CORPORATE PROFILE

General Description

Kite Realty Group Trust is a full-service, vertically integrated real estate company engaged primarily in the development, construction, acquisition, ownership and operation of high-quality neighborhood and community shopping centers in selected growth markets in the United States. We are organized as a real estate investment trust ("REIT") for federal income tax purposes. As of December 31, 2007, we owned interests in 55 operating properties totaling approximately 8.0 million square feet and an additional 1.8 million square feet in 11 properties currently under development or redevelopment.

Our strategy is to maximize the cash flow of our operating properties, successfully complete the construction and lease-up of our development portfolio and identify additional growth opportunities in the form of new developments and acquisitions. New investments are focused in the shopping center sector, although we may selectively pursue commercial development or acquisition opportunities in markets where we currently operate and where we believe we can leverage existing infrastructure and relationships to generate attractive risk-adjusted returns.

IMPORTANT NOTES

Interim Information

This Quarterly Financial Supplement contains historical information of Kite Realty Group Trust (“the Company” or “KRG”) and is intended to supplement the Company’s Annual Report on Form 10-K for the year ended December 31, 2007 to be filed on or about March 17, 2008, which should be read in conjunction with this supplement. The supplemental information is unaudited, although it reflects all adjustments which, in the opinion of management, are necessary for a fair presentation of operating results for the interim periods.

Forward-Looking Statements

This supplemental information package contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Such statements are based on assumptions and expectations that may not be realized and are inherently subject to risks, uncertainties and other factors, many of which cannot be predicted with accuracy and some of which might not even be anticipated. Future events and actual results, performance, transactions or achievements, financial or otherwise, may differ materially from the results, performance, transactions or achievements expressed or implied by the forward-looking statements. Risks, uncertainties and other factors that might cause such differences, some of which could be material, include, but are not limited to:

- national and local economic, business, real estate and other market conditions;
- the ability of tenants to pay rent;
- the competitive environment in which the Company operates;
- financing risks;
- property ownership and management risks;
- the level and volatility of interest rates;
- financial stability of tenants;
- the Company’s ability to maintain its status as a REIT for federal income tax purposes;
- acquisition, disposition, development and joint venture risks;
- potential environmental and other liabilities;
- other factors affecting the real estate industry generally; and
- other risks identified in reports the Company files with the Securities and Exchange Commission (“the SEC”) or in other documents that it publicly disseminates, including, in particular, the section titled “Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended December 31, 2007 to be filed on or about March 17, 2008, and in our quarterly reports on Form 10-Q.

The Company undertakes no obligation to publicly update or revise these forward-looking statements, whether as a result of new information, future events or otherwise.

Funds from Operations

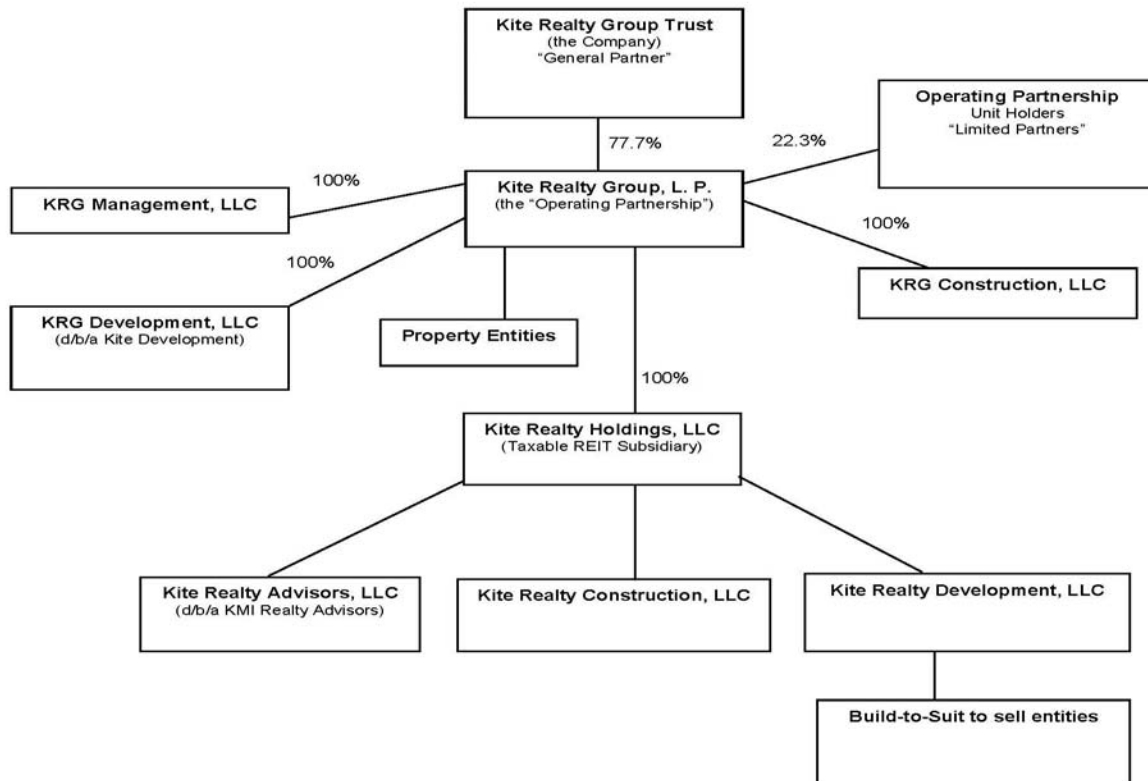

Funds from Operations (FFO) is a widely used performance measure for real estate companies and is provided here as a supplemental measure of operating performance. We calculate FFO in accordance with the best practices described in the April 2002 National Policy Bulletin of the National Association of Real Estate Investment Trusts (NAREIT), which we refer to as the White Paper. The White Paper defines FFO as net income (determined in accordance with generally accepted accounting principles (GAAP)), excluding gains (or losses) from sales of depreciated property, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures.

Considering the nature of our business as a real estate owner and operator, we believe that FFO is helpful to investors in measuring our operational performance because it excludes various items included in net income that do not relate to or are not indicative of our operating performance, such as gains or losses from sales of depreciated property and depreciation and amortization, which can make periodic and peer analyses of operating performance more difficult. FFO should not be considered as an alternative to net income (determined in accordance with GAAP) as an indicator of our financial performance, is not an alternative to cash flow from operating activities (determined in accordance with GAAP) as a measure of our liquidity, and is not indicative of funds available to satisfy our cash needs, including our ability to make distributions. Our computation of FFO may not be comparable to FFO reported by other REITs that do not define the term in accordance with the current NAREIT definition or that interpret the current NAREIT definition differently than we do.

Net Operating Income

Net operating income (NOI) is provided here as a supplemental measure of operating performance. NOI is defined as property revenues less property operating expenses, excluding depreciation and amortization, interest expense and other items. We believe this presentation of NOI is helpful to investors as a measure of our operational performance because it is widely used in the real estate industry to measure the performance of real estate assets without regard to various items, included in net income, that do not relate to or are not indicative of operating performance, such as depreciation and amortization, which can vary depending upon accounting methods and book value of assets. We also believe NOI helps our investors to meaningfully compare the results of our operating performance from period to period by removing the impact of our capital structure (primarily interest expense on our outstanding indebtedness) and depreciation of the basis in our assets from our operating results. NOI should not, however, be considered as an alternative to net income (determined in accordance with GAAP) as an indicator of our financial performance.

- 1 Same Property analysis excludes Glendale Town Center and Shops at Eagle Creek as these properties are undergoing redevelopment. Four Corner Square has also been excluded as the Company pursues redevelopment of this property.
- 2 Same Property analysis excludes net gains on outlot sales, write offs of straight-line rent and FAS #141 deferred revenue and significant prior year expense recoveries and adjustments, if any.

The Company believes that Net Operating Income is helpful to investors as a measure of its operating performance because it excludes various items included in net income that do not relate to or are not indicative of its operating performance, such as depreciation and amortization and interest expense. The Company believes that Same Property NOI is helpful to investors as a measure of its operating performance because it includes only the NOI of properties that have been owned for the full period presented, which eliminates disparities in net income due to the redevelopment, acquisition or disposition of properties during the particular period presented, and thus provides a more consistent metric for the comparison of the Company's properties. NOI and Same Property NOI should not, however, be considered as alternatives to net income (calculated in accordance with GAAP) as indicators of the Company's financial performance.

- Opening Date is defined as the first date a tenant is open for business or a ground lease payment is made. Stabilization (i.e., 85% occupied) typically occurs within six to twelve months after the opening date.
- Projected Owned GLA represents gross leasable area we project we will own. It excludes square footage that we project will be attributable to non-owned outlot structures on land owned by us and expected to be ground leased to tenants. It also excludes non-owned anchor space.
- Projected Total GLA includes Projected Owned GLA, projected square footage attributable to non-owned outlot structures on land that we own, and non-owned anchor space that currently exists or is under construction.
- Dollars in thousands. Reflects both the Company's and partners' share of costs.
- Excludes outlot land parcels owned by the Company and ground leased to tenants. Includes leases under negotiation for approximately 16,259 square feet for which the Company has signed non-binding letters of intent.
- The Company owns the following development properties through joint ventures: Cornelius Gateway (80%); Sandifur Plaza (95%); Beacon Hill (preferred return, then 50%); Gateway Shopping Center (preferred return, then 50% until internal rate of return threshold is reached and then 25%); Estero Town Commons (preferred return, then 40%) and Bayport Commons (preferred return, then 60%).
- Includes tenants that have taken possession of their space or have begun paying rent.
- This property has been removed from the operating portfolio statistics during its redevelopment.
- The Company is in the process of re-tenanting the anchor space formerly occupied by Winn-Dixie with two junior box users. The Company has an executed lease with Staples for approximately one-half of the former grocery space.
- Target Corporation acquired 10.5 acres in April 2007 and will anchor the redevelopment. The Company will construct approximately 62,000 square feet of new b-shop/professional office space and leasing activities have commenced. Existing tenants that will remain throughout the redevelopment process include Macy's, Kerasotes Theaters, Staples, Indianapolis-Marion Co. Public Library, OASIS, Lenscrafters, Taco Bell, and O'Charley's.
- Beacon Hill Phase I was transferred to the operating portfolio in the third quarter of 2007 at a total cost of \$12 million.
