Section One—Overview and Executive Summary

Compensation Program Background and Philosophy

We completed our IPO in August 2013. Prior to our IPO, our executive compensation program was established primarily by our board of directors and consisted primarily of base salary, annual performance-based bonuses, and options to purchase shares of our common stock. In connection with our IPO, we formed a compensation committee comprised entirely of independent directors, and beginning with fiscal

Table of Contents

2014, our executive compensation has been administered by this compensation committee. Our executive compensation is intended to attract, motivate, and retain executives and reward the creation of stockholder value. We seek to provide executive compensation packages that are competitive with comparable companies and reward the achievement of short-term and long-term performance goals.

Like most companies, we use a combination of fixed and variable compensation to reward and incentivize strong performance, as well as to align the interests of our executives with those of our stockholders. The compensation committee's philosophy is to position the target value of total direct compensation (referred to as "TDC") at the 50th percentile of comparable companies (our peer group discussed below along with other market survey data), which we believe will enable us to remain competitive in attracting and retaining qualified executive officers. However, our compensation committee's decisions on target compensation for specific individuals are also influenced by a variety of additional factors, including company and individual performance.

Our compensation committee establishes performance targets for short-term and long-term incentive plans that require the achievement of significant financial results, and a significant portion of executive compensation is based on these established financial targets. Compensation also depends on other factors such as the compensation paid by comparable companies, as derived from both peer group data and broader composite survey data, achievement of strategic objectives and the professional development and potential of individual officers.

At our 2014 annual meeting, our stockholders overwhelmingly approved, on an advisory basis, the 2013 compensation of our executive officers described in our 2014 proxy statement. Approximately 98% of the votes cast on the matter were voted "For" such advisory "say-on-pay" approval, while approximately 2% were voted "Against." In addition, at the Company's 2014 annual meeting, a majority of our stockholders supported the Board's recommendation to hold a vote on the Company's executive compensation program annually. As a result of the support received for its recommendation, the Board of Directors determined to hold a vote on executive compensation annually.

Our compensation committee took this approval into account as one of many factors it considered in connection with the discharge of its responsibilities. Even though the 2013 executive compensation received strong support, our compensation committee continued to refine our executive compensation program for 2014 and 2015 as described further below, as a demonstration of its attention to corporate governance and its emphasis on the link between pay and performance.

For 2014, our pay mix consisted of base salary, annual performance-based bonuses, and time-vest equity incentives consisting of stock option and restricted stock units (referred to as "RSUs"). We have no guaranteed bonuses, no pension plans or other executive retirement plans except our 401(k) plan available to all team members, and limited executive perquisites consisting only of an auto allowance provided to our CEO and payment of health and life insurance premiums for certain of our named executive officers.

For 2015, we determined to replace time-vest RSUs with performance-based restricted stock (referred to as "performance shares"). We believe that this change, together with our continuing use of an annual incentive bonus program based on company financial and operational objectives, closely links executive officer compensation to performance.

2014 Fiscal Year Performance

Fiscal 2014 was a critical year as we transitioned from a private to public company and the natural and organic food retail sector became more competitive than ever before. We believe our incentive-based executive compensation program for our named executive officers was instrumental in helping our company achieve our strong financial performance. Through hard work, focus, and discipline, we exceeded every goal for fiscal 2014.

Table of Contents

Highlights of our fiscal 2014 performance include the following:

- 24 new stores opened, representing unit growth of 14%;
- Net sales of \$2.97 billion; a 22% increase compared to 2013;
- Comparable store sales growth of 9.9% and two-year combined comparable store sales growth of 20.6%;
- Net income increased to \$107.7 million; and
- Diluted earnings per share of \$0.70.

Executive Summary of Our Fiscal 2014 Executive Compensation Program

The following provides an overview of our fiscal 2014 compensation program as detailed in the following sections.

- For fiscal 2014, compensation to our named executive officers consisted primarily of base salary, annual performance-based bonuses and time-vest equity incentives consisting of stock options and RSUs.
- Named executive officer salaries range from the 25th – 38th percentile of comparable companies for base salary with a goal of achieving the 35th percentile over time, the 50th percentile of comparable companies for incentive compensation, and the 50th percentile of comparable companies for TDC.
- We maintain stock ownership guidelines to encourage managing from an owner's perspective and to further align named executive officer interests with the interests of stockholders. Executives are required to own stock (including shares underlying equity awards) equal to five-times base salary for our CEO, and two-times base salary for other executive officers.
- Our executives participate in the same group benefit programs, such as 401(k) and health benefits, on substantially the same terms as other salaried team members.
- We have no guaranteed bonuses, no pension plans, no tax gross-up arrangements, and limited executive perquisites consisting only of an auto allowance provided to our CEO and payment of health and life insurance premiums for certain of our named executive officers.

Committee Actions Taken for 2015

An important principle driving our compensation program is our belief that it benefits our stockholders for management's compensation to be tied to our company's current and long-term performance. As a result, in 2015 at-risk pay will continue to comprise a significant portion of our executive compensation, particularly for our most senior officers. As we continue our transition to a mature public company in a competitive environment, our compensation committee continues to refine our compensation program. Our compensation committee determined to take the following actions with respect to our 2015 compensation structure:

- The compensation committee increased the base salaries of our executive officers by 5% to 10% as part of the committee's plan to move base salaries towards the 35th percentile of comparable companies and to move TDC levels to approximate the 50th percentile of these comparable companies, with the exception of the CEO. In late 2014, Mr. Sanders requested that his 2015 base salary not be increased over 2014, expressing to the compensation committee his "team" philosophy on compensation and the importance of retaining other key employees in the organization through incentive programs.
- The compensation committee continued to emphasize objective pay-for-performance criteria through the use of Plan EBITDA (defined below) and comparable store sales targets and the elimination of the individual performance component for our annual performance-based bonuses.

Table of Contents

- The cash bonus opportunities for each of our CEO, CFO and COO will remain the same for 2015, and for our other executive officers will increase to 50% of base salary.
- The compensation committee will maintain equity-based compensation equal to 300% of base salary for our CEO, 150% of base salary for our COO and CFO, and 80% of base salary for our other named executive officers, with the exception of our CLO, for whom the compensation committee approved a one-time grant equal to 160% of base salary in recognition of his exceptional contributions to our company in 2014.
- As part of our committee's emphasis on pay for performance, the compensation committee revised our long-term incentive compensation to replace time-vest RSUs with performance shares, which will be subject to our company achieving certain earnings per share performance targets. Thus, more of named executive officer compensation will be tied to performance to further ensure alignment with stockholders. For our CEO, 58% of target TDC for 2015 will be performance-based. For the other named executive officers, on average, 50% of target TDC will be performance-based.
- The agreements governing our equity awards will contain a double trigger change-in-control provision.

Section Two—Elements of our Compensation Program

The elements of our executive compensation program are presented below in summary format and more fully explained in the sections that follow:

Cash Compensation	Base Salary	Base salary is designed to provide a competitive fixed rate of pay recognizing different levels of responsibility and performance within our company.
	Performance-based Bonus	Our performance-based bonus is an annual cash incentive program to reward team members for achieving critical company goals.
Long-Term Incentive Compensation	Stock Options	Stock options are granted to provide incentive for long-term creation of stockholder value. Options represented 60% of the value of the annual long-term incentive grants awarded in fiscal 2014. Beginning in fiscal 2015, stock options will be reduced to 50% to shift more of the long-term incentive mix toward performance shares.
	Restricted Stock Units	RSUs have been granted to provide incentive for long-term creation of stockholder value. Beginning in fiscal 2015, time-vest RSUs will be replaced with performance shares.
Benefit Programs	Health, Welfare and Retirement Programs	Executives participate in the same benefit programs that are offered to other salaried team members. Our benefits are designed to provide market competitive benefits to protect team members' and their covered dependents' health and welfare and provide retirement benefits in the form of a 401(k).
Other	Perquisites	Limited perquisites are provided to certain executives in the form of company-paid health and life insurance premiums and a car allowance for our CEO.

Base Salary

Base salary is a fixed portion of compensation based on an individual's skills, responsibilities, experience and sustained performance. Base salaries for executives are benchmarked against jobs at other companies with similar responsibilities and scope and are targeted at the 35th percentile of market data for comparable companies. Actual salaries reflect an individual's responsibilities and more subjective factors, such as the compensation committee's (and the CEO's in the case of other named executive officers) assessment of the individual named executive officer's performance.

Table of Contents

Changes in base salary for the named executive officers depend on compensation versus the external market for similar jobs, the individual's current salary compared to the market, changes in job responsibilities and the officer's contributions to our performance as determined by the compensation committee.

Performance-based Cash Incentive Compensation

We utilize performance-based cash incentives to motivate executives to attain short-term objectives that align with long-term business goals. Meeting or exceeding our annual business and financial goals is important to executing our long-term business strategy and delivering long-term value to stockholders. Individual award opportunities vary by job level and are targeted at the 50th percentile of comparable companies. Our cash incentive plan is based upon (1) Adjusted EBITDA¹ as adjusted for expenses incurred in connection with secondary offerings of stock by stockholders and accrual of bonuses for our executive officers above their target bonus amounts (referred to as "Plan EBITDA"), and (2) comparable store sales growth. No incentive award is payable to executives unless a pre-established minimum Plan EBITDA goal is achieved.

The cash incentive plan focuses executives on critical financial and operational goals. Our compensation committee believes that Plan EBITDA is a primary indicator to our stockholders of overall business health, and its use achieves our desire to use a measure of profitability that drives stockholder value creating behaviors. The second measure, comparable store sales growth, focuses executive officers on both strengthening our core business and making our stores more effective.

Each executive officer has a target annual incentive bonus opportunity, expressed as a percentage of base salary (referred to as the "Target Bonus"), with the ability to earn above or below that target based on our company's actual performance. Individual award opportunities vary by job level and are targeted at the 50th percentile of comparable companies.

At the beginning of 2014, the compensation committee and board of directors approved the financial and operational goals for the company. The compensation committee also reviewed and approved the Target Bonus opportunity for each executive officer. If Plan EBITDA and comparable store sales growth were 100% of the established targets, our executive officers would be each entitled to receive 100% of such officer's respective Target Bonus. In addition, each executive officer had the opportunity to earn an outperformance bonus ranging from 150% to 200% of such officer's Target Bonus. The Target Bonus and Total Bonus Opportunity for our executive officers for 2014 were as follows:

Compensation Tier	Target Bonus (as % of Base Salary)	Total Bonus Opportunity (as % of Base Salary)
Tier I (CEO)	100%	200%
Tier II (COO and CFO)	70%	140%
Tier III (other named executive officers)	40%	60%

Because such a large percentage of executive officer compensation is performance-based, our compensation committee invests significant time determining the financial target for our annual cash bonus

¹ We define "Adjusted EBITDA" as net income before interest expense, provision for income tax, and depreciation and amortization, excluding store closure and exit costs, one-time costs associated with our 2011 business combination with Henry's Holdings, LLC and 2012 acquisition of Sunflower Farmers Market, Inc., gains and losses from disposal of assets, public offering expenses, loss on extinguishment of debt and certain other items that we do not consider representative of our ongoing financial performance.

Table of Contents

program. In general, management makes the initial recommendation for the financial target based upon our company's annual board-approved budget, and these recommendations are reviewed and discussed by the committee and its advisors. The major factors used in setting one or more targets for a particular year are the results for the most recently-completed year and the budget for the current year. Other factors taken into account may include general economic and market conditions. Our compensation committee sets the final corporate performance goal during our first quarter, typically at a level our compensation committee believes is challenging, but reasonable, for management to achieve.

Award payouts are determined each February following completion of the plan year by measuring the performance against each award component. In determining whether the performance ranges are met, the compensation committee exercises its judgment whether to reflect or exclude the impact of changes in accounting principles and extraordinary, unusual or infrequently occurring events. Our company must achieve a minimum of 95% of the Plan EBITDA target for any payout to be earned under the annual incentive bonus plan. The 2014 incentive award target goals and 2014 results are shown below.

Weighting	Rational for Measure	Target Goal	2014 Results
Plan EBITDA (75%)	Reflects overall business health and is a measure of profitability that drives stockholder value	\$228.3 million	\$268.5 million
Comparable Store Sales (25%)	Demonstrates strength in core business	7.5%	9.9%

Equity Incentive Compensation

Each year we grant equity-based awards to executive officers and key team members to motivate and reward them for long-term stockholder value creation and to retain top talent. Long-term incentive awards are targeted to be competitive with the 50th percentile of comparable companies. In 2014, as we transitioned away from the private company compensation structure previously in place, which included pre-IPO option awards, our compensation committee determined to grant time-vest stock options and RSUs. The value of such equity awards increases or decreases as a result of changes in the market price of our common stock, creating opportunities in the event of successful market performance of our shares, aligning the interests of our named executive officers with our stockholders.

In late 2014, the compensation committee reviewed the mix of long-term incentive awards (60% options and 40% RSUs) and, with the goal of moving more of the awards toward performance-based vehicles, determined to replace time-vest RSUs with performance shares, along with a new mix of long-term incentive awards for grants made in 2015 (50% stock options and 50% performance shares).

Award	2014 Weighting	2015 Weighting	Vesting Terms and Other Conditions
Stock Options	60%	50%	The exercise price equals the closing price on the date of grant. Options vest quarterly over three years and expire after seven years.
RSUs	40%	—	RSUs vest 1/3 on each anniversary of the grant date. The number of shares of our common stock subject to RSUs is determined by the 20-day trailing average closing price for our common stock as reported on the grant date.
Performance Shares	—	50%	Performance shares can be earned after a one-year performance period based on achievement of earnings per share targets. If earned, such performance shares vest 50% on the second anniversary of the grant date (2017), and 50% on the third anniversary of the grant date (2018).

Benefits and Perquisites

We provide our named executive officers with benefits that our board of directors believes are reasonable and in the best interests of our company and our equity holders. Consistent with our compensation philosophy, we maintain competitive benefit packages for our named executive officers. The compensation committee, in its discretion, may revise, amend or add to an officer's benefits if it deems it advisable. We believe these benefits are generally equivalent to benefits provided by comparable companies.

- *Retirement Plan Benefits.* We sponsor a 401(k) defined-contribution plan, or the "401(k) Plan," covering substantially all eligible team members, including our named executive officers. Team member contributions to the 401(k) Plan are voluntary. Contributions by participants are limited to their annual tax deferred contribution limit by the Internal Revenue Service. We contribute an amount up to 50% of the first 6% of the eligible compensation deferred by a participant.
- *Health and Welfare Benefits.* We offer medical, dental, vision, life insurance, short-term and long-term disability insurance and accidental death and dismemberment insurance for all eligible team members. Named executive officers are eligible to participate in the same plans as other salaried employees.
- *Perquisites.* We pay the premium amounts for medical, dental, vision, life insurance, short-term and long-term disability insurance and accidental death and dismemberment insurance plans on behalf of certain of our named executive officers. In addition, our CEO receives a car allowance.

Section Three—How Executive Pay is Established

Role of Our Compensation Committee

Our compensation committee, which is comprised entirely of independent directors, is responsible for, among other things, overseeing our executive compensation policies and programs with the goal of maintaining compensation that is competitive and reflects the long-term interests of our stockholders. You can learn more about the compensation committee's purpose, responsibilities, structure and other details by reading the committee's charter posted on our website at www.sprouts.com. The inclusion of our website address in this Annual Report on Form 10-K does not include or incorporate by reference the information on or accessible through our website into this Annual Report on Form 10-K.

While our chief executive officer and other executive officers may attend meetings of the compensation committee or our board of directors from time to time, the ultimate decisions regarding executive officer compensation are made solely by the members of our compensation committee. These decisions are based not only on our compensation committee's deliberations, but also on input requested from outside advisors, including our compensation committee's outside compensation consultant, with respect to, among other things, market data analyses. The final decisions relating to our CEO's compensation are determined solely by our compensation committee. Decisions regarding other executive officers are made by our compensation committee after considering recommendations from our CEO.

Role of the Compensation Consultant

Our compensation committee may periodically engage the services of outside compensation consultants to provide advice in connection with making executive compensation determinations. The chairperson of our compensation committee, in consultation with other committee members, defines the scope of any consultant's engagement and related responsibilities. These responsibilities may include, among other things, advising on issues of executive compensation and equity compensation structure and assisting in the preparation of compensation disclosure for inclusion in our SEC filings. In fulfilling its responsibilities, the outside compensation consultant may interact with management or our other outside advisors to the extent necessary or appropriate.

Table of Contents

In October 2013, our compensation committee engaged Mercer, Inc. (referred to as “Mercer”) as its independent compensation consultant to provide the committee with an executive compensation assessment, peer group analysis, and related compensation advice. During 2014, we paid Mercer \$128,692 for the provision of employee benefits brokerage services. These services were performed by different offices of Mercer and were unrelated to compensation services. In addition, we paid affiliates of Mercer \$361,199 for the provision of insurance brokerage and crisis management consulting services, \$58,000 for the provision of actuarial services, and \$68,893 for the use of its risk management information system.

The compensation committee’s outside compensation consultant provides analyses and recommendations that inform the committee’s decisions, but it does not decide or approve any compensation decisions. For 2014, Mercer developed criteria used to identify peer and other comparable companies for executive compensation and performance comparisons, and reviewed and discussed with the committee various proposals presented to the committee by management. Mercer also provided updates on market trends and the regulatory environment as it related to executive compensation. Mercer representatives met informally with the chairperson of the committee and with certain members of our management team, and formally with our compensation committee during a telephonic meeting.

The compensation committee has previously considered the factors set forth in the NASDAQ Stock Market rule regarding compensation advisor independence. Specifically, the Compensation Committee has analyzed whether the work of Mercer as compensation consultant raised any conflict of interest, taking into consideration the following factors: (i) the provision of other services to our company by Mercer; (ii) the amount of fees from our Company paid to Mercer as a percentage of Mercer’s total revenue; (iii) the policies and procedures of Mercer that are designed to prevent conflicts of interest; (iv) any business or personal relationship of Mercer or the individual compensation advisors employed by Mercer with an executive officer of our company; (v) any business or personal relationship of the individual compensation advisors with any member of the compensation committee; and (vi) any stock of our company owned by Mercer or the individual compensation advisors employed by Mercer.

Management’s Role in Setting Compensation

Members of our human resources, finance, and legal departments work with our CEO to recommend changes to existing compensation plans and programs, to recommend financial and other targets to be achieved under those programs, to prepare analyses of financial data and other briefing materials to assist the compensation committee in making its decisions and, ultimately, to implement the decisions of our compensation committee.

Our CEO is actively engaged in setting compensation for other executives through a variety of means, including recommending for committee approval the financial goals and the annual variable pay amounts for our executive team. He works closely with other members of executive management in analyzing relevant market data to determine base salary and annual target bonus opportunities for senior management and to develop targets for our short- and long-term incentive plans. Our CEO is subject to the same financial performance goals as our other executive officers, all of which are ultimately determined and approved by our compensation committee.

Compensation Levels and Benchmarking

We benchmark our executive compensation against a peer group of companies with which we may compete for executive talent. Market pay data for the peer group is gathered through compensation surveys conducted by Mercer. We target the 50th percentile of comparable companies (our peer group along with other market survey data) for TDC in order to attract, motivate, develop and retain top-level executive talent.

The peer group is periodically evaluated and updated to ensure the companies in the group remain relevant. The compensation committee approved the following criteria for our peer group beginning in

Table of Contents

2014: (i) companies within the grocery retail sector, including specialty and conventional retailers; (ii) companies in the natural and organic food distribution sector, (iii) companies considered high-growth retail companies, (iv) companies with revenue between \$1.5 billion and \$6.5 billion (approximately 0.5x to 2.5x our trailing 12 months revenue), with the exception of Whole Foods Market, Inc., which had 2013 revenue of \$12.9 billion but was determined by our compensation committee and its consultant to be a direct specialty retail peer; or (v) companies with a market capitalization between \$200 million and \$6 billion, again with the exception of Whole Foods Market, Inc.

Overall compensation levels for executive officers are determined based on one or more of the following factors: the individual's duties and responsibilities within our company; the individual's experience and expertise; the compensation levels for the individual's peers within our company; compensation levels for similar positions in the retail grocery industry or in the high growth retail industry more generally; performance of the individual and our company as a whole; and the levels of compensation necessary to recruit new executive officers. For 2014 and 2015, our compensation committee reviewed the compensation of our executive officers and compared it with that of both our peer group companies and broader, composite global market survey data provided by our compensation consultant.

The peer group of the 15 companies which, along with broader survey data, were used for benchmarking purposes in fiscal 2014 is set forth below (in millions).

Sprouts Farmers Market	\$ 2,967	\$ 4,970

(1) The most recent FYE information for inclusion in this Annual Report on Form 10-K was for fiscal 2013.

For 2015, Mercer recommended refinements to our peer group to remove Harris Teeter, which was acquired, and Natural Grocer by Vitamin Cottage and Village Super Market, because their revenue, market capitalization and other factors were significantly below the median. Going forward, the compensation committee may also take into account the peer groups used by proxy advisory firms.

As discussed above, our compensation committee now targets the TDC of our executive officers at the 50th percentile of comparable officers at comparable companies, as derived from both peer group data and broader composite survey data. Our compensation committee may vary from this target range for various elements of compensation depending on the executive officer's job performance, skill set, level of responsibilities, prior compensation, and business conditions.

Our compensation committee intends to continue its practice of retaining executive compensation consultants from time to time, as our compensation committee deems appropriate, to advise our compensation committee with respect to its compensation policies and provide compensation data from comparable companies.

Section Four—2014 Named Executive Officer Achievements and Pay Actions

The following contributions and achievements during 2013 were taken into consideration by the compensation committee in making 2014 compensation decisions:

Table of Contents

- **Base Salary:** All named executive officers were given salary adjustments in 2014 to adjust their relative position towards the 35th percentile of comparable companies. Base salary amounts presented above differ from the amounts disclosed in the Summary Compensation Table because increases in base salary become effective in February. Therefore, the amounts reported in the Summary Compensation Table reflect two months at the 2013 base salary rate and ten months at the 2014 rate.
- **Performance Award:** The 2014 cash incentive award resulted in achieving maximum outperformance opportunity for our officers. This was calculated under the terms of the plan as described in the “Elements of Our Executive Compensation Program.” Bonus amounts reflected above are based upon a percentage of the base salary amounts actually paid in 2014.
- **Long-Term Incentive Grants (Stock and Option Awards):** The compensation committee approved the long-term incentive grant for each named executive officer based upon our peer group median long-term incentive values and reflective of the mix of equity vehicles described in the “Elements of Our Executive Compensation Program.”

The 2014 market positioning of our named executive officers compensation compared against our peer group and market survey data is set forth in the following table.

Name	Base Salary	Bonus	Total Cash Compensation	LTI	TDC
J. Douglas Sanders	<25 th Percentile	55%	<25 th Percentile	37%	41%
Amin N. Maredia	33%	55%	31%	56%	53%

Section Five—Executive Compensation Governance

Stock Ownership Guidelines

To further align the long-term interests of our executives and our shareholders, in fiscal 2014, our board approved stock ownership guidelines applicable to our CEO and other executive officers. Our CEO must maintain beneficial ownership of shares of Sprouts stock equal in market value to five times his current annual base salary, and our other executive officers must maintain beneficial ownership of shares of Sprouts stock equal in market value to two times his or her respective current annual base salary. Our CEO and other executive officers shall have five years to satisfy these stock ownership guidelines.

Change-in-Control and Severance Arrangements

Our named executive officers' employment agreements do not provide for additional benefits upon a change of control of our company. For further information regarding compensation payable to our named executive officers in the event of termination of such officer's employment, see—*Potential Payments Upon Termination or Change of Control*.

Table of Contents

Hedging and Pledging Policy

In fiscal 2014, our board of directors revised our insider trading policy to expressly prohibit transactions involving hedging or pledging of Sprouts shares by directors, officers or team members without the approval of our Chief Legal Officer, who would review risks of proposed transactions.

Tax Deductibility of Executive Compensation

A limitation on deductibility of compensation may occur under Section 162(m) of the Internal Revenue Code which generally limits the tax deductibility of compensation paid by a company to its chief executive officer and certain other highly compensated executive officers to \$1,000,000 per person. There is also an exception to the limit on deductibility for performance-based compensation that meets certain requirements. As a new public company, we are not subject to this limitation currently.

Clawback of Certain Compensation Following Restatement of Financial Statements

Our corporate governance guidelines provide that if the board learns of any misconduct by an officer that contributed to our company having to restate all or a portion of our financial statements, it shall take such action as it deems necessary to remedy the misconduct, prevent its recurrence and, if appropriate, take remedial action against such officer in a manner it deems appropriate. In determining what remedies to pursue, the board shall take into account all relevant factors, including whether the restatement was the result of negligence or intentional or gross misconduct. The board will, in all appropriate cases, require reimbursement of any bonus or incentive compensation awarded to an officer or effect the cancellation of unvested restricted, deferred stock awards previously granted to the officer if: (i) the amount of the bonus, incentive compensation or stock award was calculated based upon the achievement of certain financial results that were subsequently the subject of a restatement, (ii) the executive engaged in intentional misconduct that caused or partially caused the need for the restatement and (iii) the amount of the bonus, incentive compensation or stock award that would have been awarded to the officer had the financial results been properly reported would have been lower than the amount actually awarded. In addition, the board, in its full and complete discretion, may dismiss the officer, authorize legal action for breach of fiduciary duty or take such other action to enforce the officer's obligations to our company as the board determines fit the facts surrounding the particular case.

Risk Considerations

Our board of directors does not believe that our compensation policies and practices create risks that are reasonably likely to have a material adverse effect on our company for the following reasons:

- we believe our fixed pay is competitive given our size and stage of development;
- our variable pay is based on achieving short-term financial goals, we set a threshold for financial targets below which no bonus payment can be made, and cash bonuses are awarded at amounts that are capped to avoid windfall payouts; and
- long-term performance is rewarded through grants of equity that are only valuable if the price of our equity increases over time, which aligns our executives' interests with those of our equity holders.

Compensation Committee Report

Our compensation committee has reviewed and discussed with management the Compensation Discussion and Analysis included in this Annual Report on Form 10-K. Based on such review and discussion, the compensation committee recommended to our board of directors, and our board of directors approved, that the Compensation Discussion and Analysis be included in this Annual Report on Form 10-K.

- (1) Options are to acquire shares of common stock. Options expire seven years from the grant date. Time-vested options generally vest over 12 quarters. Each performance-based option vests based on the achievement of EBITDA (as defined in the option agreements) and pro forma comparable store sales targets, weighted equally. One-third of the performance-based options vest each of the first three years after the grant date if such targets are met. In addition, all options vest upon occurrence of a change in control of the company.
- (2) Represents unvested RSUs, which were granted on March 4, 2014. The RSUs vest in three equal installments on March 4, 2015, March 4, 2016 and March 4, 2017, assuming continued employment through the applicable vesting date.
- (3) The market value of unvested RSUs is calculated by multiplying the number of unvested RSUs held by the applicable named executive officer by the closing market price of our common stock on the Nasdaq Global Select Market on the last trading day of fiscal 2014, December 26, 2014, which was \$32.73 per share.

Employment Agreements

On April 18, 2011, we entered into an employment agreement with each of Messrs. Sanders and Nielsen, and on July 15, 2011 and January 23, 2012, we entered into an employment agreement with each of Messrs. Maredia and Lombardi, respectively. Mr. Frumkin does not have an employment agreement. Each employment agreement contains a base salary that was set as a result of negotiations between the executive and our board of directors, and is subject to adjustment on an annual basis. Additionally, each employment agreement provides for a bonus based upon our company's attainment of annual goals established by our board and the compensation committee. Each employment agreement also provides vacation benefits, reimbursement for business expenses, and the right to participate in company-wide benefits, including insurance, retirement, and other plans and programs as are available to our executive officers. Each employment agreement contains a covenant not to compete with our company or solicit our team members or customers for a period equal to the greater of 12 months immediately following termination of employment or the end of the period during which severance payments are being made, subject to certain exceptions, as well as confidentiality, preservation of intellectual property and non-disparagement obligations.

We and each named executive officer may terminate the officer's employment at any time. In the event of termination of employment, amounts payable to our named executive officers are reflected in the "*Potential Payments Upon Termination or Change of Control*" section below.

Potential Payments Upon Termination or Change of Control

The tables below reflect the amount of compensation to our named executive officers in the event of termination of such officer's employment or upon a change of control. The amount of compensation payable to each named executive officer upon voluntary or for cause termination, involuntary for good reason or involuntary not for cause termination, and in the event of disability or death of the executive or upon a change of control of our company is shown below. The amounts shown assume that such termination or change of control was effective as of December 28, 2014, and thus include amounts earned through such time and are estimates of the amounts which would be paid out to the executives upon their termination. The actual amounts to be paid out can only be determined at the time of such officer's separation from our company. Our officers' employment agreements do not provide for additional benefits upon a change of control of our company; however, our equity award agreements provide for the immediate vesting of the award upon a qualifying change of control transaction.

We do not have a formal employment agreement with Mr. Frumkin under which we are obligated to pay benefits in the event he is terminated. However, in the event of a change of control effective as of December 28, 2014, the market value of his unvested stock options and RSUs that would become fully vested was \$3,156,189.

Pension Benefits and Nonqualified Deferred Compensation

We do not offer a pension plan for any of our team members. In fiscal 2014, we did not offer a nonqualified deferred compensation plan for any of our team members. Team members meeting certain requirements may participate in our 401(k) plan.

Team Member Benefit and Stock Plans

We have two team member benefit and stock plans under which we have issued equity to our team members and non-employee members of the board, our 2011 Option Plan and 2013 Incentive Plan.

Director Compensation

Only directors that are considered "independent" under applicable SEC and NASDAQ rules received consideration for service on our board of directors. In 2014, our independent directors received the following cash compensation: an annual cash retainer of \$40,000, payable quarterly; \$1,500 in cash for each board and committee meeting attended in person and \$500 in cash for each board and committee meeting attended by telephone; and reimbursement of expenses relating to attendance at board and board committee meetings. In addition, the chairperson of each of our board committees received an annual cash retainer of \$15,000, payable quarterly.

In addition to the cash compensation discussed above, each independent director received an equity grant of an option to purchase shares of our common stock having a value of \$50,000 on the date of grant. The number of options granted to each independent director was determined by dividing the grant date value by the Black-Scholes value per share of our common stock as of the grant date. The exercise price is equal to the closing price of our common stock on the grant date.

Our board of directors recognizes that stock ownership by directors may strengthen their commitment to the long-term future of our company and further align their interests with those of our stockholders. In accordance with our Corporate Governance Guidelines, our independent directors are expected over a reasonable time to beneficially own shares of our common stock (including shares owned outright, unvested shares, and stock options or other equity grants) having a value of at least three times their annual cash retainer until he/she leaves the board.

In late 2014, our board of directors reviewed the position of our independent director compensation program relative to our peer group discussed below and determined to position total direct compensation at the 45th percentile. For 2015, our board of directors determined to increase the annual retainer for independent directors from \$40,000 to \$45,000, eliminate meeting fees and establish committee retainer fees of \$10,000 per committee assignment, maintain the audit committee chairperson retainer at \$15,000, establish a \$15,000 retainer for our lead independent director, and reduce the compensation and nominating committee chairperson retainers to \$10,000, and increase the annual equity compensation for 2015 to \$60,000, comprised 50% in the form of restricted stock units vesting one-third on each anniversary of the grant date, and 50% in the form of time-based stock options vesting quarterly over three years.

(4) The weighted-average exercise price does not include the shares issuable upon vesting of RSUs, which have no exercise price.

Security Ownership of Certain Beneficial Owners and Management

The following table sets forth information regarding the beneficial ownership of our common stock as of the February 24, 2015, by the following:

- each of our directors and named executive officers as of the date of this Annual Report on Form 10-K;
- all of our directors and executive officers as a group; and
- each person, or group of affiliated persons, who is known by us to beneficially own more than 5% of our common stock.

For further information regarding material transactions between us and certain of our stockholders, see “Item 13—Certain Relationships and Related Party Transactions, and Director Independence.”

Beneficial ownership is determined according to the rules of the SEC and generally means that a person has beneficial ownership of a security if he, she, or it possesses sole or shared voting or investment power of that security, including options that are currently exercisable or exercisable within 60 days of February 24, 2015. Shares issuable pursuant to options are deemed outstanding for computing the percentage of the person holding such options, but are not outstanding for computing the percentage of any other person. Except as indicated by the footnotes below, we believe, based on the information furnished to us, that the persons named in the table below have sole voting and investment power with respect to all shares of common stock shown that they beneficially own, subject to community property laws where applicable. The information does not necessarily indicate beneficial ownership for any other purpose.

Our calculation of the percentage of beneficial ownership is based on 152,064,393 shares of common stock outstanding as of February 24, 2015.

Stockholders Agreement

We are party to a stockholders agreement (referred to as the "Stockholders Agreement") with stockholders that held all of our outstanding shares of common stock prior to our IPO. The Stockholders Agreement became effective upon the pricing of our IPO. The Stockholders Agreement contained various restrictions on the transfer of shares of our common stock by the stockholders party thereto, all of which expired during 2014.

In addition, the Stockholders Agreement provides the Apollo Funds with the right to require us to register for resale shares of common stock. During fiscal 2013 and 2014, registered secondary offerings by Apollo closed on December 2, 2013, April 2, 2014, August 18, 2014 and November 14, 2014. The aggregate cost to the Company for these four offerings was \$4.6 million, including \$1.4 million of payroll taxes for employee exercise of stock options in these offerings.

Corporate Aircraft

During fiscal 2012, we purchased an aircraft from CJ Leasing Services, LLC, an entity controlled by Shon Boney, a member of our board of directors, for \$3.2 million.

Volcanic Red

We purchased coffee from Volcanic Red, LLC (dba Volcanic Red Coffees), a company in which Shon Boney (together with his immediate family members) owns a 15% interest. Our purchases in fiscal 2012, 2013 and 2014 totaled \$5.6 million, \$7.9 million and \$8.3 million, respectively. As of December 29, 2013 and December 28, 2014, we had recorded accounts payable due to this vendor of \$0.7 million and \$0.5 million, respectively.

Notes

During 2013, certain members of our management held senior subordinated promissory notes, including J. Douglas Sanders, Amin N. Maredia and James L. Nielsen, who held notes in the principal amounts of \$500,000, \$175,000 and \$175,000, respectively. These notes were repaid on May 31, 2013.

Certain Transactions with Apollo Affiliates

In connection with our credit facility, we paid an arrangement fee of \$760,000 to an affiliate of Apollo. Apollo Global Securities, LLC, another affiliate of Apollo, was an underwriter of our IPO and our secondary offerings that closed on December 2, 2013, April 2, 2014 and August 18, 2014 and received fees of approximately \$0.9 million, \$1.0 million, \$0.8 million and \$1.3 million, respectively.

Sunflower Transaction

One of our former executive officers was a stockholder of Sunflower, which we acquired in May 2012 and accordingly received from us in the Sunflower Transaction, on the same terms as all Sunflower stockholders, consideration for his shares of Sunflower common stock in the amount of \$589,000.

Indemnification of Officers and Directors

Our certificate of incorporation and bylaws provide that we will indemnify each of our directors and officers to the fullest extent permitted by Delaware law. In addition, in connection with our IPO, we entered into indemnification agreements with each of our directors and executive officers.

family of any of the foregoing persons are not permitted to enter into a related person transaction with us without the prior consent of our audit committee. Any request for us to enter into a transaction with an executive officer, director, nominee for election as a director, beneficial owner of more than 5% of any class of our common stock, or any member of the immediate family of any of the foregoing persons, in which the amount involved exceeds \$120,000 and such person would have a direct or indirect interest, must first be presented to our audit committee for review, consideration, and approval. In approving or rejecting any such proposal, our audit committee is to consider the material facts of the transaction, including, but not limited to, whether the transaction is on terms no less favorable than terms generally available to an unaffiliated third party under the same or similar circumstances and the extent of the related person's interest in the transaction. All of the transactions described above were entered into after presentation, consideration, and approval by our board of directors.

Director Independence

Our board of directors has determined that Mr. Fortunato, Ms. Graham, Mr. Molloy and Mr. Townsend each qualify as an "independent director," as defined in the corporate governance rules of the NASDAQ Stock Market. There are no family relationships among any of our directors, director nominees, or executive officers.
