Governance

Our executive compensation program reflects our strong commitment to good governance, as follows:

- We maintain a diversified compensation program that balances long-term vs. short-term, fixed vs. variable, and cash vs. equity compensation. A substantial portion of the compensation of our named executive officers is "at risk."
- We maintain a claw-back/forfeiture right in our equity plan documents.
- We do not maintain significant perquisites for our executives.
- Our Compensation Committee engages only independent compensation consultants that do not provide any services to the Company.
- All members of the Compensation Committee are independent according to SEC and NYSE independence standards.
- In general, we do not provide tax gross-ups to our executives, including Section 280G excise tax gross-ups.

Our Compensation Philosophy

Our compensation practices are designed to meet the following key objectives:

- ensure that the financial interests of our executives are aligned with those of our stockholders;
- attract and retain talented executives who can drive an organization to succeed in the rapidly-changing and highly-competitive healthcare industry;
- motivate and reward executives to deliver superior business performance without encouraging excessive risk taking; and
- balance rewards for both short-term results and long-term results to ensure sustained business performance over time.

We believe that executives should be rewarded for current performance and further incentivized in recognition of their contributions to our long-term performance, and that the financial interests of our executives should be aligned with the interests of our stockholders. To promote this philosophy and in recognition of the fact that the dynamic nature of our business requires a constantly evolving outlook on compensation, we take a flexible approach to determining the amount and composition of the compensation paid to our executive team, allowing us to effectively and efficiently attract, motivate, reward and retain outstanding executives. While we consider compensation paid by our peers, as well as certain formulas to fund our annual bonus incentive pool, decisions regarding compensation are ultimately made in the discretion of the Compensation Committee and Board of Directors which we believe has the expertise to effectively judge and evaluate Company performance and appropriate resulting compensation.

Compensation Committee and Process

Our Compensation Committee meets regularly throughout the year, both in executive session and with members of management and third-party advisors present. Our Compensation Committee seeks to set compensation for our named executive officers that fits within our compensation philosophy, addresses our strategic needs, and is competitive. While our Board of Directors has delegated to our Compensation Committee substantial authority over compensation decisions, our full Board considers and ratifies many decisions of the Compensation Committee that are made with respect to the named executive officers and certain of our other officers. Our Compensation Committee generally bases its determinations in respect of any given year, as described in more detail below, on reports prepared by compensation consultants, analysis by our Chief Executive Officer and other members of the senior executive team, our Compensation Committee's overall assessment of qualitative and quantitative corporate and individual criteria, and our broad-based compensation goals of reasonableness and appropriateness.

Executive Participation

The Compensation Committee finds it important to regularly solicit input from our Chief Executive Officer and other members of senior management, whose understanding of the strategic needs of our business makes them a necessary resource to assist the Compensation Committee in establishing competitive pay packages that are in our best interests and the best interests of our stockholders.

Our senior management has a unique understanding of the needs of our business as a result of their day-to-day interaction with each other and our business, as well as their oversight roles, and thus provides valuable insight to our Compensation Committee in determining the compensation of our named executive officers. As such, our Compensation Committee considers the recommendations of our Chief Executive Officer with respect to compensation for our senior management team. In general, our Chief Executive Officer attends at least a portion of all regular meetings of our Compensation Committee, and from time to time the Compensation Committee consults other members of senior management, including the General Counsel, for their input and insight. The Chief Executive Officer does not play a role in determining his own compensation and is not present during Compensation Committee or Board deliberations as to his compensation. Despite important executive participation, all named executive officer compensation decisions are ultimately made by the Compensation Committee in its discretion. With respect to base salary, annual bonus awards and annual equity award grants, the Compensation Committee typically presents its recommendations to the full Board of Directors for final approval.

Compensation Consultant

Our Compensation Committee has the authority to employ outside advisors, experts and professionals to assist it in setting executive compensation. Our Compensation Committee has obtained and considered, and continues to obtain and consider, the expert advice of third-party independent compensation consultants. During 2016, the Company engaged Frederic W. Cook & Co., Inc. ("**Fred Cook**") as its independent compensation consultant. Fred Cook assisted the Committee with respect to certain 2016 compensation matters. Fred Cook does not provide any services to the Company other than executive compensation services and the Compensation Committee concluded that Fred Cook is free of conflicts of interest.

Benchmarking

Although our Compensation Committee does not believe that it is appropriate to establish compensation levels based solely on benchmarking, we recognize that our compensation practices must be competitive in the marketplace. In connection with our consideration of competition for executive talent, we consider the fact that there are relatively few available executives with the requisite experience and knowledge of our business, which limits the size of the pool of replacements for our existing executives and increases the need for retention of them. Our Compensation Committee determines annually the appropriate combination of cash and equity-based compensation for our executives and considers the competitiveness of overall compensation paid to our executives in relation to our peer group and others. In addition, we structure our compensation so that executives understand that we expect them to contribute to the growth in value of the Company, and have therefore constructed our long-term incentive plan to provide appropriate rewards for growth in value.

We benchmark our compensation practices to other publicly traded companies that are comparable to us based upon various factors such as their lines of business, size based on both revenues and market capitalization and industry. With respect to compensation decisions, the following five publicly-traded companies were deemed to be appropriate peers for benchmarking purposes:

- Centene Corporation

[Table of Contents](#)

- Magellan Health Services, Inc.
- Molina Healthcare, Inc.
- Triple-S Management Corporation
- WellCare Health Plans, Inc.

Elements of Compensation

General

The primary elements of our executive compensation program consist of (i) base salaries, (ii) annual bonus awards and (iii) long term equity awards. While not a significant part of our program, we also offer our executives limited perquisites and some other benefits generally offered to all employees.

The following table shows the percentage mix of the three different forms of compensation awarded to our named executive officers for 2016:

<u>Name</u>	<u>Base Salary</u>	<u>Annual Bonus</u>	<u>Long-Term Equity</u>
Richard A. Barasch	28%	42%	30%
Adam C. Thackery	40%	32%	28%
Erin G. Page	41%	33%	26%
Anthony L. Wolk	39%	39%	22%
Steven H. Black	43%	32%	24%

Base Salaries

Competitive salaries are essential to recruiting and retaining qualified employees. Consistent with the process described above and with the aim of maintaining a reasonable level of internal pay equity, the Compensation Committee generally reviews base salaries in the first quarter of each year. Salary changes for our named executive officers, if any, are typically determined during the first quarter of each fiscal year and normally take effect on or about April 1st of the applicable year. To maintain flexibility, we do not target base salary at any particular percent of total compensation. In 2016, our Compensation Committee determined that Mr. Barasch's base salary should remain unchanged, Messrs. Wolk and Black and Ms. Page should receive an increase in base salary of 2.0% from 2015 to reflect a standard cost of living adjustment. Mr. Thackery received a base salary increase of 6.1% in consideration of performance and increased responsibilities. A 2.7% salary increase was generally applicable to Company employees.

Annual Bonuses

Consistent with our philosophy of rewarding contributions to Company performance, a significant component of executive compensation is our annual bonus program, which ensures that a meaningful portion of compensation is "at risk." The bonus program for 2016 consisted of the following:

1. 50% of an officer's bonus is tied to five company performance metrics. The metrics and weightings are listed below:

<u>Metric</u>	<u>Weighting</u>
Financial performance	20.0%
Medicare Advantage core membership growth	7.5%
ACO profitability	7.5%
Medicare Advantage Star ratings	7.5%
Compliance	7.5%

2. 50% of an officer's bonus is tied to individual performance.

[Table of Contents](#)

This program serves to reward and motivate achievement of financial and other performance goals which is at the core of our pay-for-performance philosophy. Target bonus amounts as a percentage of base salary for the named executive officers for 2016 were 150% for Mr. Barasch, 60% for Mr. Thackery, 80% for Ms. Page and 75%, for Messrs. Wolk and Black. Target bonus percentages were consistent with 2015, with the exception of Mr. Thackery and Ms. Page, who received increases in their target bonus percentages of 10% and 5%, respectively, in recognition of increased responsibilities and performance. The target bonus amounts were established with the competitiveness of the executives' total pay package as a principal objective and consistent with the philosophy of the Compensation Committee to make a significant portion of the named executive officers' compensation based on performance.

The Company's performance against the five Company performance metrics is set forth below.

- Financial Performance. During 2016, the Company exceeded the target financial performance metrics set by the Board.
- Medicare Advantage core membership growth. During 2016, the Company fell slightly short of the Medicare Advantage membership target set by the Board.
- ACO Profitability. At this time, the Company has not received the final data from CMS regarding performance year 2016. However, it was agreed that bonus amounts need not be deferred pending final ACO results.
- Medicare Advantage Star Ratings. During 2016, the Company improved its overall Star ratings and this target was met.
- Compliance. During 2016 the Company continued to make improvements in compliance, particularly Medicare compliance, and this target was met.

Based on the foregoing and the significant positive developments that occurred during 2016, including the WellCare Transaction, the Compensation Committee approved the following bonuses for 2016 for the named executive officers:

- Mr. Barasch received 100% of his 2016 target bonus which was paid in February 2017. Messrs. Thackery, Wolk and Black and Ms. Page each received 100% of their 2016 target bonus which was paid in December 2016.
- In addition to the above, Messrs. Wolk and Thackery earned an additional bonus of \$100,000 and \$75,000, respectively, based on their performance related to various strategic transactions that were accomplished during 2016.

Equity Compensation

We believe that a significant portion of our named executive officers' compensation should be in the form of long-term equity-based awards that align our executives' interests with those of our stockholders. We grant equity-based compensation to our named executive officers pursuant to the 2011 Equity Plan because it directly links the value of compensation to the long-term results achieved for our stockholders. While we consider the level of past grants in making current equity award decisions, we generally do not consider wealth accumulation from the appreciation of past awards because we believe that wealth accumulation is the proper reward for an executive's contributions to our performance and should not be offset against any incentives for future performance. We generally make annual equity grants to our named executive officers and other employees during the first quarter of our fiscal year. In February 2016, the Compensation Committee awarded stock options, and restricted stock to our named executive officers as follows:

<u>Name</u>	<u>Stock Options</u>	<u>Performance-Based Options</u>	<u>Restricted Stock</u>	<u>Performance-Based Restricted Stock</u>
Richard A. Barasch	86,261	86,261	92,118	92,118
Adam C. Thackery	18,298	18,298	19,540	19,540
Erin G. Page	21,957	21,957	23,448	23,448
Anthony L. Wolk	18,298	18,298	19,540	19,540
Steve H. Black	18,298	18,298	19,540	19,540

[Table of Contents](#)

In general, the fair value of the 2016 equity grants to the named executive officers was approximately 25% in stock options and 75% in restricted stock. 50% of the stock options granted in 2016 have four-year time vesting and the other 50% have performance based vesting tied to stock price appreciation. Similarly, 50% of the restricted shares granted in 2016 have four-year time vesting and the other 50% have performance based vesting tied to stock price appreciation. The performance based grants, both stock options and restricted stock, are collectively referred to as the "Performance Awards." The four-year time vested awards, both stock options and restricted stock, are collectively referred to as the "Time-Vested Awards." The Performance Awards vest ratably over a four-year period, but only if our stock price meets specified targets at the vesting dates. Performance Award vesting is cumulative, such that if a stock price target is missed on a vesting date, but a subsequent stock price target is met on a future vesting date, all previously unvested shares would then vest. In the event of a Change in Control (as defined in the 2011 Equity Plan) which would include the WellCare Transaction, the Performance Awards (stock options and restricted stock) will no longer vest in accordance with the performance-based criteria but instead shall vest as if such grants were originally granted as four-year time vested grants where 25% of such awards would vest on each of the first four anniversaries of the date of grant.

Perquisites and Other Benefits

We do not view perquisites as a significant portion of our named executive officers' compensation package. Historically, we have not provided our named executive officers with a significant number of perquisites or other benefits; however, we believe that the perquisites and other benefits that we do provide assist our named executive officers in the performance of their duties and contribute to a well-rounded, competitive pay package. In addition to perquisites that are unique to one or more named executive officers, such as car allowances, we offer the following benefits to our named executive officers and to all of our other eligible employees:

- a Company matching contribution under our 401(k) plan equal to 100% of the employee's first 1% of contributions, plus 50% of the employee's next 4% of contributions, up to a maximum matching contribution of 3% of the employee's eligible compensation,
- standard medical, dental, and life and disability insurance coverage, and
- vacation and other paid time off.

Say-on-Pay Advisory Vote on Executive Compensation

At the Company's annual meeting held in May 2012, our stockholders voted to hold the non-binding, advisory vote regarding the frequency of the voting with respect to the compensation of our named executive officers on an annual basis with approximately 96% of the votes cast in favor of such annual say-on-pay vote. In addition, at last year's annual meeting, our stockholders voted their approval of the compensation of our named executive officers with approximately 99% of the votes cast. The Compensation Committee has considered the results of these advisory votes in determining the Company's compensation policies and decisions and has determined that these policies and decisions are appropriate.

Severance and Change-in-Control Benefits

We believe severance and change-in-control benefits are essential to recruiting and retaining qualified senior management. The terms of such agreements depend on the benefits negotiated with the individual executives upon him or her joining the Company or as subsequently negotiated thereafter. The material terms of the severance benefits for our named executive officers are discussed elsewhere in this filing under the caption "*Potential Payments upon Termination or Change-in-Control.*"

Tax and Accounting Implications of Compensation

Section 162(m) of the Internal Revenue Code imposes a limit on the deductibility of compensation paid to named executive officers of public companies unless the compensation meets requirements for "performance-based compensation."

Our Compensation Committee believes that it is important for us to retain maximum flexibility in designing compensation programs that most effectively promote the achievement of our stated objectives. Therefore, while considering tax deductibility as one of the factors in determining compensation, we do not generally limit the amount of compensation to levels or types simply on account of potential deductibility. Our Compensation Committee does, however, consider alternative forms of compensation where available in order to preserve deductibility and promote tax and accounting efficiency consistent with our ultimate compensation goals.

Risk Management

In conjunction with our risk management processes, our Compensation Committee reviews executive compensation and our company-wide compensation programs and policies to seek to eliminate or mitigate potential risks arising from such programs and policies, and to ensure that our compensation, structure, elements, and incentives are not reasonably likely to have a material adverse effect on the Company or result in excessive risk taking. The Compensation Committee also seeks to ensure that our compensation programs are consistent with our general risk management practices and to ensure the safety and soundness of our Company over the market cycles that characterize our industry.

Policy on Ownership of Stock and Options

Our directors and their affiliated companies and our executive officers collectively own approximately 19% of our outstanding common stock. Given this significant ownership interest, we do not currently have any policy regarding levels of equity ownership by our named executive officers or directors.

Recovery of Previously Paid Incentive Compensation

The 2011 Equity Plan and award agreements issued to holders of awards permit the Committee to clawback and/or cancel equity awards under certain circumstances, including fraud or other conduct contributing to any financial restatements or accounting irregularities. In such an event, the matter would be referred to the Compensation Committee or Board for analysis and recommendation. Under the Dodd-Frank Wall Street Reform and Consumer Protection Act, guidelines will be forthcoming concerning required clawbacks of incentive compensation. When these guidelines are finalized, we intend to amend our programs, as necessary, to comply with the new requirements.

Compensation Committee Report

Our Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis with management. Based on its reviews and discussion with management, our Compensation Committee recommended to our Board of Directors, and our Board has approved, that the Compensation Discussion and Analysis be included in this filing.

(1) Salary amounts in this table reflect the actual base salary payments earned in the year indicated. Non-equity incentive plan compensation amounts reflect the amounts earned by each named executive officer during the indicated year under our annual incentive bonus plan. Mr. Barasch received 100% of his annual target bonus which was paid in February 2017. Messrs. Thackery, Wolk and Black, and Ms. Page received 100% of their annual target bonus which was paid in December 2016. In addition, Messrs. Wolk and Thackery earned an additional bonus of \$100,000 and \$75,000, respectively, based on their performance related to various strategic transactions that were accomplished during 2016. These amounts are included in the table above. In addition, as part of Mr. Wolk's 2015 bonus, he earned an additional 10% bonus of \$31,875 upon the close of the sale of the Company's Traditional Insurance business in August 2016. Such amount is excluded from this table.

The amounts included for 2015 for non-equity incentive plan compensation represent the total amount of the 2015 annual bonuses that were awarded to the named executive officers and were paid in cash in March 2016. Ms. Page and Messrs. Thackery, Wolk and Black received 50% of their target bonuses in March 2016. Mr. Barasch was paid 15% of his target bonus in March 2016.

The amounts included for 2014 for non-equity incentive plan compensation represent the total amount of the 2014 annual bonuses that were awarded to the named executive officers and were paid in cash in March 2015. Ms. Page and Messrs. Wolk and Black received 100% of their target bonuses in March 2015. Mr. Barasch was paid 53.75% of his target bonuses in March 2015.

(2) The amounts reported as Stock Awards represent the grant date fair value of restricted stock grants awarded to our named executive officers during the indicated year, computed in accordance with ASC 718. Restricted stock vests ratably over four years at each anniversary of the grant. Performance-based restricted stock vests ratably over a four-year period, but only if our stock price meets specified targets at the vesting dates. Vesting is cumulative, such that if a stock price target is missed on a vesting date, but a subsequent stock price target is met on a future vesting date, all previously unvested shares would then vest. We determined the grant date fair value for the restricted stock awards by multiplying the number of restricted shares granted by the closing market price of a share of our common stock on the date of grant, except in the case of performance-based awards, which we value using a Monte Carlo valuation approach. For additional discussion, see Note 15—Stock-Based Compensation in our Annual Report on Form 10-K for the year ended December 31, 2016. In addition, the amounts shown in the table for 2015 for Stock Awards do not include 143,267; 57,307; 93,124 and 85,960 shares of restricted stock that were awarded to Ms. Page and Messrs. Thackery, Wolk and Black, respectively, in November 2015. These shares vest automatically on the six-month anniversary of a Change in Control. Under ASC 718, the grant date fair value of the awards is \$0.

(3) The amounts reported as Option Awards represent the grant date fair value of stock option grants awarded to our named executive officers during the indicated year computed in accordance with ASC 718. The exercise price of these

[Table of Contents](#)

stock options was initially set as the closing market price of a share of our common stock on the grant date. As a result of the \$0.75 special dividend approved by the Board of Directors on October 8, 2015 to shareholders of record on October 19, 2015, the exercise price for all options awarded prior to the record date was reduced by the amount of the special dividend. The option grants vest in four equal annual installments, starting with the first anniversary of the grant date and expire after five years. Performance options vest similarly, but only if our stock price meets specified targets at the vesting dates. Vesting is cumulative, such that if a stock price target is missed on a vesting date, but a subsequent stock price target is met on a future vesting date, all previously unvested options would then vest. We determined the grant date fair value for the option awards using the Black Scholes method, except in the case of performance-based awards, which we value using a Monte Carlo valuation approach. Assumptions used in the calculation of the grant date fair value of the stock options are included in Footnote 15 to the Company's audited financial statements for the fiscal year ended December 31, 2016, including in the Company's Annual Report on Form 10-K filed with the SEC on February 28, 2017.

- (4) Amounts reported reflect, as applicable, car allowance, our matching contributions into the Universal American Corp. 401(k) Savings Plan and dividends earned on restricted stock that vested after the Company's special cash dividends of October 2015 (\$0.75 per share), August 2013 (\$1.60 per share) and November 2012 (\$1.00 per share) were paid. These dividends were accrued at the time of the special dividend award and are paid as the underlying shares of restricted stock vest.

The amounts reported in 2016:

- For Mr. Barasch, the amount reported reflects \$7,243 car allowance, \$7,950 Company matching contributions into the Universal American Corp. 401(k) Savings Plan and \$171,558 in dividends on vested restricted stock.

- (1) Represents target payout levels for each of the named executive officers under our annual incentive bonus plan for 2016. There is no threshold or maximum payout level under such plan, although the Compensation Committee and Board of Directors maintain ultimate authority in approving bonuses to ensure reasonableness. The actual amount of incentive bonus earned by each Named Executive Officer for 2016 is reported under the Non-Equity Incentive Plan Compensation column in the "Summary Compensation Table." Additional information regarding our annual incentive bonus plan is included under Compensation Discussion and Analysis.
- In addition to the non-equity incentive plan discussed above, an equity incentive plan is also available to our named executive officers, although there are no threshold, target or maximum amounts of grants. Please see the "Compensation Discussion and Analysis" section of this filing for a discussion of equity incentive compensation for our named executive officers.

(1) The value realized on exercise is based on the difference between the closing market price of a share of our common stock and the exercise price of the options on the date of exercise. A particular named executive officer may or may not have sold shares acquired upon exercise of options, and you should not infer from the inclusion of this information in this table that the named executive officer is or was in actual receipt of the indicated funds.

(2) The value realized on vesting is based on the closing market price of a share of our common stock on the date of vesting and aggregates the total value realized on various vesting dates. The amounts also include dividends on the restricted stock. A particular named executive officer may or may not have sold shares subsequent to vesting, and you should not infer from the inclusion of the information in this table that the named executive officer is or was in actual receipt of the indicated funds.

Potential Payments upon Termination or Change-in-Control

We have entered into employment arrangements through employment agreements with each of our named executive officers. These employment arrangements provide severance benefits in the event of termination of employment. Regardless of the manner in which a named executive officer's employment terminates, he is entitled to receive amounts earned, but not yet then paid, during his term of employment, principally base salary and amounts accrued and vested through our 401 (k) Savings Plan. In addition, except as provided in the tables below, each named executive officer is eligible to receive vested equity awards upon a termination of employment for any reason. Each named executive officer is subject to non-competition and non-solicitation covenants under his employment agreement; however such covenants do not apply for any termination of employment that occurs within 12 months following a change-in-control, except for Ms. Page whose restrictive covenants survive a termination of employment that occurs within 12 months following the WellCare Transaction as a result of a retention bonus agreement she entered into with WellCare as part of the WellCare Transaction.

Change of Control

The following tables provide information on potential benefits that each named executive officer could receive under their existing employment agreements with Universal American under various termination scenarios, calculated as if any termination occurred on December 31, 2016. We would only be able to determine the actual amounts paid to any named executive officer at the time of the executive's separation from us. The WellCare Transaction, if consummated, will constitute a change-in-control under each of the named executive officer's existing employment arrangements.

Richard A. Barasch, Chairman and Chief Executive Officer

In the event of termination of employment without cause or for good reason, Mr. Barasch's existing employment arrangements provide for:

- A cash lump sum severance payment equal to (i) two times his base salary plus the lesser of (A) his bonus for the fiscal year prior to termination or (B) his base salary; and (ii) a prorated portion of his bonus that he would have been entitled to receive in the year of termination.
- Continued welfare benefit plan coverage for two years.
- Accelerated vesting of all equity awards and the opportunity to exercise such awards for one year following such termination.

Mr. Barasch receives an enhanced severance following a change-in-control. If a termination of employment without cause or for good reason occurs within 12 months following a change-in-control (as defined in his employment agreement), his severance would be enhanced to include:

- An additional lump sum payment equal to two times his base salary.
- Continuation of welfare benefits plan coverage for an additional one-year period.
- Full vesting of his 401(k) account balance.

DIRECTOR COMPENSATION

The general policy of our Board of Directors is that compensation for non-employee directors should be a mix of cash and equity-based compensation. We do not pay management directors for Board service in addition to their regular employee compensation. The Compensation Committee, which consists solely of independent directors, has the primary responsibility for reviewing and considering any revisions to director compensation. The Board then reviews the Compensation Committee's recommendations and determines the amount of director compensation.

During 2016, our director compensation policy included the following schedule:

	<u>2016</u>
Equity Compensation:	
Target value of total equity compensation	\$ 80,000
Cash Compensation:

Compliance and Quality Committee Chair	30,000
Nominating and Corporate Governance Committee Chair	10,000
Special Committee, if applicable	30,000
Committee Member fees per year:

The following table shows the total compensation paid to our non-employee directors in 2016. All of our directors during 2016, other than Mr. Barasch, were non-employee directors. Our non-employee directors who are affiliated with certain of our equity investors instructed us that all director compensation that we pay or issue to them will be paid to entities affiliated with such equity investors, except for Thomas A. Scully.

- (1) We awarded Stock Awards under the 2011 Omnibus Equity Award Plan (the “**2011 Equity Plan**”). 100% of the awards were in the form of restricted stock. The 2011 Equity Plan provides for the granting of various types of equity awards, including stock options, stock appreciation rights, restricted stock, restricted stock units, and other stock based awards and/or performance compensation awards.
 - (2) The amounts reported as Stock Awards represent the grant date fair value of restricted stock grants awarded for the service of each non-employee director, with the exception of Messrs. Perry and Traynor, who resigned June 27, 2016, Mr. Sperzel, who resigned September 12, 2016 and Mr. Scully, who did not stand for re-election and whose term ended May 25, 2016, computed in accordance with Accounting Standards Codification Topic 718 (“ASC 718”), Compensation—Stock Compensation. Restricted stock vests ratably over four years at each anniversary of the grant. We determined the grant date fair value for the restricted stock awards by multiplying the number of restricted shares granted by the closing market price of a share of our common stock on the date of grant (December 7, 2016).
 - (3) At December 31, 2016, the director held 19,781 shares of unvested restricted stock, of which 10,430 were awarded during 2016, 5,731 shares of performance-based restricted stock all of which were awarded in 2015 and 79,935 stock options.
 - (4) At December 31, 2016, the director held 10,430 shares of unvested restricted stock, which were awarded in 2016.

ITEM 13 - CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Review and Approval of Related Party Transactions

Our Audit Committee is responsible for the review and approval of any transaction, relationship or arrangement in which we are a participant and that involves Board members, our executive officers, beneficial owners of more than 5% of our common stock, their immediate family members, domestic partners and companies in which they have a material interest. We refer to these as related party transactions and to the persons or entities involved as related persons. Our Audit Committee evaluates related party transactions for purposes of recommending to the disinterested members of the Board that the transactions are fair, reasonable and within our policies and practices and should be approved or ratified. Where appropriate, we may establish a special Committee of disinterested directors to review such transactions.

Under our Code of Business Conduct and Ethics, our directors and employees must report any circumstances that may create or appear to create a conflict between us and the interests of the related person, regardless of the amount involved. Our directors and executive officers must also periodically confirm information about related person transactions.

We have adopted a Related Party Transaction policy which governs the approval of related party transactions. In determining whether to approve a related party transaction, our Audit Committee will consider all relevant facts and circumstances, including without limitation, the following:

- the benefits of the transaction to the Company and the relevant related party;
- the business purpose of the transaction;
- the terms of the transaction and whether they are arm’s-length and in the ordinary course of business for both parties;
- the direct or indirect nature of the related party’s interest in the transaction;
- whether the transaction would impair the judgment of a director or executive officer to act in the best interest of the company;
- the size and expected duration of the transaction; and
- other facts and circumstances that bear on the materiality of the related party transaction under applicable law and New York Stock Exchange listing standards.

To approve a Related Party Transaction, the Committee shall determine that, upon consideration of all relevant information, the proposed transaction is in, or not inconsistent with, the best interests of the Company and its shareholders.

GTCR Letter Agreement and Registration Rights Agreement

On March 2, 2012, in connection with the acquisition of APS Healthcare, we entered into a letter agreement the “**GTCR Letter Agreement**”) with Partners Healthcare Solutions Holdings, L.P. (“**APSLP**”), pursuant to which a fund affiliated with GTCR had the right to appoint one director to the Company’s Board of Directors. George E. Sperzel was the GTCR designee on the Company’s board pursuant to the GTCR Letter Agreement. Concurrently with the consummation of the acquisition of APS Healthcare, we entered into a registration rights agreement, dated as of March 2, 2012 with APSLP. Pursuant to the Registration Rights Agreement, APSLP had certain customary demand, shelf and piggyback registration rights with respect to the shares it received as part of the consideration for the transaction. In connection with the APS Litigation Settlement, the GTCR Letter Agreement and the Registration Rights Agreement terminated and Mr. Sperzel resigned from the Company’s board of directors effective September 12, 2016.

In connection with such share repurchases, Richard C. Perry, Chief Executive Officer of Perry Corp. and Sean M. Traynor, General Partner at WCAS, each resigned from the Company's board of directors effective June 27, 2016.

Director Independence

The Board of Directors has determined that to be considered independent, a director may not have any direct or indirect material relationships with us that would interfere with the exercise of independent judgment. In making a determination of whether a material relationship exists, the Board considers the director's commercial, industrial, banking, consulting, legal, accounting, charitable and familial relationships and all other relevant facts and circumstances. The Board also reviewed the independence of our directors in accordance with the corporate governance standards for companies traded on the New York Stock Exchange set forth in Section 303A of the New York Stock Exchange Listed Company Manual.

Consistent with these considerations, the Board has reviewed all relationships between the Company and the members of the Board, and has affirmatively determined that a majority of our directors are independent within the meaning of the rules of New York Stock Exchange. More specifically, our Board has determined that each of our directors, other than Mr. Barasch, our chief executive officer, is an independent director. In making this determination, our Board considered, among other things, the shares of our stock held by each of our directors and its affiliates.

Audit Committee. Our Audit Committee currently consists of Patrick J. McLaughlin (chair), Sally W. Crawford and Mark K. Gormley. The Board has determined that each of the directors serving on the Audit Committee satisfy the independence standards set forth in our Audit Committee charter and is independent within the meaning of the applicable rules of the New York Stock Exchange and Rule 10A-3 of the Exchange Act.

Compensation Committee. Our Compensation Committee currently consists of Matthew W. Etheridge (chair) and Sally W. Crawford. The Board has determined that each of the directors serving on the Compensation Committee satisfy the independence standards set forth in our Compensation Committee charter and is independent within the meaning of the applicable rules of the New York Stock Exchange.

Under its charter, the Audit Committee has the sole authority to appoint or replace the independent registered public accounting firm subject, if applicable, to stockholder ratification. The Audit Committee is directly responsible for the compensation and oversight of the work of the independent registered public accounting firm, as well as resolution of disagreements between management and the independent registered public accounting firm regarding financial reporting, for the purpose of preparing or issuing an audit report or related work. The Audit Committee engages the independent registered public accounting firm directly, and the independent registered public accounting firm reports directly to the Audit Committee.

The Audit Committee has adopted a formal policy whereby it pre-approves all audit, review and attest services and all other permitted tax and non-audit services, including fees and terms of engagement, to be performed for us by our independent registered public accounting firm, subject to the *de minimis* exceptions for non-audit services described in Section 10A(i)(1)(B) of the Exchange Act, all of which are approved by the Audit Committee prior to the completion of the services. For audit services, each year the independent registered public accounting firm provides the Audit Committee with an engagement letter outlining the scope of the audit services proposed to be performed during the year and the cost for performing these services, which the Audit Committee must formally approve before the audit commences.

If we cannot obtain pre-approval for auditing services and permitted non-audit services as a result of inherent time constraints in the matter for which these services are required, the chairperson of the Audit Committee has authority to pre-approve the services, provided that the estimated cost of the services on each such occasion does not exceed \$25,000, and the chairperson of the Audit Committee will report the pre-approval for ratification to the Audit Committee at its next scheduled meeting. The Audit Committee has complied with the procedures set forth above, and has otherwise complied with the provisions of its charter.
