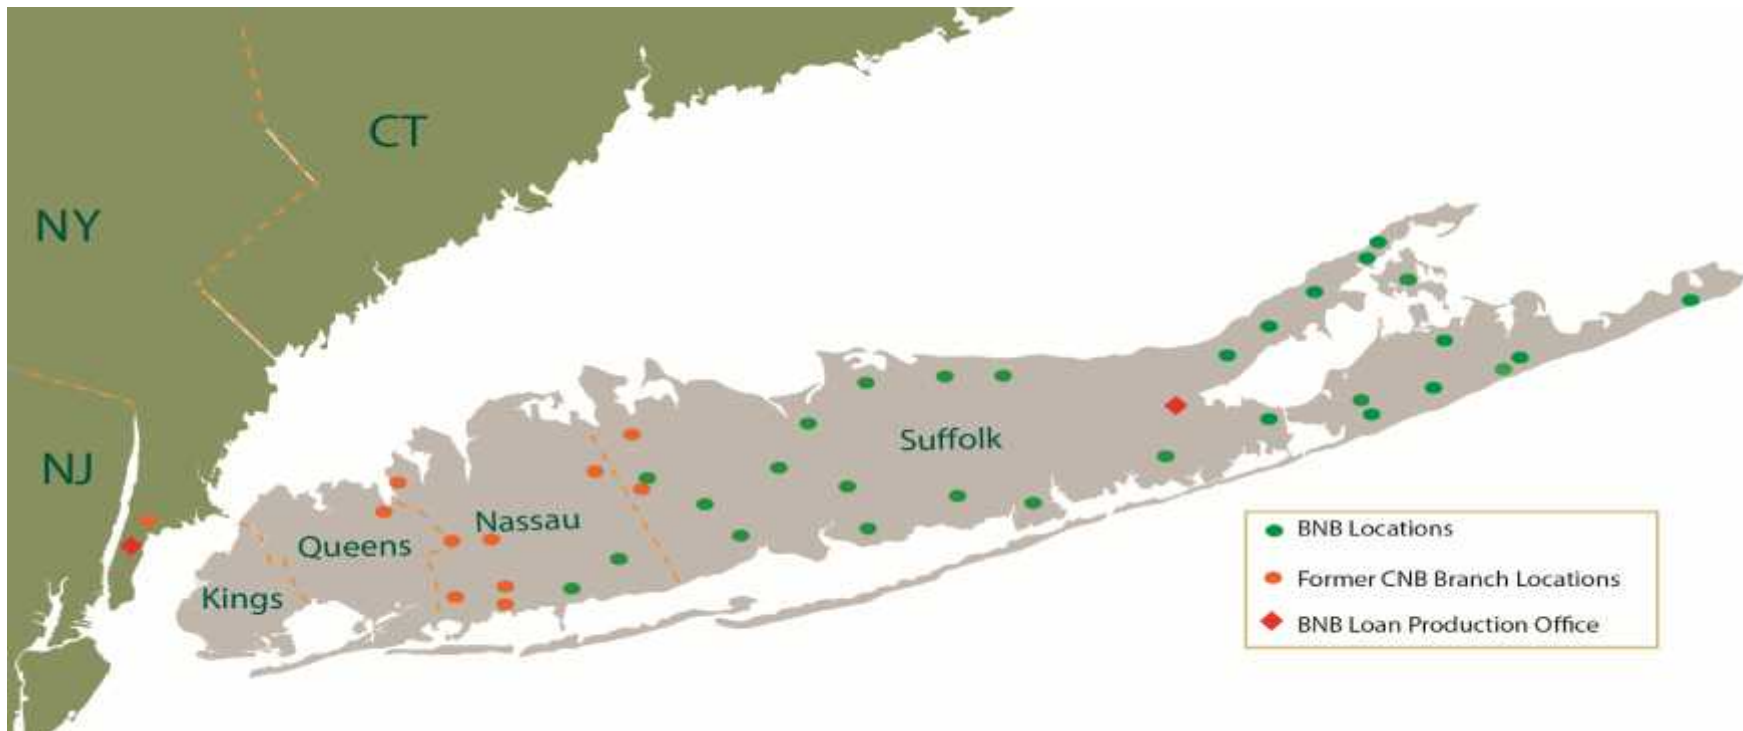

This presentation references non-GAAP financial measures including tangible book value per share, core return on average assets, core return on average equity, core return on average tangible equity, core earnings, core efficiency ratio and core expenses to average assets. These measures are commonly used by investors in evaluating financial condition and operations. Core earnings exclude acquisition costs, amortization of non-compete agreement, measurement period fixed asset adjustment, tax impact of the aforementioned items and tax benefit related to NYC tax law changes. Reconciliations to comparable GAAP financial measures can be found in the Appendix section of this presentation.

Reconciliation of GAAP to Core Results

The following tables provide a reconciliation of GAAP (As Reported) and non-GAAP (Core) financial measures. A non-GAAP financial measure is a numerical measure of historical or future financial performance, financial position or cash flows that excludes or includes amounts that are required to be disclosed in the most directly comparable measure calculated and presented in accordance with generally accepted accounting principles in the United States (“U.S. GAAP”). The Company’s management believes the presentation of non-GAAP financial measures provide investors with a greater understanding of the Company’s operating results in addition to the results measured in accordance with GAAP. While management uses these non-GAAP measures in its analysis of the Company’s performance, this information should not be viewed as a substitute for financial results determined in accordance with GAAP or considered to be more information than financial results determined in accordance with GAAP.
