**INTECH LAUNCHES ITS FIRST ENHANCED
GLOBAL EQUITY STRATEGY****Seeding from one of Europe's largest institutional investors**

West Palm Beach, FL –INTECH Investment Management LLC (INTECH) today announced that it has launched its first Enhanced Global Equity strategy. This has been seeded with funding by one of Europe's largest pension funds.

The Enhanced Global Equity strategy is an extension of both INTECH's Global Core and Enhanced Index strategies. As of November 30, 2009 Global Core has returned 3.88%, annualized and gross of fees, since its inception (January 1, 2005), outperforming its benchmark, the MSCI World Index by 1.65%. Enhanced Index has returned 2.98%, annualized and gross of fees since its inception (April 1, 1998) through November 30, 2009, outperforming its benchmark, the S&P 500 Index, by 1.28%.

This new strategy is managed using INTECH's mathematical, risk-managed investment process designed to seek long-term returns in excess of the target benchmark. This builds on the same volatility capture strategy the firm has implemented since 1987.

The investment objective of Enhanced Global is to achieve an excess return above its benchmark, the MSCI Developed World Gross Index, by approximately 1.25% to 1.35% (annualized and gross of fees) over a three-to-five year time period. The tracking error is expected to approximate 1.35% to 1.50% annually over the long term, gross of fees and the information ratio is targeted to be above 0.75

“The INTECH process is designed to target specific levels of excess return over time. This target level of outperformance can be ‘dialed up’ or ‘dialed down,’ according to a client’s risk tolerance,”

said Robert A. Garvy, M.B.A., Chairman and Chief Executive Officer of INTECH. “The result is an investment approach that has historically delivered high information ratios, a key measure of risk-adjusted excess return, investment efficiency, and consistency long term.”

About INTECH

Headed by Chief Executive Officer Robert A. Garvy, M.B.A., INTECH was founded in 1987 following research undertaken by Dr. E. Robert Fernholz, the company’s Chief Investment Officer, and the publication of his paper in 1982, on mathematical investment processes titled “Stochastic Portfolio Theory and Stock Market Equilibrium.” The company’s global headquarters is located in West Palm Beach, Florida and has offices in Princeton, New Jersey and London, England. As of September 30, 2009, INTECH had approximately \$47.3 billion under management and 82 employees. INTECH is an independently managed subsidiary of Janus Capital Group.

About Janus Capital Group Inc.

Janus Capital Group Inc. (JCG) is a global investment firm offering strategies from three individual investment boutiques: Janus Capital Management LLC (Janus), INTECH Investment Management LLC (INTECH) and Perkins Investment Management LLC (Perkins). Each manager employs a research-intensive approach that is distinct within its respective asset class. This multi-boutique approach enables the firm to provide style-specific expertise across an array of strategies, including growth, value and risk-managed equities, fixed income and alternatives through one common distribution platform. At the end of September 2009, JCG managed \$151.8 billion in assets for shareholders, clients and institutions around the globe. Based in Denver, JCG also has offices in London, Tokyo, Hong Kong and Singapore.
