

**THE SINGLE
SOURCE
FOR ENERGY
INDUSTRY
INTELLIGENCE**

Comprehensive, trusted business intelligence to drive energy investment decisions.

Data, news and analysis on a single powerful platform.

SNL Energy has redefined the energy information market by integrating news, data, research and analytics in real time. Other providers just give you pieces of the puzzle. Only SNL gives you the full picture on the entire industry, encompassing the power, gas, coal and renewable energy markets in one single, easy-to-use Web-based platform.

SNL Energy covers more than 9,000 power plants, 3,000 North American energy companies, 1,700 active coal mines and 120 gas pipelines. We provide detail on financials, supply and demand fundamentals, hourly market pricing and rate cases. SNL features daily tracking of new project build-outs from power to transmission to environmental. We offer datasets and analytical tools you won't find anywhere else, all in one place.

Exclusive news linked to in-depth profiles and analytics.

SNL Energy's news desk, the most experienced in the business, publishes more than a dozen segment-specific newsletters reporting on market-moving developments. Link directly from a news item to a comprehensive company profile and related stories.

The only provider with an accuracy guarantee and 24/7 support.

Over the past 24 years, SNL has perfected a process of gathering, vetting, scrubbing and standardizing data. As a result, we're the only provider that guarantees 100% accuracy. Find an error, and we'll send you a \$50 reward. Another welcome SNL difference is our 24/7 customer support.

SNL Energy homepage showing various news articles, market data, and a 'Data The Way You Want It.' banner.

Your customized SNL homepage.
 Customize your homepage to show only the information relevant to you. Track breaking news, recent rate cases, new project developments, earnings announcements, market pricing and nuclear outages reports, based on user-defined preferences.

Constellation Energy Group, Inc. profile page. Includes a 'Corporate Profile' section, a 'Market Data' section with a stock price chart, and a 'Recent News' section with several news items.

Briefing Books: the big picture.
 Get a comprehensive view of a company's financial and operational data, critical documents and timely news. Information and data from various sources are combined into one location for thorough analysis of an organization.

News article about a transmission line project. Includes a 'Related Companies' sidebar listing companies like Allegheny Energy Inc., American Electric Power Co. (AEP), and Dominion Resources Inc.

Market-moving news in real time.
 SNL Energy's industry-leading news coverage is tightly integrated with the Company and Power Plant Briefing Books. From the stories, users can link directly into the various Briefing Books as well as other related stories on the same companies and/or plants. Market-moving news is delivered online, dynamically filtered to your specific interests.

Seasoned experts available on demand for consultation, training and 24/7 support.

Our data is more accessible. So are the experts behind it.

Not only is our Web-based data easier to access, our seasoned experts are always available to help you make sense out of it. SNL distills the complexities of the energy market for new analysts and experienced veterans alike. We show you what to look for, where to find it and what the numbers mean – with added insight that comes from SNL’s core knowledge of both the energy and financial sectors.

Unlimited training and support to maximize the ROI on your subscription.

Your 24/7 SNL client support advisors know the energy industry and SNL’s products. They help you maximize the return on your SNL subscription by understanding your objective and helping you use SNL to achieve it. We’ll even bring your entry-level people up to speed on the idiosyncrasies of the energy sector, from financial reporting metrics to power plant valuations. No other provider can match our service.

A knowledge hub, from Regulatory Research Associates to the SNL Center for Financial Education.

SNL is your hub for energy sector expertise. Regulatory Research Associates (RRA) is the nationally known authority on electric utility securities and regulation. Insightful RRA reports on rate cases and commission decisions are available to you in real time, with access to nearly 30 years of rate case analysis and data. You can also interact directly with RRA experts through formal consultation and at informal commissioner meetings organized periodically by RRA.

SNL Center for Financial Education (CFE) presents unique training programs and conferences in cities across the country. Programs run from senior-level events such as the SNL Power and Utilities M&A Symposium to beginner analyst training courses such as Essentials of Regulatory Finance. SNL Energy analysts and researchers also publish insightful white papers and “Data Dispatch” reports illuminating market developments behind our data.

All you need to know, from market fundamentals and operations to M&A and ownership.

Expansive coverage and extensive detail, with one-step drill-downs.

With SNL Energy, you have a larger population of companies to review and a broader, more robust range of data to support decisions. There's no need to access different sources. Market fundamentals, financials and asset-level coverage are all together. Quickly compare regulatory energy company financials (with FERC schedules), SEC financials and rate cases. Tap into our library of 20+ years of historical data.

Our energy industry templates facilitate apples-to-apples peer comparisons for competitive analysis, while source tagging instantly links you to the original document. Get a high-level aggregated view with our Regional Power Markets summary, or drill down in one easy step to granular operational detail on a specific plant or mine. Hard-to-find ownership data is a click away. Going beyond public sources, SNL uses a combination of research and brainpower to deliver the inside information on power plants, coal mines, utilities and specific projects.

From fundamentals to forward pricing.

Streaming power price and demand data from all nine North American Independent System Operators keeps you current, with hourly prices at every node and hub. We provide CME forwards and futures for power, natural gas, coal, oil and uranium. Review supply and demand fundamentals. Incorporate statistics such as historic and future plant capacity in your forecasts. View hourly load, forecasted load and prices in one chart.

Mergers & acquisitions: past, present and future.

SNL Energy lets you track past, current and future M&A activity. Peruse M&A league tables, statistics and graphs. Look at capital offerings pricing and spreads. Delve into financial, operational performance and ownership data. Link to relevant news stories. SNL is your single source for deal-specific information.

Easy-to-use templates, tools and data feeds that no other provider can match.

Integrate SNL data into Excel models that update instantly.

With SNLxl, SNL Energy's powerful Excel Add-In tool, you can create proprietary models fully integrated with your spreadsheets for single-click updates. Compare and export data from various sources. Download today's details or the full history for one or all companies, assets or commodities. Use our library of templates, or contact SNL Support and we'll help you customize your own.

With pre-built templates from SNL's spreadsheet library, you can compare power prices from various ISOs. Benchmark company and power plant financial and operations statistics. Evaluate the dispatch curve for various market regions or companies. Track the daily status of specific projects in this constantly evolving market: who signed a contract, what permit was approved, what's anticipated to come online and when. And even recreate the FERC Form 1 company financials as reported.

SNL Energy commodities data also flows into SNLxl to facilitate quick analysis and decision-making. Once you create a model, you can update it instantly, pulling in the newest numbers from our constantly refreshed database.

When you just need the data: SNL Energy Data Feeds.

If our data is all you need, we offer customized SNL Energy Data Feeds, delivering the data you want whenever you want it. Integrate SNL data feeds into your applications to power your models, custom applications and intranets.

Innovative Peer Analytics.

SNL Energy's Peer Analytics tool offers innovative default peer logic and powerful customization options, allowing you to perform the most complete analysis for any U.S. public power, natural gas utility, midstream or coal company.

Customizable Excel template: coal example.

Our customizable Excel templates provide a wide range of tools for analysis, from a simple summary of coal mines owned to more complex benchmarking analysis. The DataWizard, embedded in the Excel Add-In, allows access to years of historical data to create tailored reports.

Power Plant Briefing Book: complete profile.

View plant and unit operating parameters, related news and documents, with financial and operational statistics in a comprehensive power plant profile. Quickly analyze a power plant's operations over time including generation, heat rate, emission controls and production costs.

The right information for each department, covered by one all-inclusive fee.

SNL Unlimited: a truly limitless subscription.

Subscribe to SNL Energy Unlimited and you get it all for a single fee: all our data, newsletters, alerts, research reports, analytics, tools, RRA rate case information—everything—all backed by our accuracy guarantee and our 24/7 expert support.

Our subscription fee covers every user in your company. There are no per-seat charges. No more need to monitor who is accessing the service. Allow all of your departments and analysts to use the same consistent information for decision-making.

The information each type of user needs, in real time.

If you're a financial analyst evaluating profitability and other characteristics, you can easily benchmark a company's operations. If you're a strategic analyst, use SNL data to forecast supply and demand, evaluate new opportunities to build plants, sell or purchase excess power and assess regional trends.

SNL Energy becomes integral to the effectiveness of each type of user, companywide. Regulatory departments review rate cases to support filings. Strategic planners plot where a company is headed in 5 or 10 years. Procurement uses market fundamentals to figure out where to get the best fuel deals. The Back Office uses our pricing to settle contracts – SNL's proprietary indexes are CCRO-endorsed and FERC-approved. Treasurers and M&A teams track terms on capital offers with a clear view of who the institutional owners actually are.

SNL Energy is the industry leader, but we don't rest on our laurels. We continue to improve in response to client feedback, evolving in tandem with the dynamic energy industry.

SNL Energy Unlimited is all-inclusive.

A subscription to SNL Energy Unlimited service for your organization includes all your users for a single all-encompassing fee. SNL coverage ranges from detailed asset-level data to holding company and regional summaries. Highlights include:

- **More than a dozen segment-specific newsletters**
- **Detailed coverage of electric utility rate cases via Regulatory Research Associates (RRA)**
- **M&A coverage and league tables for both company and asset-level transactions**
- **Financial and operational statistics**
 - Financial coverage of publicly traded electric, natural gas and coal companies (U.S. and Canada)
 - Operational statistics on over 3,200+ electric utilities, 200+ natural gas companies and 1,500+ coal producers
- **Asset-level coverage on:**
 - 9,000+ coal, natural gas, nuclear, hydro, geothermal, wind, solar and biomass power plants
 - 3,500+ coal mines
 - 2,700+ power, natural gas and transmission projects
- **Streaming power price and demand data from all nine North American Independent System Operators**
- **SNL Energy proprietary market coverage (FERC-approved) including:**
 - Spot and Forward Power Indexes (26 zones and hubs)
 - Spot Natural Gas Prices (104 trading hubs)
 - Coal Prices (18 steam coal markers)
- **CME forwards and futures for power, natural gas, coal, oil and uranium**

As the energy industry evolves, SNL Energy keeps pace. SNL Energy is constantly expanding its products, through new datasets, new companies and new analytical tools.
