COMMUNITY FIRST BANCSHARES, INC.
Notes to Unaudited Consolidated Financial Statements

(1) Basis of Presentation

Community First Bancshares, Inc. (the “Company”) is a savings and loan holding company headquartered in Covington, Georgia. The Company has one operating subsidiary, Newton Federal Bank (the “Bank”), conducting banking activities primarily in Newton County, Georgia and surrounding counties. The main emphasis of the Bank is providing mortgage loans in its primary lending area. It offers such customary banking services as consumer and commercial checking accounts, savings accounts, certificates of deposit, mortgage, commercial and consumer loans, money transfers and a variety of other banking services. In October 2018, we opened an indirect automobile loan division, Community First Auto.

The accompanying unaudited consolidated financial statements and notes thereto contain all adjustments, consisting only of normal recurring adjustments, necessary to present fairly, in accordance with accounting principles generally accepted in the United States of America (“GAAP”), the financial position of the Company as of March 31, 2019 and the results of its operations and its cash flows for the periods presented. The interim consolidated financial information should be read in conjunction with the annual financial statements and the notes thereto included in the Company’s September 30, 2018 Form 10-K. The results of operations for the quarter ended March 31, 2019, are not necessarily indicative of the results to be expected for a full year or for any other period.

On October 25, 2018, both the Company and the Bank changed their fiscal year end from September 30 to December 31. This change will bring the Company and the Bank in line with industry standards and will improve accounting and reporting efficiencies by making the fiscal year-end and the calendar year-end the same. As a result of the change in fiscal year, the Company filed a Transition Report on Form 10-Q covering the transition period from October 1, 2018 to December 31, 2018.

Use of Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates. Material estimates common to the banking industry that are particularly susceptible to significant change in the near term include, but are not limited to, the determination of the allowance for loan losses, the valuation of other real estate acquired in connection with foreclosure or in satisfaction of loans and valuation allowances associated with the realization of deferred tax assets, which are based on future taxable income.

Summary of Significant Accounting Policies – The accounting and reporting policies of the Company conform to GAAP and general practices within the banking industry. There have been no material changes or developments in the application of principles or in our evaluation of the accounting estimates and the underlying assumptions or methodologies that we believe to be Critical Accounting Policies as disclosed in the Company’s financial statements for the year ended September 30, 2018 included in the Company’s Form 10-K.

Net income per share is calculated for the period that the Company’s shares of common stock were outstanding which includes the current quarter and the same quarter in the previous year. The net income for the current period was \$117,000 and the weighted average common shares outstanding were 7,451,933. The net income for the same quarter in the previous year was \$333,000 and the weighted average common shares outstanding were 7,538,250.

Recent Accounting Pronouncements

There have been no pronouncements issued during the quarter that would have a material impact on the Company’s financial statements.

(2) Investment Securities

Investment Securities Held-to-Maturity

Investment securities held-to-maturity at March 31, 2019 and December 31, 2018 are as follows: (in thousands)

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
March 31, 2019				
U.S. Government sponsored enterprises	\$ 1,000	—	(4)	996
December 31, 2018				
U.S. Government sponsored enterprises	\$ 1,000	—	(7)	993

COMMUNITY FIRST BANCSHARES, INC.

Notes to Unaudited Consolidated Financial Statements

The U.S. government sponsored enterprise security as of March 31, 2019 is comprised of one debt financing security issued by a government agency that matures within one year.

There were no sales of securities held-to-maturity during the three months ended March 31, 2019 or 2018.

The one held-to-maturity security was pledged to secure public deposits at both March 31, 2019 and December 31, 2018.

Investment Securities Available-for-Sale

Investment securities available-for-sale at March 31, 2019 and December 31, 2018 are as follows: (in thousands)

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
March 31, 2019				
Municipal securities - tax exempt	\$ 5,652	78	(1)	5,729
Municipal securities - taxable	3,116	12	(29)	3,099
Government agency securities	501	—	(6)	495
Government agency mortgage-backed securities	11,966	—	(146)	11,820
Total	\$ 21,235	90	(182)	21,143
December 31, 2018				
Municipal securities - tax exempt	\$ 5,670	12	(73)	5,609
Municipal securities - taxable	3,119	—	(132)	2,987
Government agency securities	501	—	(10)	491
Government agency mortgage-backed securities	12,451	—	(393)	12,058
Total	\$ 21,741	12	(608)	21,145

There were no securities in an unrealized loss position less than 12 months and 26 securities were in an unrealized loss position 12 months or greater as of March 31, 2019. The unrealized losses on the debt securities arose due to changing interest rates and market conditions and are considered temporary because of acceptable investment grades where the repayment sources of principal and interest are largely backed by U.S. Government sponsored agencies or financially stable municipalities. The Company does not intend to sell the investments and it is not likely that the Company will be required to sell the investments before recovery of their amortized cost basis which may be at maturity.

COMMUNITY FIRST BANCSHARES, INC.

Notes to Unaudited Consolidated Financial Statements

The amortized cost and estimated fair value of investment securities available-for-sale at March 31, 2019, by contractual maturity, are shown below. Maturities of mortgage-backed securities will differ from contractual maturities because borrowers may have the right to call or prepay certain obligations with or without call or prepayment penalties. Therefore, these securities are not included in the maturity categories. (in thousands)

	Amortized Cost	Estimated Fair Value
Municipal securities - tax exempt		
Within 1 year	\$ —	—
Greater than 1 to 5 years	749	764
Greater than 5 to 10 years	4,903	4,965
Greater than 10 years	—	—

Greater than 5 to 10 years	—	—
Greater than 10 years	—	—
	<u>501</u>	<u>495</u>
Government agency mortgage-backed securities	<u>11,966</u>	<u>11,820</u>
Total	<u>\$ 21,235</u>	<u>21,143</u>

There were no sales of securities available-for-sale during the three months ended March 31, 2019 or 2018.

Securities with a carrying value of approximately \$1.8 million were pledged to secure public deposits at March 31, 2019 and December 31, 2018.

(3) Loans and Allowance for Loan Losses

Major classifications of loans, by collateral code, at March 31, 2019 and December 31, 2018 are summarized as follows: (in thousands)

	March 31, 2019	December 31, 2018
Commercial (secured by real estate)	\$ 53,082	50,716
Commercial and industrial	26,256	25,612
Construction, land and acquisition & development	16,475	12,367
Residential mortgage 1-4 family	132,352	138,156
Consumer installment	<u>11,347</u>	<u>4,595</u>
Total	239,512	231,446
Less allowance for loan losses	<u>(4,146)</u>	<u>(4,022)</u>
Total loans, net	<u>\$ 235,366</u>	<u>227,424</u>

The Bank grants loans and extensions of credit to individuals and a variety of firms and corporations located primarily in Newton County and other surrounding Georgia counties. A substantial portion of the loan portfolio is collateralized by improved and unimproved real estate and is dependent upon the real estate market.

Qualifying loans in the amount of approximately \$119.9 million and \$125.0 million were pledged to secure the line of credit from Federal Home Loan Bank (the "FHLB") at March 31, 2019 and December 31, 2018, respectively.

COMMUNITY FIRST BANCSHARES, INC.

Notes to Unaudited Consolidated Financial Statements

The following table presents the balance in the allowance for loan losses and the recorded investment in loans by portfolio segment and based on impairment method as of and for the three months ended March 31, 2019 and 2018: (in thousands)

	Commercial (Secured by Real Estate)	Commercial and Industrial	Construction, Land and Acquisition & Development	Residential Mortgage	Consumer Installment	Unallocated	Total

Collectively evaluated for impairment	1,317	1,230	265	1,259	69	8	4,148
Total ending allowance	\$ 1,328	1,230	265	1,266	69	8	4,166
Loans:							
Individually evaluated for impairment	\$ 1,991	992	—	5,830	3	—	8,816
Collectively evaluated for impairment	35,365	25,757	21,990	136,193	2,580	—	221,885
Total loans	\$ 37,356	26,749	21,990	142,023	2,583	—	230,701

The Bank individually evaluates all loans for impairment that are on nonaccrual status or are rated substandard (as described below). Additionally, all troubled debt restructurings are evaluated for impairment. A loan is considered impaired when, based on current events and circumstances, it is probable that all amounts due according to the contractual terms of the loan will not be collected. Impaired loans are measured based on the present value of expected future cash flows, discounted at the loan's effective interest rate, at the loan's observable market price, or the fair value of the collateral if the loan is collateral dependent. Interest payments received on impaired loans are applied as a reduction of the outstanding principal balance.

COMMUNITY FIRST BANCSHARES, INC.
Notes to Unaudited Consolidated Financial Statements

Impaired loans at March 31, 2019 and December 31, 2018 were as follows: (in thousands)

	Recorded Investment	Unpaid Principal Balance	Allocated Related Allowance	Average Recorded Investment	Interest Income Recognized

Consumer installment	9	1	1	11	4,584	4,595	1
Total	\$ 205	1,040	229	1,474	229,972	231,446	1,828

There were no loans past due 90 days or greater and still accruing interest as of March 31, 2019 and December 31, 2018.

There were no new troubled debt restructurings during the three months ended March 31, 2019 or 2018. No troubled debt restructurings subsequently defaulted during the three months ended March 31, 2019 or 2018.

The Bank has allocated an allowance for loan losses of approximately \$6,000 and \$5,000 to customers whose loan terms have been modified in troubled debt restructurings as of March 31, 2019 and December 31, 2018, respectively.

The Bank categorizes loans into risk categories based on relevant information about the ability of borrowers to service their debt such as: current financial information, historical payment experience, credit documentation, public information and current economic trends, among other factors. The Bank analyzes loans individually by classifying the loans as to credit risk. This analysis is performed on a continuous basis. The Bank uses the following definitions for its risk ratings:

Special Mention. Loans have potential weaknesses that may, if not corrected, weaken or inadequately protect the Bank's credit position at some future date. Weaknesses are generally the result of deviation from prudent lending practices, such as over advances on collateral. Credits in this category should, within a 12-month period, move to Pass if improved or drop to Substandard if poor trends continue.

Substandard. Inadequately protected by the current net worth and paying capacity of the obligor or by the collateral pledged, if any. Loans have a well-defined weakness or weaknesses such as primary source of repayment is gone or severely impaired or cash flow is insufficient to reduce debt. There is a distinct possibility that the Bank will sustain some loss if the deficiencies are not corrected.

Doubtful. Loans have weaknesses of those classified Substandard, with the added characteristic that the weaknesses make collection or liquidation in full highly questionable and improbable. The likelihood of a loss on an asset or portion of an asset classified Doubtful is high.

Loss. Loans considered uncollectible and of such little value that the continuance as a Bank asset is not warranted. This does not mean that the loan has no recovery or salvage value, but rather the asset should be charged off even though partial recovery may be possible in the future.

COMMUNITY FIRST BANCSHARES, INC.

Notes to Unaudited Consolidated Financial Statements

Loans not meeting the criteria above that are analyzed individually as part of the above described process are considered to be Pass rated loans. As of March 31, 2019, and December 31, 2018, and based on the most recent analysis performed, the risk category of loans by class of loans is as follows: (in thousands)

March 31, 2019	Pass	Special Mention	Substandard	Doubtful/ Loss	Total
Commercial (secured by real estate)	\$ 52,633	—	449	—	53,082
Commercial and industrial	26,256	—	—	—	26,256
Construction, land and acquisition & development	16,475	—	—	—	16,475
Residential mortgage	127,898	65	4,389	—	132,352
Consumer installment	11,300	—	47	—	11,347
Total	<u>\$ 234,562</u>	<u>65</u>	<u>4,885</u>	<u>—</u>	<u>239,512</u>

December 31, 2018	Pass	Special Mention	Substandard	Doubtful/ Loss	Total
Commercial (secured by real estate)	\$ 50,395	—	321	—	50,716
Commercial and industrial	25,585	—	27	—	25,612
Construction, land and acquisition & development	12,367	—	—	—	12,367
Residential mortgage	132,167	65	5,924	—	138,156
Consumer installment	4,553	—	42	—	4,595
Total	<u>\$ 225,067</u>	<u>65</u>	<u>6,314</u>	<u>—</u>	<u>231,446</u>

(4) Deposits

The aggregate amounts of certificates of deposit of \$250,000 or more, the standard FDIC deposit insurance coverage limit per depositor, were approximately \$15.1 million at March 31, 2019 and \$14.2 million at December 31, 2018. The aggregate amounts of certificates of deposit of \$100,000 or more were approximately \$45.0 million at March 31, 2019 and \$42.4 million at December 31, 2018.

(5) Borrowings

The following Federal Home Loan Bank of Atlanta (“FHLB”) advances, which required monthly or quarterly interest payments, were outstanding at December 31, 2018:

Advance Date	Advance	Interest Rate	Maturity	Rate	Call Feature
10/25/2017	\$ 2,710,000	1.98%	10/26/2020	Fixed	None
10/25/2017	1,250,000	1.81%	10/25/2019	Fixed	None
11/13/2017	1,190,000	1.87%	11/13/2019	Fixed	None
11/13/2017	2,420,000	2.02%	11/13/2020	Fixed	None
	<u>\$ 7,570,000</u>				

All of these advances were repaid during the quarter ended March 31, 2019. The FHLB advances were collateralized by certain loans which totaled approximately \$125.0 million at December 31, 2018, and by the Company’s investment in FHLB stock which totaled approximately \$580,000 at December 31, 2018.

The Company had one FHLB letter of credit of \$2.5 million and \$5.0 million, used to collateralize public deposits, outstanding at March 31, 2019 and December 31, 2018, respectively.

COMMUNITY FIRST BANCSHARES, INC.

Notes to Unaudited Consolidated Financial Statements

(6) Employee Stock Ownership Plan

The Company sponsors an employee stock ownership plan (“ESOP”) that covers all employees who meet certain service requirements. The Company makes annual contributions to the ESOP in amounts as defined by the plan document. These contributions are used to pay debt service and purchase additional shares. Certain ESOP shares are pledged as collateral for debt. As the debt is repaid, shares are released from collateral and allocated to active employees, based on the proportion of debt service paid in the year.

In April 2017, the ESOP borrowed \$2,954,990 payable to the Company for the purpose of purchasing shares of the Company’s common stock. A total of 295,499 shares were purchased with the loan proceeds as part of the Company’s initial stock offering. Total ESOP expense for the three months ended March 31, 2019 and 2018 was approximately \$31,000 and \$33,000, respectively. The balance of the note payable of the ESOP was \$2,750,592 at March 31, 2019 and December 31, 2018. Because the source of the loan payments are contributions received by the ESOP from the Company, the related note receivable is shown as a reduction of stockholders’ equity. As of March 31, 2019, 23,600 shares had been released.

(7) Fair Value Measurements and Disclosures

The Company utilizes fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. From time to time, the Company may be required to record at fair value other assets on a nonrecurring basis, such as impaired loans and other real estate owned. These nonrecurring fair value adjustments typically involve application of the lower of cost or market accounting or write-downs of individual assets. Additionally, the Company is required to disclose, but not record, the fair value of other financial instruments.

Fair Value Hierarchy

The Company groups assets and liabilities at fair value in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value. These levels are:

Level 1 – Valuation is based upon quoted prices for identical instruments traded in active markets.

Level 2 – Valuation is based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.

Level 3 – Valuation is generated from model-based techniques that use at least one significant assumption not observable in the market. These unobservable assumptions reflect estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include use of option pricing models, discounted cash flow models and similar techniques.

Following is a description of valuation methodologies used for assets and liabilities recorded at fair value.

Cash and Cash Equivalents

The carrying value of cash and cash equivalents is a reasonable estimate of fair value.

Investment Securities Available-for-Sale

Available-for-sale securities are recorded at market value. Fair value measurement is based upon quoted prices, if available. If quoted prices are not available, fair values are measured using independent pricing models or other model-based valuation techniques such as the present value of future cash flows, adjusted for the security’s credit rating, prepayment assumptions and other factors such as credit loss assumptions. Level 1 securities include those traded on an active exchange, such as the New York Stock Exchange, and U.S. Treasury securities that are traded by dealers or brokers in active over-the-counter market funds. Level 2 securities include mortgage-backed securities issued by government sponsored enterprises and state, county and municipal bonds. Securities classified as Level 3 include asset-backed securities in less liquid markets.

COMMUNITY FIRST BANCSHARES, INC.

Notes to Unaudited Consolidated Financial Statements

Investment Securities Held-to-Maturity

Held-to-maturity securities are recorded at cost, adjusted for the amortization or accretion of premiums and discounts. Fair value measurement is based upon quoted prices, if available. If quoted prices are not available, fair values are measured using independent pricing models or other model-based valuation techniques such as the present value of future cash flows, adjusted for the security's credit rating, prepayment assumptions and other factors such as credit loss assumptions. Level 1 securities include those traded on an active exchange, such as the New York Stock Exchange, and U.S. Treasury securities that are traded by dealers or brokers in active over-the-counter market funds. Level 2 securities include mortgage-backed securities issued by government sponsored enterprises and state, county and municipal bonds. Securities classified as Level 3 include asset-backed securities in less liquid markets.

FHLB Stock

The carrying value of FHLB stock approximates fair value.

Loans

The Company does not record loans at fair value on a recurring basis. However, from time to time, a loan is considered impaired and a specific reserve is established within the allowance for loan losses. Loans for which it is probable that payment of interest and principal will not be made in accordance with the contractual terms of the loan agreement are considered impaired. Once a loan is identified as individually impaired, management measures impairment in accordance with GAAP. The fair value of impaired loans is estimated using one of three methods, including collateral value, market value of similar debt, and discounted cash flows. Those impaired loans not requiring an allowance represent loans for which the fair value of the expected repayments or collateral exceed the recorded investments in such loans. In accordance with GAAP, impaired loans where an allowance is established based on the fair value of collateral require classification in the fair value hierarchy. When the fair value of the collateral is based on an observable market price, the Company records the impaired loan as nonrecurring Level 2. When an appraised value is used or an appraisal is not available or management determines the fair value of the collateral is further impaired below the appraised value and there is no observable market price, the Company records the impaired loan as nonrecurring Level 3. For disclosure purposes, the fair value of fixed rate loans which are not considered impaired is estimated by discounting the future cash flows using the current rates at which similar loans would be made to borrowers with similar credit ratings. For unimpaired variable rate loans, the carrying amount is a reasonable estimate of fair value for disclosure purposes.

Other Real Estate Owned

Other real estate properties are adjusted to fair value upon transfer of the loans to other real estate. Subsequently, other real estate assets are carried at fair value less estimated selling costs. Fair value is based upon independent market prices, appraised values of the collateral or management's estimation of the value of the collateral. When the fair value of the collateral is based on an observable market price, the Bank records the other real estate as nonrecurring Level 2. When an appraised value is used or an appraisal is not available or management determines the fair value of the collateral is further impaired below the appraised value and there is no observable market price, the Bank records the other real estate asset as nonrecurring Level 3.

Bank Owned Life Insurance

The carrying value of the cash surrender value of life insurance reasonably approximates fair value.

Deposits

The fair value of savings accounts, interest bearing checking accounts, non-interest bearing checking accounts and market rate checking accounts is the amount payable on demand at the reporting date, while the fair value of fixed maturity certificates of deposit is estimated by discounting the future cash flows using current rates at which comparable certificates would be issued.

Federal Home Loan Bank Advances

The fair value of Federal Home Loan Bank fixed rate borrowings are estimated using discounted cash flows, based on the current incremental borrowing rates for similar types of borrowing arrangements.

COMMUNITY FIRST BANCSHARES, INC.
Notes to Unaudited Consolidated Financial Statements

Commitments to Extend Credit

Commitments to extend credit are short-term and, therefore, the carrying value and the fair value are considered immaterial for disclosure.

Assets Recorded at Fair Value on a Recurring Basis

The Company's only assets recorded at fair value on a recurring basis are available-for-sale securities that had fair values of approximately \$21.1 million at March 31, 2019 and December 31, 2018. They are classified as Level 2.

Assets Recorded at Fair Value on a Nonrecurring Basis

The Company may be required, from time to time, to measure certain assets at fair value on a nonrecurring basis in accordance with GAAP. These include assets that are measured at the lower of cost or market that were recognized at fair value below cost at the end of the period. Assets measured at fair value on a nonrecurring basis are included in the table below as of March 31, 2019 and December 31, 2018 (in thousands).

March 31, 2019	Level 1	Level 2	Level 3	Total
Other real estate owned	\$ —	—	283	283
Impaired loans	—	—	5,326	5,326
Total assets at fair value	\$ —	—	5,609	5,609

December 31, 2018	Level 1	Level 2	Level 3	Total
Other real estate owned	\$ —	—	508	508
Impaired loans	—	—	5,547	5,547
Total assets at fair value	\$ —	—	6,055	6,055

The carrying amounts and estimated fair values (in thousands) of the Company's financial instruments at March 31, 2019 and December 31, 2018 are as follows:

	March 31, 2019		December 31, 2018	
	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value
Financial assets:				
Cash and cash equivalents	\$ 30,669	30,669	37,029	37,029
Investment securities				
available-for-sale	\$ 21,143	21,143	21,145	21,145
held-to-maturity	\$ 1,000	996	1,000	993
FHLB Stock	\$ 278	278	580	580
Loans, net	\$ 235,366	207,358	227,424	198,403
Cash surrender value of life insurance	\$ 7,303	7,303	7,251	7,251
Financial liabilities:				
Deposits	\$ 226,958	227,412	219,181	219,319
FHLB advances	\$ —	—	7,570	7,656

Limitations

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates do not reflect any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. Because no market exists for a significant portion of the Company's financial instruments, fair value estimates are based on many judgments. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

Fair value estimates are based on existing on and off-balance sheet financial instruments without attempting to estimate the value of anticipated future business and the value of assets and liabilities that are not considered financial instruments.

COMMUNITY FIRST BANCSHARES, INC.

Notes to Unaudited Consolidated Financial Statements

Significant assets and liabilities that are not considered financial instruments include deferred income taxes and premises and equipment. In addition, the tax ramifications related to the realization of the unrealized gains and losses can have a significant effect on fair value estimates and have not been considered in the estimates.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

General

Management's discussion and analysis of financial condition and results of operations at March 31, 2019 and December 31, 2018 and for the three months ended March 31, 2019 and 2018 is intended to assist in understanding the financial condition and results of operations of the Company. The information contained in this section should be read in conjunction with the unaudited consolidated financial statements and the notes thereto appearing in Part I, Item 1, of this report on Form 10-Q.

Cautionary Note Regarding Forward-Looking Statements

This report contains forward-looking statements, which can be identified by the use of words such as "estimate," "project," "believe," "intend," "anticipate," "assume," "plan," "seek," "expect," "will," "may," "should," "indicate," "would," "contemplate," "continue," "target" and words of similar meaning. These forward-looking statements include, but are not limited to:

- statements of our goals, intentions and expectations;
- statements regarding our business plans, prospects, growth and operating strategies;
- statements regarding the quality of our loan and investment portfolios; and
- estimates of our risks and future costs and benefits.

These forward-looking statements are based on our current beliefs and expectations and are inherently subject to significant business, economic and competitive uncertainties and contingencies, many of which are beyond our control. In addition, these forward-looking statements are subject to assumptions with respect to future business strategies and decisions that are subject to change. Accordingly, you should not place undue reliance on such statements. We are under no duty to and do not take any obligation to update any forward-looking statements after the date of this report.

The following factors, among others, could cause actual results to differ materially from the anticipated results or other expectations expressed in the forward-looking statements:

- general economic conditions, either nationally or in our market areas, that are worse than expected;
- changes in the level and direction of loan delinquencies and write-offs and changes in estimates of the adequacy of the allowance for loan losses;
- our ability to access cost-effective funding;
- fluctuations in real estate values and both residential and commercial real estate market conditions;
- demand for loans and deposits in our market area;
- our ability to implement and change our business strategies;
- competition among depository and other financial institutions;
- inflation and changes in the interest rate environment that reduce our margins and yields, our mortgage banking revenues, the fair value of financial instruments or our level of loan originations, or increase the level of defaults, losses and prepayments on loans we have made and make;
- adverse changes in the securities or secondary mortgage markets;
- changes in laws or government regulations or policies affecting financial institutions, including changes in regulatory fees and capital requirements;
- changes in tax laws;
- the effects of any Federal government shutdown;
- changes in the quality or composition of our loan or investment portfolios;
- technological changes that may be more difficult or expensive than expected;
- failure or breaches of IT security systems;
- the inability of third-party providers to perform as expected;
- our ability to manage market risk, credit risk and operational risk in the current economic environment;

- our ability to introduce new products and services, enter new markets successfully and capitalize on growth opportunities;
- our ability to successfully integrate into our operations any assets, liabilities, customers, systems and management personnel we may acquire and our ability to realize related revenue synergies and cost savings within expected time frames, and any goodwill charges related thereto;
- changes in consumer spending, borrowing and savings habits;
- changes in accounting policies and practices, as may be adopted by the bank regulatory agencies, the Financial Accounting Standards Board, the Securities and Exchange Commission or the Public Company Accounting Oversight Board;
- our ability to retain key employees;
- our compensation expense associated with equity allocated or awarded to our employees; and
- changes in the financial condition, results of operations or future prospects of issuers of securities that we own.

Because of these and other uncertainties, our actual future results may be materially different from the results indicated by these forward-looking statements.

Summary of Significant Accounting Policies

A summary of our accounting policies is described in Note 1 of the Notes to the Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended September 30, 2018. The discussion and analysis of the financial condition and results of operations are based on our financial statements, which are prepared in conformity with GAAP. The preparation of these financial statements requires management to make estimates and assumptions affecting the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities, and the reported amounts of income and expenses. We consider the accounting policies discussed below to be significant accounting policies. The estimates and assumptions that we use are based on historical experience and various other factors and are believed to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions, resulting in a change that could have a material impact on the carrying value of our assets and liabilities and our results of operations.

The Jumpstart Our Business Startups Act of 2012 (the "JOBS Act") contains provisions that, among other things, reduce certain reporting requirements for qualifying public companies. As an "emerging growth company" we may delay adoption of new or revised accounting pronouncements applicable to public companies until such pronouncements are made applicable to private companies. We intend to take advantage of the benefits of this extended transition period. Accordingly, our financial statements may not be comparable to companies that comply with such new or revised accounting standards.

The following represent our significant accounting policies:

Allowance for Loan Losses. The allowance for loan losses is a reserve for estimated credit losses on individually evaluated loans determined to be impaired as well as estimated credit losses inherent in the loan portfolio. Actual credit losses, net of recoveries, are deducted from the allowance for loan losses. Loans are charged off when management believes that the collectability of the principal is unlikely. Subsequent recoveries, if any, are credited to the allowance for loan losses. A provision for loan losses, which is a charge against earnings, is recorded to bring the allowance for loan losses to a level that, in management's judgment, is adequate to absorb probable losses in the loan portfolio. Management's evaluation process used to determine the appropriateness of the allowance for loan losses is subject to the use of estimates, assumptions, and judgment. The evaluation process involves gathering and interpreting many qualitative and quantitative factors which could affect probable credit losses. Because interpretation and analysis involves judgment, current economic or business conditions can change, and future events are inherently difficult to predict, the anticipated amount of estimated loan losses and therefore the appropriateness of the allowance for loan losses could change significantly.

The allocation methodology applied by the Bank is designed to assess the appropriateness of the allowance for loan losses and includes allocations for specifically identified impaired loans and loss factor allocations for all remaining loans, with a component primarily based on historical loss rates and a component primarily based on other qualitative factors. The methodology includes evaluation and consideration of several factors, such as, but not limited to, management's ongoing review and grading of loans, facts and issues related to specific loans, historical loan loss and delinquency experience, trends in past due and non-accrual loans, existing risk characteristics of specific loans or loan pools, the fair value of underlying collateral, current economic conditions and other qualitative and quantitative factors which could affect potential credit losses. While management uses the best information available to make its evaluation, future adjustments to the allowance may be necessary if there are significant changes in economic conditions or circumstances underlying the collectability of loans. Because each of the criteria used is subject to change, the allocation of the allowance for loan losses is made for analytical purposes and is not necessarily indicative of the trend of future loan losses in any particular loan category. The total allowance is available to absorb losses from any segment of the loan portfolio. Management believes the allowance for loan losses was appropriate at March 31, 2019. The allowance analysis is reviewed by the board of directors on a quarterly basis in compliance with regulatory requirements. In addition, various regulatory agencies periodically review the allowance for loan losses. As a result of such reviews, we may have to adjust our allowance for loan losses. However, regulatory agencies are not directly involved in the process of establishing the allowance for loan losses as the process is the responsibility of the Bank and any increase or decrease in the allowance is the responsibility of management.

Income Taxes. The assessment of income tax assets and liabilities involves the use of estimates, assumptions, interpretation, and judgment concerning certain accounting pronouncements and federal and state tax codes. There can be no assurance that future events, such as court decisions or positions of federal and state taxing authorities, will not differ from management's current assessment, the impact of which could be significant to the results of operations and reported earnings.

The Company and the Bank file a federal and a state income tax return. Amounts provided for income tax expense are based on income reported for financial statement purposes and do not necessarily represent amounts currently payable under tax laws. Deferred income tax assets and liabilities are computed annually for differences between the financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on enacted tax law rates applicable to the periods in which the differences are expected to affect taxable income. As changes in tax laws or rates are enacted, deferred tax assets and liabilities are adjusted through the provision for income tax expense. Valuation allowances are established when it is more likely than not that a portion of the full amount of the deferred tax asset will not be realized. In assessing the ability to realize deferred tax assets, management considers the scheduled reversal of deferred tax liabilities, projected future taxable income and tax planning strategies. The Company may also recognize a liability for unrecognized tax benefits from uncertain tax positions. Unrecognized tax benefits represent the differences between a tax position taken or expected to be taken in a tax return and the benefit recognized and measured in the financial statements. Penalties related to unrecognized tax benefits are classified as income tax expense.

Comparison of Financial Condition at March 31, 2019 and December 31, 2018

Total assets increased \$326,000, or 0.1%, to \$308.0 million at March 31, 2019 from \$307.7 million at December 31, 2018. The increase was due primarily to an increase in loans, offset by a decrease in cash and cash equivalents.

Cash and cash equivalents decreased \$6.4 million, or 17.2%, to \$30.7 million at March 31, 2019 from \$37.0 million at December 31, 2018. The decrease resulted as we deployed excess cash to fund loan growth and repay borrowings, partially offset by increased deposits.

Loans held for investment increased \$7.9 million, or 3.5%, to \$235.4 million at March 31, 2019 from \$227.4 million at December 31, 2018. Construction loans increased \$4.1 million, or 33.2%, to \$16.5 million at March 31, 2019 from \$12.4 million at December 31, 2018 as draws on previously closed construction loans were disbursed and as new construction loans were made, including a \$1.3 million Small Business Administration construction loan. Commercial real estate loans increased \$2.4 million, or 4.7% to \$53.1 million at March 31, 2019 from \$25.6 million at December 31, 2018. Commercial loans increased \$644,000, or 2.5%, to \$26.3 million at March 31, 2019 from \$25.6 million at December 31, 2018. Consumer loans increased \$6.8 million or 146.9% to \$11.3 million at March 31, 2019 from \$4.6 million at December 31, 2018, as we opened our indirect automobile lending division, Community First Auto, in a former branch office location in October 2018 and have seen loan volume increase significantly as more automobile dealership relationships were established. These increases were partially offset by a decrease in one-to-four family residential real estate loans of \$5.8 million, or 4.2%, to \$132.4 million at March 31, 2019 from \$138.2 million at December 31, 2018 as mortgage loans continue to be refinanced at lower rates than we offer.

Securities available-for-sale remained unchanged at \$21.1 million at March 31, 2019, and December 31, 2018, as paydowns on mortgage-backed securities were offset by market value increases in the portfolio.

Total deposits increased \$7.8 million, or 3.6%, to \$227.0 million at March 31, 2019 from \$219.2 million at December 31, 2018. The increase was caused by increases in all deposit account types, including increases of \$2.3 million, or 2.6%, in certificates of deposit, \$2.2 million, or 4.2%, in interest-bearing checking accounts, \$1.5 million, or 5.4%, in non-interest-bearing checking accounts, \$1.4 million, or 5.7%, in savings accounts, and \$344,000, or 1.4%, in market rate checking accounts. Deposits have increased largely from the opening of new accounts.

We had no outstanding borrowings at March 31, 2019, compared to \$7.6 million of Federal Home Loan Bank advances at December 31, 2018, as we have funded our operations with excess cash provided by an increase in deposits.

Stockholders' equity was \$76.3 million at March 31, 2019, compared to \$76.4 million at December 31, 2018. Net income of \$117,000 for the three months ended March 31, 2019 and a decrease in accumulated other comprehensive loss were offset by treasury stock repurchases during the quarter.

Average Balance Sheets

The following tables set forth average balance sheets, average yields and costs, and certain other information for the periods indicated. No tax-equivalent yield adjustments have been made, as the effects would be immaterial. All average balances are monthly average balances. Non-accrual loans were included in the computation of average balances. The yields set forth below include the effect of deferred fees, discounts, and premiums that are amortized or accreted to interest income or interest expense.

	For the Three Months Ended March 31,					
	2019			2018		
	Average Outstanding Balance	Interest	Average Yield/Rate	Average Outstanding Balance	Interest	Average Yield/Rate
	(Dollars in thousands)					
Interest-earning assets:						
Loans	\$ 231,884	\$ 3,244	5.60%	\$ 218,765	\$ 3,137	5.74%
Securities	22,245	134	2.40%	24,361	146	2.39%
Interest-earning deposits	21,627	177	3.28%	19,080	76	1.58%
Federal Home Loan Bank of Atlanta stock	471	8	7.00%	540	8	6.16%
Total interest-earning assets	276,227	3,563	5.16%	262,746	3,367	5.13%
Non-interest-earning assets	31,028			23,814		
Total assets	<u>\$ 307,255</u>			<u>\$ 286,560</u>		
Interest-bearing liabilities:						
Savings accounts	\$ 25,376	\$ 6	0.10%	\$ 24,376	\$ 2	0.04%
Interest-bearing checking	54,612	99	0.72%	41,188	59	0.58%
Market Rate checking accounts	25,062	51	0.82%	23,036	16	0.27%
Certificates of Deposits	88,368	355	1.61%	84,528	239	1.13%
Total interest-bearing deposits	193,418	511	1.06%	173,128	316	0.73%
Borrowings	4,957	24	1.94%	7,570	37	1.95%
Total interest-bearing liabilities	198,375	535	1.08%	180,698	353	0.78%
Non-interest-bearing liabilities	32,714			30,154		
Total liabilities	231,089			210,852		
Total stockholders' equity	76,166			75,708		
Total liabilities and stockholders' equity	<u>\$ 307,255</u>			<u>\$ 286,560</u>		
Net interest income		<u>\$ 3,028</u>			<u>\$ 3,014</u>	
Net interest rate spread (1)			4.08%			4.35%
Net interest-earning assets (2)	<u>\$ 77,852</u>			<u>\$ 82,048</u>		
Net interest margin (3)			4.38%			4.59%
Average interest-earning assets to interest-bearing liabilities		139.25%			145.41%	

(1) Net interest rate spread represents the difference between the weighted average yield on interest-earning assets and the weighted average rate of interest-bearing liabilities.

(2) Net interest-earning assets represent total interest-earning assets less total interest-bearing liabilities.

(3) Net interest margin represents net interest income divided by average total interest-earning assets.

Rate/Volume Analysis

The following table presents the effects of changing rates and volumes on our net interest income for the periods indicated. The rate column shows the effects attributable to changes in rate (changes in rate multiplied by prior volume). The volume column shows the effects attributable to changes in volume (changes in volume multiplied by prior rate). The total column represents the sum of the prior columns. For purposes of this table, changes attributable to both rate and volume, which cannot be segregated, have been allocated proportionately based on the changes due to rate and the changes due to volume.

	Three Months Ended March 31, 2019 vs. 2018

Comparison of Operating Results for the Three Months Ended March 31, 2019 and 2018

General. Net income decreased \$216,000 to \$117,000 for the three months ended March 31, 2019, compared to \$333,000 for the three months ended March 31, 2018. The decrease was due primarily to an increase in non-interest expenses of \$204,000 and a decrease in non-interest income of \$100,000.

Interest Income. Interest income increased \$196,000, or 5.8%, to \$3.6 million for the three months ended March 31, 2019 from \$3.4 million for the three months ended March 31, 2018. The increase was due to increases in interest income on loans and interest-earning deposits, partially offset by a decrease in interest income on investment securities.

Interest income on loans increased \$107,000, or 3.4%, to \$3.2 million for the three months ended March 31, 2019 from \$3.1 million for the three months ended March 31, 2018. Our average balance of loans increased \$13.1 million, or 6.0%, to \$231.9 million for the three months ended March 31, 2019 from \$218.8 million for the three months ended March 31, 2018. The increase in the average balance of loans resulted primarily from the opening of our indirect automobile lending division, Community First Auto, in a former branch office location in October 2018. Our average yield on loans decreased 14 basis points to 5.60% for the three months ended March 31, 2019 from 5.74% for the three months ended March 31, 2018, due primarily to changes in our loan portfolio composition and competitive pressure on rates.

Interest income on interest-earning deposits increased \$101,000 or 132.9%, to \$177,000 for the three months ended March 31, 2019 from \$76,000 for the three months ended March 31, 2018. The increase in interest income on interest-earning deposits was due primarily to a 170 basis point increase in yield, reflecting increases in market interest rates. Our average balance of interest-earning deposits increased \$2.5 million, or 13.3%, to \$21.6 million for the three months ended March 31, 2019 from \$19.1 million for the three months ended March 31, 2018, as increases in customer deposits provided adequate funds to invest in loans and repay borrowings.

Interest income on securities (excluding Federal Home Loan Bank stock) decreased \$12,000 to \$134,000 for the three months ended March 31, 2019 from \$146,000 for the three months ended March 31, 2018. The average balance of securities decreased \$2.1 million, or 8.7%, to \$22.2 million for the three months ended March 31, 2019 from \$24.4 million for the three months ended March 31, 2018. The average yield on securities increased one basis point, to 2.40% from 2.39%.

Interest Expense. Interest expense increased \$182,000, or 51.6%, to \$535,000 for the three months ended March 31, 2019, compared to \$353,000 for the three months ended March 31, 2018, due to an increase in interest expense on deposits, partially offset by a decrease in interest expense on borrowings.

We experienced an increase in interest expense for all deposit categories. Interest expense on certificates of deposit increased \$116,000 to \$355,000 for the three months ended March 31, 2019 from \$239,000 for the three months ended March 31, 2018. The average rate we paid on certificates of deposit increased 48 basis points to 1.61% for the three months ended March 31, 2019 from 1.13% for the three months ended March 31, 2018, reflecting our increasing interest rates in response to changes in market interest rates. The average balance of certificates of deposit increased to \$88.4 million for the three months ended March 31, 2019 compared to \$84.5 million for the three months ended March 31, 2018. Interest expense on interest-bearing checking accounts increased \$40,000 to \$99,000 for the three months ended March 31, 2019 compared to \$59,000 for the three months ended March 31, 2018. The average balance of and rate paid on interest-bearing checking accounts increased to \$54.6 million and 0.72%, respectively, for the three months ended March 31, 2019, from \$41.2 million and 0.58%, respectively, for the three months ended March 31, 2018, as we continue to see an increase in the number of Kasasa reward based checking accounts opened.

Interest expense on borrowings decreased to \$24,000 for the three months ended March 31, 2019 compared to \$37,000 for the three months ended March 31, 2018, as the average balance of borrowings decreased to \$5.0 million from \$7.6 million, as we repaid our FHLB advances during the quarter and have funded our operations with excess cash provided by an increase in deposits.

Net Interest Income. Net interest income increased \$14,000, or 0.5%, and was \$3.0 million for each of the three months ended March 31, 2019 and 2018. Our average net interest-earning assets decreased by \$4.2 million, or 5.1%, to \$77.9 million for the three months ended March 31, 2019 from \$82.0 million for the three months ended March 31, 2018, and our net interest rate spread decreased by 27 basis points to 4.08% for the three months ended March 31, 2019 from 4.35% for the three months ended March 31, 2018, reflecting increases in the average balance of interest-bearing liabilities and the rate paid on interest-bearing liabilities. Our net interest margin decreased by 21 basis points to 4.38% for the three months ended March 31, 2019 from 4.59% for the three months ended March 31, 2018.

Provision for Loan Losses. Provisions for loan losses are charged to operations to establish an allowance for loan losses at a level necessary to absorb known and inherent losses in our loan portfolio that are both probable and reasonably estimable at the date of the consolidated financial statements. In evaluating the level of the allowance for loan losses, management analyzes several qualitative loan portfolio risk factors including, but not limited to, management's ongoing review and grading of loans, facts and issues related to specific loans, historical loan loss and delinquency experience, trends in past due and non-accrual loans, existing risk characteristics of specific loans or loan pools, the fair value of underlying collateral, current economic conditions and other qualitative and quantitative factors which could affect potential credit losses. See "—Summary of Significant Accounting Policies" for additional information.

After an evaluation of these factors, we recorded no provision for loan losses for the three months ended March 31, 2019 or the three months ended March 31, 2018. Our allowance for loan losses was \$4.1 million at March 31, 2019 compared to \$4.0 million at December 31, 2018 and \$4.2 million at March 31, 2018. The allowance for loan losses to total loans was 1.73% at March 31, 2019 compared to 1.74% at December 31, 2018 and 1.81% at March 31, 2018. The allowance for loan losses to non-performing loans was 222.4% at March 31, 2019 compared to 220.0% at December 31, 2018 and 65.13% at March 31, 2018. We had recoveries of \$151,000 during the three months ended March 31, 2019.

To the best of our knowledge, we have recorded all loan losses that are both probable and reasonable to estimate at March 31, 2019. However, future changes in the factors described above, including, but not limited to, actual loss experience with respect to our loan portfolio, could result in material increases in our provision for loan losses. In addition, the Office of the Comptroller of the Currency, as an integral part of its examination process, will periodically review our allowance for loan losses, and as a result of such reviews, we may have to adjust our allowance for loan losses. However, regulatory agencies are not directly involved in the process of establishing the allowance for loan losses as the process is our responsibility and any increase or decrease in the allowance is the responsibility of management.

Non-interest Income. Non-interest income decreased \$100,000, or 21.9%, to \$356,000 for the three months ended March 31, 2019 from \$456,000 for the three months ended March 31, 2018. The decrease resulted primarily from a decrease in Small Business Administration loan fees of \$163,000, due to fewer Small Business Administration loans being closed during the quarter, partially offset by increases in service charges on deposit accounts and other non-interest income of \$6,000 and \$57,000, respectively, during the three months ended March 31, 2019.

Non-interest Expenses. Non-interest expenses information is as follows.

	Three Months Ended March 31,		Change	
	2019	2018	Amount	Percent
	(Dollars in thousands)			
Salaries and employee benefits	\$ 1,798	\$ 1,735	\$ 63	3.6%
Deferred compensation	52	52	—	—
Occupancy	478	413	65	15.7%
Advertising	32	27	5	18.5%
Data processing	262	234	28	12.0%
Other real estate owned	2	8	(6)	(75.0)%
Net gain on sale of other real estate owned	(34)	(20)	(14)	(70.0)%
Legal and accounting	274	264	10	3.8%
Organizational dues and subscriptions	80	73	7	9.6%
Director compensation	47	55	(8)	(14.5)%
Federal deposit insurance premiums	16	16	—	—
Other	279	225	54	24.0%
Total non-interest expenses	\$ 3,286	\$ 3,082	\$ 204	6.6%

Occupancy expense increased due to the renovation of our main office, various equipment purchases and increased software expenses. Salaries and employee benefits expense increased due to annual salary increases and rising benefits expense. Data processing expense increased due to growth in deposit accounts and an increase in consumer loans as a result of our indirect automobile lending division, Community First Auto. Other non-interest expenses increased due to increased loan related expenses and training expenses related to our core computer conversion.

Income Tax Expense. We incurred income tax benefit of \$19,000 for the three months ended March 31, 2019 compared to income tax expense of \$55,000 for the three months ended March 31, 2018 due to less pretax income than the previous quarter and generation of additional tax credits.

Management of Market Risk

General. Our most significant form of market risk is interest rate risk because, as a financial institution, the majority of our assets and liabilities are sensitive to changes in interest rates. Therefore, a principal part of our operations is to manage interest rate risk and limit the exposure of our financial condition and results of operations to changes in market interest rates. Our Asset/Liability Management Committee is responsible for evaluating the interest rate risk inherent in our assets and liabilities, for determining the level of risk that is appropriate, given our business strategy, operating environment, capital, liquidity and performance objectives, and for managing this risk consistent with the policy and guidelines approved by our board of directors. We currently utilize a third-party modeling program, prepared on a quarterly basis, to evaluate our sensitivity to changing interest rates, given our business strategy, operating environment, capital, liquidity and performance objectives, and for managing this risk consistent with the guidelines approved by the board of directors.

We have sought to manage our interest rate risk in order to minimize the exposure of our earnings and capital to changes in interest rates. We have implemented the following strategies to manage our interest rate risk:

- limiting our reliance on non-core/wholesale funding sources;
- growing our volume of transaction deposit accounts;
- increasing our investment securities portfolio, with an average maturity of less than 15 years;

- diversifying our loan portfolio by adding more commercial-related loans and consumer loans, which typically have shorter maturities and/or balloon payments; and
- continuing to price our one- to four-family residential real estate loan products in a way that encourages borrowers to select our balloon loans as opposed to longer-term, fixed-rate loans.

By following these strategies, we believe that we are better positioned to react to increases in market interest rates. In addition, during the year ended September 30, 2018, we introduced adjustable-rate, one- to four-family residential real estate loans in addition to our existing home equity loans and lines of credit, which are originated with adjustable interest rates.

We do not engage in hedging activities, such as engaging in futures, options or swap transactions, or investing in high-risk mortgage derivatives, such as collateralized mortgage obligation residual interests, real estate mortgage investment conduit residual interests or stripped mortgage backed securities.

Net Interest Income. We analyze our sensitivity to changes in interest rates through a net interest income model. Net interest income is the difference between the interest income we earn on our interest-earning assets, such as loans and securities, and the interest we pay on our interest-bearing liabilities, such as deposits and borrowings. We estimate what our net interest income would be for a 12-month period. We then calculate what the net interest income would be for the same period under the assumptions that the United States Treasury yield curve increases or decreases instantaneously by 200 and 400 basis point increments, with changes in interest rates representing immediate and permanent, parallel shifts in the yield curve. A basis point equals one-hundredth of one percent, and 100 basis points equals one percent. An increase in interest rates from 3% to 4% would mean, for example, a 100 basis point increase in the “Change in Interest Rates” column below.

The table below sets forth, as of March 31, 2019, the calculation of the estimated changes in our net interest income that would result from the designated immediate changes in the United States Treasury yield curve.

Change in Interest Rates (basis points) (1)	Net Interest Income Year 1 Forecast	Year 1 Change from Level
(Dollars in thousands)		
+400	\$ 12,502	2.10%
+200	12,392	1.20%
Level	12,245	—
-200	11,333	(7.45)%
-400	10,411	(14.98)%

(1) Assumes an immediate uniform change in interest rates at all maturities.

The table above indicates that at March 31, 2019, in the event of an instantaneous parallel 200 basis point increase in interest rates, we would have experienced a 1.20% increase in net interest income, and in the event of an instantaneous 200 basis point decrease in interest rates, we would have experienced a 7.45% decrease in net interest income. At March 31, 2018, in the event of an instantaneous parallel 200 basis point increase in interest rates, we would have experienced a 0.96% increase in net interest income, and in the event of an instantaneous 200 basis point decrease in interest rates, we would have experienced an 8.01% decrease in net interest income.

Net Economic Value. We also compute amounts by which the net present value of our assets and liabilities (net economic value or “NEV”) would change in the event of a range of assumed changes in market interest rates. This model uses a discounted cash flow analysis and an option-based pricing approach to measure the interest rate sensitivity of net portfolio value. The model estimates the economic value of each type of asset, liability and off-balance sheet contract under the assumptions that the United States Treasury yield curve increases or decreases instantaneously by 200 and 400 basis point increments, with changes in interest rates representing immediate and permanent, parallel shifts in the yield curve.

The table below sets forth, as of March 31, 2019, the calculation of the estimated changes in our NEV that would result from the designated immediate changes in the United States Treasury yield curve.

Change in Interest Rates (basis points) (1)	Estimated NEV (2)	Estimated Increase (Decrease) in NEV		NEV as a Percentage of Present Value of Assets (3)	
		Amount	Percent	NEV Ratio (4)	Increase (Decrease) (basis points)
(Dollars in thousands)					
+400	\$ 57,500	\$ (13,878)	(19.44)%	20.77%	(238)
+200	63,847	(7,531)	(10.55)%	21.91%	(124)
—	71,378	—	—	23.15%	—
-200	72,161	783	1.10%	22.42%	(73)
-400	68,572	(2,806)	(3.93)%	21.35%	(180)

- (1) Assumes an immediate uniform change in interest rates at all maturities.
- (2) NEV is the discounted present value of expected cash flows from assets, liabilities and off-balance sheet contracts.
- (3) Present value of assets represents the discounted present value of incoming cash flows on interest-earning assets.
- (4) NEV Ratio represents NEV divided by the present value of assets.

The table above indicates that at March 31, 2019, in the event of an instantaneous parallel 200 basis point increase in interest rates, we would have experienced a 10.55% decrease in net economic value, and in the event of an instantaneous 200 basis point decrease in interest rates, we would have experienced a 1.10% increase in net economic value. At March 31, 2018, in the event of an instantaneous parallel 200 basis point increase in interest rates, we would have experienced a 12.60% decrease in net economic value, and in the event of an instantaneous 200 basis point decrease in interest rates, we would have experienced a 3.17% increase in net economic value.

GAP Analysis. In addition, we analyze our interest rate sensitivity by monitoring our interest rate sensitivity “gap.” Our interest rate sensitivity gap is the difference between the amount of our interest-earning assets maturing or repricing within a specific time period and the amount of our interest-bearing liabilities maturing or repricing within that same time period. A gap is considered positive when the amount of interest rate sensitive assets maturing or repricing during a period exceeds the amount of interest rate sensitive liabilities maturing or repricing during the same period, and a gap is considered negative when the amount of interest rate sensitive liabilities maturing or repricing during a period exceeds the amount of interest rate sensitive assets maturing or repricing during the same period.

The following table sets forth our interest-earning assets and our interest-bearing liabilities at March 31, 2019, which are anticipated to reprice or mature in each of the future time periods shown based upon certain assumptions. The amounts of assets and liabilities shown which reprice or mature during a particular period were determined in accordance with the earlier of term to repricing or the contractual maturity of the asset or liability. The table sets forth an approximation of the projected repricing of assets and liabilities at March 31, 2019, on the basis of contractual maturities, anticipated prepayments and scheduled rate adjustments. The loan amounts in the table reflect principal balances expected to be redeployed and/or repriced as a result of contractual amortization and as a result of contractual rate adjustments on adjustable-rate loans. Amounts are based on a preliminary balance sheet as of March 31, 2019, and may not equal amounts included in our unaudited consolidated financial statements for the quarter ended March 31, 2019. However, we believe that there would be no material changes in the results of the gap analysis if the unaudited financial results included in Part 1, Item 1 of this quarterly report had been utilized.

	Time to Repricing					Total
	Zero to 90 Days	Zero to 180 Days	Zero Days to One Year	Zero Days to Two Years	Zero Days to Five Years	
	(Dollars in thousands)					
Assets:						
Cash and due from banks	\$ 19,909	19,909	19,909	19,909	19,909	\$ 31,249
Investments	1,105	2,603	3,574	5,806	10,066	22,640
Net loans	41,464	53,974	72,985	106,283	177,541	237,457
Other assets	—	—	—	—	—	18,085
Total	<u>\$ 62,478</u>	<u>76,486</u>	<u>96,468</u>	<u>131,998</u>	<u>207,516</u>	<u>\$309,431</u>
Liabilities:						
Non-maturity deposits	\$ 58,476	63,259	72,825	91,606	125,885	\$149,157
Certificates of deposit	5,936	12,387	30,107	40,982	72,992	89,791
Borrowings	—	—	—	—	—	2,751
Other liabilities	—	—	—	—	—	6,396
Equity capital	—	—	—	—	—	61,336
Total (1)	<u>\$ 64,412</u>	<u>75,646</u>	<u>102,932</u>	<u>132,588</u>	<u>198,877</u>	<u>\$309,431</u>
Asset/liability gap	\$ (1,934)	840	(6,464)	(590)	8,639	
Gap/assets ratio (2)	(0.63)%	(0.27)%	(2.09)%	(0.19)%	(2.79)%	

(1) Amounts do not foot due to rounding.

(2) Gap/assets ratio equals the asset/liability gap for the period divided by total assets (\$310.0 million).

At March 31, 2019, our asset/liability gap from zero days to one year was \$6.5 million, resulting in a gap/assets ratio of negative 2.90%. At March 31, 2018, our asset/liability gap from zero days to one year was \$845,000, resulting in a gap/assets ratio of negative 0.29%.

Certain shortcomings are inherent in the methodologies used in the above interest rate risk measurements. Modeling changes require making certain assumptions that may or may not reflect the manner in which actual yields and costs respond to changes in market interest rates. In this regard, the net interest income and net economic value tables presented assume that the composition of our interest-sensitive assets and liabilities existing at the beginning of a period remains constant over the period being measured and assumes that a particular change in interest rates is reflected uniformly across the yield curve regardless of the duration or repricing of specific assets and liabilities. Accordingly, although the net interest income and NEV tables provide an indication of our interest rate risk exposure at a particular point in time, such measurements are not intended to and do not provide a precise forecast of the effect of changes in market interest rates on net interest income and NEV and will differ from actual results. Furthermore, although certain assets and liabilities may have similar maturities or periods to repricing, they may react in different degrees to changes in market interest rates. Additionally, certain assets, such as adjustable-rate loans, have features that restrict changes in interest rates both on a short-term basis and over the life of the asset. In the event of changes in interest rates, prepayment and early withdrawal levels would likely deviate significantly from those assumed in calculating the gap table.

Interest rate risk calculations also may not reflect the fair values of financial instruments. For example, decreases in market interest rates can increase the fair values of our loans, deposits and borrowings.

Liquidity and Capital Resources

Liquidity describes our ability to meet the financial obligations that arise in the ordinary course of business. Liquidity is primarily needed to meet the borrowing and deposit withdrawal requirements of our customers and to fund current and planned expenditures. Our primary sources of funds are deposits, principal and interest payments on loans and securities, proceeds from the sale of loans, and proceeds from maturities of securities. We also have the ability to borrow from the Federal Home Loan Bank of Atlanta. At March 31, 2019, we had a \$77.0 million line of credit with the Federal Home Loan Bank of Atlanta, with a \$5.0 letter of credit outstanding, and we had a \$5.0 million unsecured federal funds line of credit and a \$7.5 million unsecured federal funds line of credit. No amount was outstanding on these lines of credit at March 31, 2019.

While maturities and scheduled amortization of loans and securities are predictable sources of funds, deposit flows and loan prepayments are greatly influenced by general interest rates, economic conditions, and competition. Our most liquid assets are cash and short-term investments including interest-bearing demand deposits. The levels of these assets are dependent on our operating, financing, lending, and investing activities during any given period.

Our cash flows are comprised of three primary classifications: cash flows from operating activities, investing activities, and financing activities. Net cash provided by operating activities was \$1.0 million for the three months ended March 31, 2019, compared to net cash provided by operating activities of \$434,000 for the three months ended March 31, 2018. Net cash used in investing activities, which consist primarily of disbursements for loan originations, was \$7.0 million and \$11.0 million for the three months ended March 31, 2019 and 2018, respectively. Net cash used in financing activities, which consist primarily of activity in deposit accounts and repayments of FHLB advances, was \$393,000 for the three months ended March 31, 2019, compared to net cash provided by financing activities of \$4.8 million for the three months ended March 31, 2018.

We are committed to maintaining a strong liquidity position. We monitor our liquidity position on a daily basis. We anticipate that we will have sufficient funds to meet our current funding commitments. Based on our deposit retention experience and current pricing strategy, we anticipate that a significant portion of maturing time deposits will be retained.

At March 31, 2019, we exceeded all of our regulatory capital requirements and were categorized as “well capitalized.” Management is not aware of any conditions or events since the most recent notification that would change our category. The Bank’s actual capital amounts and ratios for March 31, 2019 and December 31, 2018 are presented in the table below (in thousands).

	Actual		For Capital Adequacy Purposes		To Be Well Capitalized Under Prompt Corrective Action Provisions	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
As of March 31, 2019:						
Common Equity Tier 1 (to Risk Weighted Assets)	\$ 61,123	29%	\$ 9,562	4.50%	\$ 13,812	6.50%
Total Capital (to Risk Weighted Assets)	\$ 63,797	30%	\$ 16,999	8%	\$ 21,249	10%
Tier I Capital (to Risk Weighted Assets)	\$ 61,123	29%	\$ 12,749	6%	\$ 16,999	8%
Tier I Capital (to Average Assets)	\$ 61,123	20%	\$ 12,361	4%	\$ 15,451	5%
As of December 31, 2018:						
Common Equity Tier 1 (to Risk Weighted Assets)	\$ 60,880	29%	\$ 9,292	4.50%	\$ 13,422	6.50%
Total Capital (to Risk Weighted Assets)	\$ 63,479	31%	\$ 16,519	8%	\$ 20,649	10%
Tier I Capital (to Risk Weighted Assets)	\$ 60,880	29%	\$ 12,389	6%	\$ 16,519	8%
Tier I Capital (to Average Assets)	\$ 60,880	20%	\$ 12,291	4%	\$ 15,363	5%

As a result of the recently enacted Economic Growth, Regulatory Relief, and Consumer Protection Act, the federal banking agencies are required to develop a “Community Bank Leverage Ratio” (the ratio of a bank’s tangible equity capital to average total consolidated assets) for financial institutions with assets of less than \$10 billion. A “qualifying community bank” that exceeds this ratio will be deemed to be in compliance with all other capital and leverage requirements, including the capital requirements to be considered “well capitalized” under Prompt Corrective Action statutes. The federal banking agencies may consider a financial institution’s risk profile when evaluating whether it qualifies as a community bank for purposes of the capital ratio requirement. The federal banking agencies must set the minimum capital for the new Community Bank Leverage Ratio at not less than 8% and not more than 10%. A financial institution can elect to be subject to this new definition.

Off-Balance Sheet Arrangements and Aggregate Contractual Obligations

Commitments. As a financial services provider, we routinely are a party to various financial instruments with off-balance-sheet risks, such as commitments to extend credit and unused lines of credit. While these contractual obligations represent our future cash requirements, a significant portion of commitments to extend credit may expire without being drawn upon. Such commitments are subject to the same credit policies and approval process accorded to loans we make. At March 31, 2019, we had outstanding commitments to originate loans of \$27.3 million. We anticipate that we will have sufficient funds available to meet our current lending commitments. Time deposits that are scheduled to mature in less than one year from March 31, 2019 totaled \$30.1 million. Management expects that a substantial portion of the maturing time deposits will be renewed. However, if a substantial portion of these deposits is not retained, we may utilize Federal Home Loan Bank advances or raise interest rates on deposits to attract new accounts, which may result in higher levels of interest expense.

Contractual Obligations. In the ordinary course of our operations, we enter into certain contractual obligations. Such obligations include data processing services, operating leases for premises and equipment, agreements with respect to borrowed funds and deposit liabilities.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The information required by this item is included in Part 1, Item 2 of this quarterly report under “Management of Market Risk.”

Item 4. Controls and Procedures

An evaluation was performed under the supervision and with the participation of the Company’s management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of the Company’s disclosure controls and procedures (as defined in Rule 13a-15(e) promulgated under the Securities and Exchange Act of 1934, as amended) as of March 31, 2019. Based on that evaluation, the Company’s management, including the Chief Executive Officer and the Chief Financial Officer, concluded that the Company’s disclosure controls and procedures were effective.

During the quarter ended March 31, 2019, there have been no changes in the Company’s internal controls over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

We are not involved in any pending legal proceedings as a defendant other than routine legal proceedings occurring in the ordinary course of business. At March 31, 2019, we were not involved in any legal proceedings the outcome of which would be material to our financial condition or results of operations.

Item 1A. Risk Factors

Not applicable.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Not applicable.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.

Item 6. Exhibits

Exhibit Number	Description
3.1	Charter of Community First Bancshares, Inc. (1)
3.2	Bylaws of Community First Bancshares, Inc. (2)
3.3	Amendment to Bylaws of Community First Bancshares, Inc. (3)
31.1	Certification of Principal Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
31.2	Certification of Principal Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
32	Written Statement of Chief Executive Officer and Chief Financial Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
101.0	The following materials for the quarter ended March 31, 2019, formatted in XBRL (Extensible Business Reporting Language): (i) Balance Sheets, (ii) Statements of Operations, (iii) Statements of Comprehensive Income (Loss), (iv) Statements of Cash Flows, and (v) Notes to Financial Statements

Section 2: EX-31.1 (EX-31.1)

Exhibit 31.1

Certification of Principal Executive Officer

Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

I, Johnny S. Smith, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Community First Bancshares, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Section 3: EX-31.2 (EX-31.2)

Exhibit 31.2

Certification of Principal Financial Officer

Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

I, Tessa M. Nolan, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Community First Bancshares, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Section 4: EX-32 (EX-32)

Exhibit 32

Certification of Chief Executive Officer and Chief Financial Officer

Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

Johnny S. Smith, President and Chief Executive Officer of Community First Bancshares, Inc. (the "Company"), and Tessa M. Nolan, Senior Vice President and Chief Financial Officer of the Company, each certify in his or her capacity as an executive officer of the Company that he or she

has reviewed the quarterly report on Form 10-Q for the quarter ended March 31, 2019 (the “Report”) and that to the best of his or her knowledge:

1. the Report fully complies with the requirements of Sections 13(a) or 15(d) of the Securities Exchange Act of 1934; and
2. the information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
