JANUS CAPITAL GROUP INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Note 1 — Basis of Presentation

In the opinion of Janus Capital Group Inc. (collectively, "JCG" or "the Company") management, the accompanying interim condensed consolidated financial statements contain all adjustments necessary to fairly present the financial position, results of operations and cash flows of JCG in accordance with accounting principles generally accepted in the United States of America ("GAAP"). All such adjustments are of a normal recurring nature. Such interim condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). Certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations. Events subsequent to the balance sheet date have been evaluated for inclusion in the accompanying condensed consolidated financial statements through the issuance date, and the Company has determined that there were no subsequent events that require disclosure other than the acquisition discussed below. These interim condensed consolidated financial statements should be read in conjunction with JCG's Annual Report on Form 10-K for the year ended

December 31, 2014.

The accompanying interim condensed consolidated financial statements have been prepared on a consistent basis with the accounting policies described in Note 2 to the consolidated financial statements that are presented in JCG's Annual Report on Form 10-K for the year ended December 31, 2014.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued a new revenue recognition standard. The standard's core principle is that a company will recognize revenue to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In addition, the standard specifies the accounting for certain costs to obtain or fulfill a contract with a customer and expands disclosure requirements for revenue recognition. On July 9, 2015, the FASB reaffirmed its April 2015 proposal to defer the effective date of the new revenue standard by one year. The revenue standard will be effective for annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period. Early adoption is permitted for annual reporting periods beginning after December 15, 2016, including interim reporting periods within those annual periods. The Company is evaluating the effect of adopting this new accounting standard.

In February 2015, the FASB issued amendments to its consolidation standard that eliminate the deferral for investment funds and modify the analysis for determining if an entity is a variable interest entity ("VIE"). The amendments also include a scope exception for money market funds and change how related party interests affect the consolidation analysis of VIEs. The amended VIE analysis changes the assessment of kick-out rights and fees paid to a service provider when decision-making over an entity's most significant activities has been outsourced. Additionally, limited partnerships and similar entities will be considered VIEs under the amended standard unless limited partners hold substantive kick-out rights or participation rights. The standard is effective for annual reporting periods beginning after December 15, 2015, including interim periods within that reporting period. The Company is evaluating the effect of adopting this new accounting standard.

In April 2015, the FASB issued an amendment to its debt standard requiring debt issuance costs related to a recognized debt liability to be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with the presentation of debt discounts and premiums. The standard is effective for annual reporting periods beginning after December 15, 2015, including interim periods within that reporting period. At June 30, 2015, the Company had approximately \$2.3 million of debt issuance costs in other current and other non-current assets on its Condensed Consolidated Balance Sheets that meet the criteria of this amendment.

Note 2 — Acquisition of Kapstream

On July 1, 2015, JCG announced and closed the acquisition of a 51% interest in Kapstream Capital Pty Limited ("Kapstream"), a global unconstrained fixed income asset manager. The acquisition serves to further expand JCG's fixed income capabilities and build-out its global unconstrained fixed income team.

The transaction included initial upfront cash consideration of \$84.8 million and contingent consideration of \$9.6 million, with the contingent consideration payable at 18 and 36 months after acquisition if certain performance targets are achieved. JCG has an option to purchase the remaining 49% interest from Kapstream management on the third and fourth anniversaries of the acquisition. The Company also acquired certain distribution rights for additional cash consideration of \$3.9 million. The Company incurred \$2.1 million in bank advisory fees and other deal costs during the second quarter 2015 related to the acquisition. The deal costs are included in general, administrative and occupancy on JCG's Condensed Consolidated Statements of Comprehensive Income. JCG will complete an allocation of the purchase price to the acquired assets during the third quarter 2015.

In conjunction with the acquisition, the Company purchased Australian dollars during the second quarter 2015 in anticipation of the transaction which closed on July 1, 2015. As of June 30, 2015, the foreign currency was held in escrow and included in other non-current assets on the Company's Condensed Consolidated Balance Sheets. During the second quarter there was a mark-to-market loss of \$3.4 million on currency translation on those funds. The loss is included in other income (expense), net on JCG's Condensed Consolidated Statements of Comprehensive Income.

Note 3 — Investment Securities

JCG's investment securities as of June 30, 2015, and December 31, 2014, are summarized as follows (in millions):

December 31, 2014						
Seeded investment products	\$ 68.6	\$ 0.4	\$ (0.6)	\$ (0.1)	\$ 68.3	\$ 68.3

The Company reviewed the gross unrealized losses on available-for-sale securities and determined that the losses were not other-than-temporary. The Company considered the duration, extent and circumstances of any decline in fair value as well as JCG's intent and ability to hold these securities for a period of time sufficient to allow for any anticipated recovery in the market value. No other-than-temporary impairment charges were recognized in the six months ended June 30, 2015 or 2014.

Realized gains and losses related to the disposition of seeded investment products classified as available-for-sale securities were recognized within investment gains (losses), net on JCG's Condensed Consolidated Statements of Comprehensive Income. The following is a summary of realized gains and losses upon disposition of seeded investment products classified as available-for-sale securities for the three and six months ended June 30, 2015 and 2014 (in millions):

Derivative Instruments

The Company maintains an economic hedge program that uses derivative instruments to hedge against market volatility of certain seed investments. Fluctuations in equity markets, debt markets, commodity markets and foreign currency markets are hedged by using index swaps, index futures, commodity futures and foreign currency forward contracts.

JCG was party to the following derivative instruments as of June 30, 2015, and December 31, 2014:

	June 30, 2015		December 31, 2014	
	Number of contracts	Notional value (in millions)	Number of contracts	Notional value (in millions)
Index swaps	6	\$ 67.9	4	\$ 56.8
Futures	33	\$ 90.1	6	\$ 74.9
Foreign currency forward contracts	4	\$ 2.8	7	\$ 3.6

8

The above derivative instruments are not designated as hedges for accounting purposes. Changes in fair value of the index swaps and futures are recognized in investment gains (losses), net on JCG's Condensed Consolidated Statements of Comprehensive Income while changes in the fair value of the foreign currency forward contracts are recognized in other income (expense), net on JCG's Condensed Consolidated Statements of Comprehensive Income.

Index swaps are subject to a master netting arrangement. The values of the individual index swap contracts, including any associated cash collateral, are combined and are included on a net basis in other current assets on JCG's Condensed Consolidated Balance Sheets. Futures are also subject to a master netting arrangement and are presented in the same manner as the index swaps. Foreign currency forward contracts are not subject to a master netting arrangement, and as such, fair values of individual contracts are not netted and are included separately within either other current assets or other accrued liabilities on JCG's Condensed Consolidated Balance Sheets.

The Company posted \$1.5 million and \$1.7 million in cash collateral with the counterparty of the futures as of June 30, 2015, and December 31, 2014, respectively. The cash collateral is included in other current assets on JCG's Condensed Consolidated Balance Sheets.

The following tables illustrate the effect of offsetting derivative instruments on JCG's Condensed Consolidated Balance Sheets as of June 30, 2015, and December 31, 2014 (in millions):

	June 30, 2015

Derivative Instruments in Consolidated Seeded Investment Products

Certain of the Company's consolidated seeded investment products utilize derivative instruments to contribute to the achievement of defined investment objectives. These derivative instruments are classified within investment securities on JCG's Condensed Consolidated Balance Sheets. Gains and losses on these derivative instruments are classified within investment gains (losses), net on JCG's Condensed Consolidated Statements of Comprehensive Income. The consolidated seeded investment products posted \$3.6 million and \$1.8 million in cash collateral with the counterparty of the derivative instruments as of June 30, 2015, and December 31, 2014, respectively.

JCG's consolidated seeded investment products were party to the following derivative instruments as of June 30, 2015, and December 31, 2014:

Level 1 Fair Value Measurements

JCG's Level 1 fair value measurements consist mostly of seeded investment products, investments in advised mutual funds, investments in money market funds and investments related to deferred compensation plans with quoted market prices in active markets. The fair value level of seeded investment products classified as trading securities is determined by the underlying securities of the product. The fair value level of equity-method and unconsolidated seeded investment products is determined using the respective net asset value ("NAV") of each product. All seeded investment products that use the NAV to determine their fair value are classified as Level 1 and primarily represent seeded mutual funds where JCG's ownership level is under 50%.

Level 2 Fair Value Measurements

JCG's Level 2 fair value measurements consist mostly of cash equivalents, seeded investment products and JCG's long-term debt. Cash equivalents are short-term, highly liquid investments with an initial maturity of three months or less when purchased and consist primarily of commercial paper and certificates of deposits. The fair value of consolidated seeded investment products where JCG's ownership level is above 50% is determined by the underlying securities of the product. The fair value of JCG's long-term debt is determined using broker quotes and recent trading activity, which are considered Level 2 inputs.

Level 3 Fair Value Measurements

JCG's Level 3 recurring fair value measurements largely represent redeemable noncontrolling interests in INTECH Investment Management LLC ("INTECH") and contingent cash consideration related to the acquisition of VS Holdings Inc., the parent company of VelocityShares, LLC ("VelocityShares").

INTECH

Redeemable noncontrolling interests in INTECH are measured at fair value on a quarterly basis or more frequently if events or circumstances indicate that a material change in the fair value of INTECH has occurred. The fair value of INTECH is determined using a valuation methodology that incorporates observable metrics from publicly traded peer companies as valuation comparables, and adjustments related to investment performance and changes in assets under management. The valuation analysis is prepared internally within JCG's finance organization by personnel with appropriate valuation experience and credentials. In preparing the analysis, JCG benchmarks valuation metrics such as multiples of earnings before interest expense, taxes, depreciation and

amortization ("EBITDA") against current market observables and recent market transactions of a similar size and nature to ensure that the estimates are reasonable. The analysis is reviewed by senior JCG finance personnel and JCG's Chief Financial Officer. The analysis is also reviewed by the holders of the noncontrolling interests in INTECH. If the valuation is agreed to by both JCG and the holders of noncontrolling interests, JCG uses the analysis to value the redeemable noncontrolling interests.

Significant inputs related to the valuation analysis include INTECH's trailing 12-month operating results, performance fees, investment performance and trends in assets under management. In addition, market trading comparables from a relevant publicly traded peer set are included to complete the valuation process. Publicly available comparables used for the second quarter 2015 valuation analysis ranged from approximately 8.0x to 14.0x EBITDA. Significant increases or decreases in historical INTECH operating results would result in a significantly higher or lower fair value measurement, respectively. Additionally, a significant increase or decrease in market trading comparables would result in a significantly higher or lower fair value measurement, respectively. Generally, any period-over-period change in INTECH performance or level of assets under management in isolation is accompanied by a directionally similar change in the fair value measurement.

VelocityShares

Contingent cash consideration was a component of the purchase price of VelocityShares. The contingent consideration is payable on the first, second, third and fourth anniversaries of the acquisition, in amounts up to \$10 million each for the first and second anniversaries, and \$8 million each for the third and fourth anniversaries. The payments are contingent on certain VelocityShares' exchange-traded products reaching defined net revenue targets. The fair value of the contingent cash consideration is calculated on a quarterly basis by forecasting net exchange-traded product revenue, as defined by the purchase agreement, over the contingency period, and determining whether targets are met given forecasted VelocityShares operating results. Forecasted contingent payments are then discounted back to the valuation date. Significant unobservable inputs used in the valuation are limited to forecasted gross revenues and certain expense items, which are deducted from these revenues. Increases in forecasted net revenue would increase the fair value of the consideration, subject to payment limitations, while decreases in net revenues would decrease the fair value.

Nonrecurring Level 3 Fair Value Measurements

Nonrecurring Level 3 fair value measurements include goodwill and intangible assets. JCG measures the fair value of goodwill and intangible assets using a discounted cash flow analysis that requires assumptions regarding projected future earnings and discount rates. Because of the significance of the unobservable inputs in the fair value measurements of these assets and liabilities, such measurements have been classified as Level 3.

Transfers Between Fair Value Levels

The underlying securities of mutual funds and separate accounts may be denominated in a foreign currency. In some cases, the closing price of such securities may be adjusted to capture the effects of any post-closing activity affecting the markets in which they trade. Security prices are adjusted based upon historical impacts for similar post-close activity. These adjustments result in the securities being classified as Level 2 and may also result in movements of securities between Level 1 and Level 2.

Additionally, the deconsolidation of a seeded investment product can cause investment securities held by the product to be removed from Level 2. Upon deconsolidation, the entire seeded investment product is valued using the NAV rather than valued using its underlying securities. Generally, seeded investment products that use the NAV to determine their fair value are classified as Level 1. During the first quarter 2015, the Global Unconstrained Bond Fund in the Company's international trust was deconsolidated and its \$44.3 million of Level 2 assets were reclassified to Level 1.

Transfers are recognized at the end of each reporting period. Transfers from Level 1 and Level 2 classifications for the six months ended June 30, 2015 and 2014, are summarized as follows (in millions):

Note 5 — Debt

Debt at June 30, 2015, and December 31, 2014, consisted of the following (in millions):

	June 30, 2015		December 31, 2014	
	Carrying value	Fair value	Carrying value	Fair value
6.700% Senior Notes due 2017	\$ 344.5	\$ 376.9	\$ 344.5	\$ 380.8

Less: Current portion	107.5	188.3	—	—
Total long-term debt	\$ 344.5	\$ 376.9	\$ 450.5	\$ 558.0

Fair Value of Debt

The fair value of debt was determined using broker quotes and any recent trading activity for each of the notes listed above, which are considered Level 2 inputs.

0.750% Convertible Senior Notes due 2018

The initial conversion rate of the 0.750% Convertible Senior Notes due 2018 (“2018 Convertible Notes”) was 92.06 shares of JCG common stock per \$1,000 principal amount of the 2018 Convertible Notes, which is equivalent to an initial conversion price of approximately \$10.86 per share of common stock. The initial conversion rate was most recently adjusted during the second quarter 2015 when JCG paid a quarterly cash dividend of \$0.09 per share, which was greater than the quarterly dividend of \$0.07 per share at the time of issuance. As a result of the quarterly cash dividend paid on May 22, 2015, the conversion rate changed to 92.44 shares of JCG common stock per \$1,000 principal amount of 2018 Convertible Notes, equivalent to a conversion price of approximately \$10.82 per share of common stock.

Holders of the 2018 Convertible Notes may convert the notes during a particular calendar quarter if the last reported sale price of JCG’s common stock is greater than or equal to 130% of the applicable conversion price for at least 20 trading days during a period of 30 consecutive trading days ending on the last trading day of the preceding quarter. As of June 30, 2015, the 2018 Convertible Notes met the criteria for early conversion and are convertible during the third quarter 2015. The 2018 Convertible Notes conversion criteria are reassessed on a quarterly basis. Fluctuations in the price of JCG’s common stock may cause reclassification of the 2018 Convertible Notes between long-term debt and current portion of long-term debt on JCG’s Condensed Consolidated Balance Sheets on a quarter-to-quarter basis.

Convertible Note Hedge and Warrants

In connection with the 2018 Convertible Notes issuance in June 2013, JCG entered into convertible note hedge and warrant transactions, which, in combination, are intended to reduce the potential for future dilution to existing shareholders by effectively increasing the initial conversion price of the 2018 Convertible Notes to JCG from \$10.86 to \$12.60 per share of common stock.

The initial \$10.86 and \$12.60 per share of common stock exercise prices of the call options and warrants, respectively, were adjusted during the second quarter 2015 when JCG paid a quarterly cash dividend of \$0.09 per share. As a result of the quarterly cash dividend paid on May 22, 2015, which was greater than the quarterly dividend of \$0.07 per share at the time of issuance, the exercise price of the call options changed to \$10.82 per share of common stock, and the exercise price of the warrants changed to \$12.55 per share of common stock.

Interest Rate Adjustment Covenant

The 6.700% Senior Notes due 2017 (“2017 Senior Notes”) are subject to an interest rate adjustment covenant that provides that the interest rate payable will increase by 25 basis points for each level that the Company’s debt rating is decreased by Moody’s Investor Services Inc. (“Moody’s”) from Baa3 or by Standard and Poor’s Rating Service (“S&P”) from BBB-, up to a maximum increase of 200 basis points. If the interest rate has been adjusted upward as a result of either Moody’s or S&P decreasing its rating, then for each level of a subsequent rating increase, the interest payable will be decreased by 25 basis points, but in no event to a rate less than the interest

rate payable on the date of issuance of the respective notes. The interest rate adjustment covenant will permanently terminate if the Company’s debt ratings increase to Baa2 (or higher) by Moody’s and BBB (or higher) by S&P, with a stable or positive outlook regardless of any subsequent decrease in the ratings by either or both rating agencies. On February 26, 2015, Moody’s reaffirmed JCG’s credit rating of Baa3, with a stable outlook. On March 20, 2015, S&P reaffirmed JCG’s credit rating of BBB-, and revised its outlook to positive from negative.

Credit Facility

At June 30, 2015, JCG had a \$200 million, unsecured, revolving credit facility ("Credit Facility") with JPMorgan Chase Bank, N.A., as administrative agent and swingline lender. The Credit Facility can be used by JCG and its subsidiaries for working capital needs and general corporate purposes. The Credit Facility bears interest on borrowings outstanding at the London Interbank Offered Rate ("LIBOR") plus a spread, which is based on JCG's credit rating. JCG is required to pay a quarterly commitment fee on any unused portion of the Credit Facility, which is also based on JCG's credit rating. Under the Credit Facility, the financing leverage ratio cannot exceed 3.00x, and the interest coverage ratio must equal or exceed 4.00x. At June 30, 2015, JCG was in compliance with all covenants, and there were no borrowings under the Credit Facility at June 30, 2015, or during the six months ended June 30, 2015. The Credit Facility has a maturity date of November 23, 2018.

Note 6 — Income Taxes

The Company's effective tax rates for the three and six months ended June 30, 2015 and 2014, are as follows:

	Three months ended June 30,		Six months ended June 30,	
	2015	2014	2015	2014
Effective tax rate	35.5%	41.6%	36.1%	43.4%

As of June 30, 2015, JCG had \$5.5 million of accrued reserves for income tax contingencies. JCG accrued additional reserves for income tax contingencies in the amount of \$0.2 million and removed reserves of \$0.3 million during the second quarter 2015, creating a net tax benefit of \$0.1 million. JCG anticipates that its income tax contingency reserves will decrease by approximately \$0.6 million in the next 12 months, primarily from the expiration of statutes of limitations and the resolution of audits. Accrued reserves for income tax contingencies are presented in other accrued liabilities and other non-current liabilities on JCG's Condensed Consolidated Balance Sheets.

Note 7 — Noncontrolling Interests

Noncontrolling interests in net income for the three and six months ended June 30, 2015 and 2014, consisted of the following (in millions):

	Three months ended June 30,		Six months ended June 30,

Redeemable Noncontrolling Interests

As of June 30, 2015, and December 31, 2014, redeemable noncontrolling interests are summarized as follows (in millions):

	June 30, 2015	December 31, 2014
Consolidated seeded investment products	\$ 21.4	\$ —
INTECH appreciation rights	1.9	—
INTECH founding member ownership interests	6.1	5.9
INTECH undistributed earnings	(0.8)	(0.5)
Total redeemable noncontrolling interests	<u>\$ 28.6</u>	<u>\$ 5.4</u>

Consolidated Seeded Investment Products

Redeemable noncontrolling interests in consolidated seeded investment products may fluctuate from period to period, and are impacted by changes in JCG's relative ownership percentage of seeded products, changes in the amount of third-party investment in seeded products and volatility in the market value of the seeded products' underlying securities. Third-party redemption of investments in consolidated seeded products is redeemed from the respective product's net assets and cannot be redeemed from the assets of other seeded products or from the assets of JCG.

The following table presents a rollforward of noncontrolling interests in consolidated seeded investment products for the three and six months ended June 30, 2015, and 2014 (in millions):

	Three months ended June 30,		Six months ended June 30,	
	2015	2014	2015	2014
Beginning of period balance	\$ 17.8	\$ 11.2	\$ 41.1	\$ 8.8

End of period balance	<u>\$ 21.4</u>	<u>\$ 14.4</u>	<u>\$ 21.4</u>	<u>\$ 14.4</u>

Changes in ownership during the six months ended June 30, 2015, represent the deconsolidation of the Global Unconstrained Bond Fund within JCG's international trust. Third-party investment during the period brought JCG's ownership below 50%.

INTECH

INTECH ownership interests held by a founding member had an estimated fair value of \$6.1 million and \$5.9 million as of June 30, 2015, and December 31, 2014, respectively, representing approximately a 1.0% aggregate ownership of INTECH for both periods. This founding member is entitled to retain his remaining INTECH interests until his death and has the option to require JCG to purchase from him his ownership interests of INTECH at fair value.

INTECH appreciation rights were granted in October 2014 to retain and incentivize employees. The appreciation rights had a grant date fair value of \$23.2 million, which is being amortized on a straight-line basis over the 10-year vesting schedule, and are exercisable upon termination of employment from INTECH to the extent vested. Upon exercise, the appreciation rights are settled in INTECH equity.

Nonredeemable Noncontrolling Interests

At June 30, 2015, noncontrolling interests not subject to redemption rights included employee ownership interests in INTECH.

Nonredeemable noncontrolling interests as of June 30, 2015, and December 31, 2014, are summarized as follows (in millions):

	June 30, 2015	December 31, 2014
Nonredeemable noncontrolling interests in:		
Consolidated seeded investment products	\$ —	\$ 41.1
INTECH	5.7	6.2
Total nonredeemable noncontrolling interests	<u>\$ 5.7</u>	<u>\$ 47.3</u>

Note 8 — Long-Term Incentive Compensation

JCG generally grants annual long-term incentive awards during the first quarter of each year. JCG granted \$1.9 million and \$77.3 million in long-term incentive awards during the three and six months ended June 30, 2015, respectively, which generally vest and will be recognized ratably over a four-year period. The 2015 awards consisted of \$52.2 million of restricted stock (2.9 million shares at a weighted-average price of \$17.81 per share), \$23.1 million of mutual fund share awards and \$2.0 million of INTECH long-term incentive awards.

During the three and six months ended June 30, 2015, JCG recognized \$0.6 million and \$1.7 million of long-term incentive compensation expense related to mark-to-market adjustments of mutual fund share awards and deferred compensation plans, and \$1.9 million and \$2.4 million during the same periods in 2014, respectively. Compensation expense associated with the INTECH appreciation rights, profit interests and phantom interests granted in October 2014 was \$3.4 million and \$7.3 million for the three and six months ended June 30, 2015, respectively.

Note 12 — Litigation and Other Regulatory Matters

JCG is periodically involved in various legal proceedings and other regulatory matters. Although there can be no assurances, based on information currently available, management believes that it is probable that the ultimate outcome of matters that are pending or threatened will not have a material effect on JCG's consolidated financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

FORWARD-LOOKING STATEMENTS

Certain statements in this Quarterly Report on Form 10-Q contain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, Section 21E of the Securities Exchange Act of 1934 and Section 27A of the Securities Act of 1933. Such forward-looking statements involve known and unknown risks, uncertainties, assumptions and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Statements preceded by, followed by or that otherwise include the words "believes," "expects," "anticipates," "intends," "projects," "estimates," "plans," "may increase," "may fluctuate," "forecast" and similar expressions or future or conditional verbs such as "will," "should," "would," "may" and "could" are generally forward-looking in nature and not historical facts. Any statements that refer to expectations or other characterizations of future events, circumstances or results are forward-looking statements. These statements are based on the beliefs and assumptions of Company management based on information currently available to management.

Various risks, uncertainties, assumptions and factors that could cause future results to differ materially from those expressed by the forward-looking statements included in this Quarterly Report on Form 10-Q include, but are not limited to, risks, uncertainties, assumptions and factors specified in the Company's Annual Report on Form 10-K for the year ended December 31, 2014, and this Quarterly Report on Form 10-Q included under headings such as "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations," and in other filings and furnishings made by the Company with the SEC from time to time. In light of these risks, uncertainties, assumptions and factors, the forward-looking events discussed in this Quarterly Report on Form 10-Q may not occur. Many of these factors are beyond the control of the Company and its management. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date stated, or if no date is stated, as of the date of this Quarterly Report on Form 10-Q. The Company undertakes no obligation to release publicly any revisions to any forward-looking statements, to report events or to report the occurrence of unanticipated events unless required by applicable law or regulation.

Overview

JCG provides investment management, administration, distribution and related services to financial advisors, individuals and institutional clients through mutual funds, other pooled investment vehicles, separate accounts and subadvised relationships (collectively referred to as "investment products") in both domestic and international markets. JCG has continued to expand its business to become a more diversified manager with increased investment product offerings and distribution capabilities. JCG provides investment management competencies across a range of disciplines, including fundamental U.S. and global equities (growth and value), mathematical equities, fixed income and alternatives through its subsidiaries, Janus Capital Management LLC

("Janus"), INTECH and Perkins Investment Management LLC ("Perkins"). These subsidiaries specialize in specific investment styles, and each has its own unique and independent perspective. JCG's investment products are distributed through three primary channels: retail intermediary, institutional and international. Each distribution channel focuses on specific investor groups and the unique requirements of each group. As of June 30, 2015, JCG managed \$189.5 billion of assets for mutual fund shareholders, clients and institutions around the globe.

VelocityShares

VelocityShares, a wholly-owned subsidiary of JCG, is a sponsor of unique exchange-traded products, including rules-based exchange-traded funds. These products are institutionally focused and offer sophisticated volatility management solutions. VelocityShares was a sponsor of \$3.0 billion of assets at June 30, 2015.

Kapstream

On July 1, 2015, JCG announced and closed the acquisition of a 51% interest in Kapstream, a global unconstrained fixed income asset manager. The acquisition serves to further expand JCG's fixed income capabilities and build-out its global unconstrained fixed income team. As of June 30, 2015, Kapstream managed \$7.0 billion in assets.

The transaction included initial upfront cash consideration of \$84.8 million and contingent consideration of \$9.6 million, with the contingent consideration payable at 18 and 36 months after acquisition if certain performance targets are achieved. JCG has an option to purchase the remaining 49% interest from Kapstream management on the third and fourth anniversaries of the acquisition. The Company also acquired certain distribution rights for additional cash consideration of \$3.9 million. The Company incurred \$2.1 million in bank advisory fees and other deal costs during the second quarter 2015 related to the acquisition. The deal costs are included in general, administrative and occupancy on JCG's Condensed Consolidated Statements of Comprehensive Income. JCG will complete an allocation of the purchase price to the acquired assets during the third quarter 2015.

In conjunction with the acquisition, the Company purchased Australian dollars during the second quarter 2015 in anticipation of the transaction which closed on July 1, 2015. As of June 30, 2015, the foreign currency was held in escrow and included in other non-current assets on the Company's Condensed Consolidated Balance Sheets. During the second quarter there was a mark-to-market loss of \$3.4 million on currency translation on those funds. The loss is included in other income (expense), net on JCG's Condensed Consolidated Statements of Comprehensive Income.

Segment Considerations

Although JCG manages and distributes a wide range of investment products and services, the Company's management directs JCG's operations as one business, the investment management business, and thus operates in one business segment.

Revenue, Performance Fees and Assets Under Management

Revenues are generally based upon a percentage of the market value of assets under management and are calculated as a percentage of the daily average asset balance in accordance with contractual agreements. Certain investment products are also subject to performance fees, which vary based on a product's relative performance as compared to a benchmark index and the level of assets subject to such fees. Assets under management primarily consist of domestic and international equity and fixed income securities. Accordingly, fluctuations in domestic and international financial markets, relative investment performance, sales and redemptions of investment products, and changes in the composition of assets under management are all factors that have a direct effect on JCG's operating results.

Second Quarter 2015 Summary

JCG finished second quarter 2015 with assets under management of \$189.5 billion, a decrease of 0.1% from the first quarter 2015, as a result of market depreciation partially offset by long-term net inflows. Long-term net inflows decreased from \$1.1 billion in the first quarter 2015 to \$0.2 billion in the second quarter 2015 driven by lower net sales from JCG's growth and core equity strategies, global and international strategies, and fixed income strategies, and higher net redemptions in JCG's value strategies. These decreases were partially offset by lower net redemptions in JCG's mathematical equity strategies.

23

Total revenue for JCG in the second quarter 2015 of \$271.9 million increased \$9.2 million, or 3.5%, from the first quarter 2015 as a result of higher average assets under management partially offset by lower separate account performance fees.

JCG remains focused on operating efficiently by managing operating expenses in relation to total revenue. JCG's operating margin increased from 28.9% in the first quarter 2015 to 30.2% in the second quarter 2015.

Net income attributable to JCG common shareholders for the second quarter 2015 totaled \$44.7 million, or \$0.23 per diluted share, compared with \$44.6 million, or \$0.23 per diluted share, for the first quarter 2015.

Investment Performance of Assets Under Management

Investment products are generally evaluated based on their investment performance relative to other investment products with similar disciplines and strategies or benchmark indices.

Assets Under Management

Assets Under Management and Flows

Total Company assets under management of \$189.5 billion at June 30, 2015, increased \$11.8 billion, or 6.6%, from June 30, 2014, primarily as a result of net market appreciation of \$10.8 billion and long-term net inflows of \$1.2 billion. Long-term net flows represent total Company net sales and redemptions, excluding money market assets.

The following tables present the components of JCG's assets under management for the three and six months ended June 30, 2015 and 2014 (in billions):

Assets and Flows by Investment Discipline

JCG, through its subsidiaries, offers investment products based on a diversified set of investment disciplines. Janus offers growth and core equity, global and international equity as well as balanced, fixed income and retail money market investment products. INTECH offers mathematical-based investment products, and Perkins offers value-disciplined investment products. Assets and flows by investment discipline are as follows (in billions):

VelocityShares

VelocityShares was a sponsor of \$3.0 billion and \$2.4 billion in assets as of June 30, 2015, and December 31, 2014, respectively. VelocityShares assets are not included in JCG-wide assets under management as VelocityShares is not the named advisor or subadvisor to its branded products.

Valuation

The fair value of assets under management is derived from the cash and investment securities underlying JCG's investment products. Investment security values are determined using unadjusted or adjusted quoted market prices and independent third-party price quotes in active markets. JCG uses adjusted market prices to value certain international equity securities in its domestic and non-domestic mutual funds to adjust for stale pricing that may occur between the close of certain foreign exchanges and the New York Stock Exchange. Security prices are adjusted based upon historical impacts for similar post-close activity. For fixed income securities with maturities of 60 days or less, the amortized cost method is used to determine the value. Securities for which market prices are not readily available or are considered unreliable are internally valued using appropriate methodologies for each security type or by engaging third-party specialists. The fair value of the vast majority of the equity securities underlying JCG's investment products is derived from readily available and reliable market price quotations while the fair value of a majority of the fixed income securities is derived from evaluated pricing from independent third-party providers.

The pricing policies for mutual funds advised by JCG's subsidiaries (the "Funds") are established by the Funds' Independent Board of Trustees and are designed to test and validate fair value measurements. Responsibility for pricing securities held within separate and subadvised accounts may be delegated by the separate or subadvised clients to JCG or another party. JCG validates pricing received from third-party providers by comparing pricing between primary and secondary vendors. Any discrepancies are identified and resolved.

JCG performs a number of procedures to validate the pricing received from third-party providers. For actively traded equity securities,

prices are received daily from both a primary and secondary vendor. For fixed income securities, prices are received daily from a primary vendor and weekly from a secondary vendor. Prices from the primary and secondary vendors are compared to identify any discrepancies. In the event of a discrepancy, a price challenge may be issued to both vendors. Securities with significant price changes require additional research, which may include a review of all news pertaining to the issue and issuer and any corporate actions. All fixed income prices are reviewed by JCG's fixed income trading desk to incorporate market activity information available to JCG's traders. In the event the traders have received price indications from market makers for a particular issue, this information is transmitted to the pricing vendors.

All pricing vendors are subject to an annual on-site due diligence review that includes a detailed discussion about the methodologies used, particularly for evaluated prices, and any changes to the methodologies.

JCG is generally not the pricing agent for securities held within separate and subadvised accounts. However, JCG does perform a daily reconciliation between the pricing performed by the pricing agent and the pricing applied based on JCG's procedures. Any pricing discrepancies are resolved with the client-designated pricing agent.

Results of Operations

Total revenues	<u>\$ 271.9</u>	<u>\$ 231.2</u>	17.6%	<u>\$ 534.6</u>	<u>\$ 461.4</u>	15.9%

Investment Management Fees

For the three and six months ended June 30, 2015, investment management fees increased \$23.2 million and \$37.6 million, respectively, over the prior periods in 2014, primarily as a result of respective 10.7% and 9.1% increases in average assets under management driven by market appreciation.

Performance Fees

Performance fee revenue is derived from certain mutual funds and separate accounts. Performance fee revenue consisted of the following for the three and six months ended June 30, 2015 and 2014 (in millions):

	Three months ended June 30,		Six months ended June 30,	
	2015	2014	2015	2014
Mutual fund performance fees	\$ (6.6)	\$ (17.9)	\$ (15.3)	\$ (35.8)
Separate account performance fees	2.2	0.6	8.6	2.6
Total performance fees	<u>\$ (4.4)</u>	<u>\$ (17.3)</u>	<u>\$ (6.7)</u>	<u>\$ (33.2)</u>

Negative mutual fund performance fees were driven by underperformance of certain mutual funds against their respective benchmarks. Fees improved by \$11.3 million and \$20.5 million during the three and six months ended June 30, 2015, respectively, compared to the comparable periods in 2014, primarily due to improved investment performance and the roll-off of historical underperformance of certain mutual funds against their respective benchmarks.

Separate account performance fees relate largely to assets managed by INTECH. Separate account performance fees are recognized on a quarterly or annual basis. The fourth quarter has the largest concentration of annual fees followed by the first quarter, and recognition of the annual fees can cause meaningful fluctuations on a quarterly basis.

A summary of mutual fund and separate account assets subject to performance fees as of June 30, 2015 and 2014, is as follows (in billions):

	June 30,	
	2015	2014
Mutual fund assets	\$ 46.8	\$ 51.7
Separate account assets	\$ 17.4	\$ 15.9

Shareowner servicing fees and other increased \$4.6 million and \$9.1 million for the three and six months ended June 30, 2015, respectively, compared to prior periods. The increases were primarily due to VelocityShares revenue of \$3.5 million and \$7.2 million recognized in 2015 for the respective periods.

Operating Expenses

Total operating expenses	<u>\$ 189.8</u>	<u>\$ 160.5</u>	18.3%	<u>\$ 376.5</u>	<u>\$ 323.8</u>	16.3%

Employee Compensation and Benefits

During the three and six months ended June 30, 2015, employee compensation and benefits increased \$13.4 million and \$24.3 million, respectively, compared to prior periods in 2014. The increases were principally due to higher incentive compensation as a result of higher operating income. The company-wide incentive compensation plan is designed to link variable compensation to operating income.

Long-Term Incentive Compensation

Long-term incentive compensation increased \$7.2 million and \$15.4 million during the three and six months ended June 30, 2015, compared to the prior periods in 2014, respectively. The increases were primarily due to an increase in senior profits interests ("SPI") awards expense and an increase from new awards granted during 2015, partially offset by a decrease from the vesting of awards granted in previous years.

SPI awards expense for 2015 comprised \$3.2 million and \$7.3 million for the three and six months ended June 30, 2015, respectively, for INTECH awards that were granted in the fourth quarter 2014. SPI awards expense comprised a benefit of \$3.9 million and \$6.4 million for the comparable periods in 2014 associated with the decline in value of Perkins SPI awards.

JCG generally grants annual long-term incentive awards during the first quarter of each year. JCG granted \$1.9 million and \$77.3 million in long-term incentive awards during the three and six months ended June 30, 2015, respectively. New awards contributed \$5.1 million and \$10.0 million to higher long-term incentive compensation expense for the three and six months ended June 30, 2015, compared to the prior periods in 2014. Vesting of awards granted in prior years contributed \$3.2 million and \$6.1 million in higher expense for the 2014 periods.

Long-term incentive compensation expense for the year ended December 31, 2015, is currently expected to be approximately \$75 million to \$80 million.

Non-Operating Income and Expenses

Noncontrolling interests	(0.2)	(0.6)	(66.7)%	(1.8)	(1.2)	50.0%

Interest Expense

During the three and six months ended June 30, 2015, interest expense decreased \$1.7 million and \$3.8 million, respectively, compared to prior periods in 2014. The decreases were primarily due to the repayment of \$98.9 million of debt during 2014, including the 6.119% Senior Notes due 2014 that matured on April 15, 2014, and the 3.250% Convertible Senior Notes due 2014 that matured on July 15, 2014.

Investment Gains (Losses), Net

The components of investment gains (losses), net for the three and six months ended June 30, 2015 and 2014, are as follows (in millions):

	Three months ended June 30,		Six months ended June 30,	
	2015	2014	2015	2014
Seeded investment products	\$ (4.8)	\$ 7.7	\$ 1.1	\$ 7.9

Income Tax Provision

The Company's effective tax rates for the three and six months ended June 30, 2015 and 2014, are as follows:

	Three months ended June 30,		Six months ended June 30,	
	2015	2014	2015	2014
Effective tax rate	35.5%	41.6%	36.1%	43.4%

The decrease in effective tax rates compared to prior periods was due largely to the expiration and vesting of certain equity-based compensation awards. The tax impact of equity-based compensation for the three and six months ended June 30, 2015, is part of the Condensed Consolidated Statement of Changes in Equity, while the impact for the same periods in 2014 affected the income tax provision on the Company's Condensed Consolidated Statements of Comprehensive Income.

A state tax refund receivable resulted in a benefit to the effective tax rate of 5.1% and 2.5% for the three and six months ended June 30, 2015, compared to the same periods in 2014. State statutory changes in the second quarter 2015 resulted in an increase to the effective tax rate of 2.8% and 1.4% for the three and six months ended June 30, 2015, compared with the same periods in 2014.

LIQUIDITY AND CAPITAL RESOURCES**Short-Term Liquidity and Capital Resources**

The following table summarizes key balance sheet data relating to JCG's liquidity and capital resources as of June 30, 2015, and December 31, 2014 (in millions):

	June 30, 2015	December 31, 2014
Cash and cash equivalents:		
Cash and cash equivalents held domestically	\$ 235.8	\$ 392.3
Cash and cash equivalents held outside the United States (1)	63.4	60.2
Total cash and cash equivalents	<u>\$ 299.2</u>	<u>\$ 452.5</u>
Accounts receivable	\$ 135.8	\$ 130.9
Investment securities:		
Seeded investment products	\$ 316.8	\$ 285.5
Noncontrolling interests (2)	21.4	41.1
Investments in advised mutual funds and the economic hedging of deferred compensation plans	16.9	17.4

Total investment securities	\$ 355.1	\$ 344.0
Long-term debt (including current portion)	\$ 452.0	\$ 450.5

- (1) As of June 30, 2015, and December 31, 2014, cash held outside of the United States may not be entirely available for general corporate purposes due to approximately \$30 million and \$24 million of capital requirements associated with foreign subsidiaries of JCG, respectively.
- (2) The noncontrolling interests balance is associated with seeded investment products.

Cash and cash equivalents consist primarily of cash on hand and short-term investments with an initial maturity of three months or less when purchased, including investments in money market funds. Cash and cash equivalents at June 30, 2015 decreased \$153.3 million from December 31, 2014 primarily due to the escrow of cash in the second quarter 2015 for the acquisition of a majority interest in Kapstream and payment of seasonal incentive compensation in the first quarter 2015. The escrow of cash is included in other non-current assets on JCG's Condensed Consolidated Balance Sheets. JCG believes that existing cash and cash from operations should be sufficient to satisfy its short-term capital requirements. Expected short-term uses of cash include ordinary operating expenditures, seed capital investments, dividend payments, income tax payments, common share repurchases and interest payments on outstanding debt. JCG may use available cash for general corporate purposes and acquisitions. In addition, JCG may repurchase its outstanding debt securities in open market transactions, privately negotiated transactions, exchanges, tender offers or otherwise. Any repurchase of outstanding debt securities and common stock will depend on prevailing market conditions, JCG's liquidity requirements, contractual and legal restrictions, and other factors.

Common Stock Repurchases

Common stock repurchases during the three and six months ended June 30, 2015 and 2014, were as follows:

	Three months ended June 30,		Six months ended June 30,	
	2015	2014	2015	2014
Total cost (in millions)	\$ 11.2	\$ 25.4	\$ 34.7	\$ 36.7

Average price per share	\$ 17.85	\$ 11.81	\$ 17.22	\$ 11.54

Dividends

Dividends paid during the six months ended June 30, 2015, are summarized as follows:

Dividend per share	Date declared	Date paid
\$ 0.08	January 15	February 27
\$ 0.09	April 16	May 22

On April 16, 2015, JCG's Board of Directors approved an increase of \$0.01 per share, or 13%, in the Company's regular quarterly dividend. The approved quarterly rate of \$0.09 per share represents an expected annualized dividend rate of \$0.36 per share of common stock.

On July 16, 2015, JCG's Board of Directors declared a regular quarterly cash dividend of \$0.09 per share. The quarterly dividend will be paid on August 21, 2015, to shareholders of record at the close of business on August 7, 2015.

The payment of cash dividends is within the discretion of JCG's Board of Directors and depends on many factors, including, but not limited to, JCG's results of operations, financial condition, capital requirements, restrictions imposed by financing agreements, general business conditions and legal requirements.

Long-Term Liquidity and Capital Resources

Expected long-term commitments at June 30, 2015, include principal and interest payments related to the 2017 Senior Notes and the 2018 Convertible Notes, capital and operating lease payments, redeemable noncontrolling interests, Perkins and INTECH SPI awards, INTECH appreciation rights and phantom interests, and contingent consideration related to the acquisition of VelocityShares and Kapstream. JCG expects to fund its long-term commitments using existing cash and cash generated from operations, refinancing debt or accessing capital and credit markets as necessary.

Other Sources of Liquidity

At June 30, 2015, JCG had a \$200 million, unsecured, revolving Credit Facility with JPMorgan Chase Bank, N.A., as administrative agent and swingline lender. The Credit Facility can be used by JCG and its subsidiaries for working capital needs and general corporate purposes. The Credit Facility bears interest on borrowings outstanding at LIBOR plus a spread, which is based on JCG's credit rating. JCG is required to pay a quarterly commitment fee on any unused portion of the Credit Facility, which is also based on JCG's credit rating. The Credit Facility has a maturity date of November 23, 2018.

The Credit Facility contains financial covenants with respect to leverage and interest coverage. The financing leverage ratio cannot exceed 3.00x, and the interest coverage ratio must equal or exceed 4.00x. At June 30, 2015, JCG's financing leverage ratio was 1.16x and the interest coverage ratio was 14.92x. JCG was in compliance with all covenants, and there were no borrowings under the Credit Facility at June 30, 2015, or during the six months ended June 30, 2015.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company has had no material changes in its exposure to market risks from that previously reported in the Company's Annual Report on Form 10-K for the year ended December 31, 2014.

Item 4. Controls and Procedures

As of June 30, 2015, JCG's management evaluated the effectiveness of the design and operation of its disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act). Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Company's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Disclosure controls and procedures are designed by the Company to ensure that it records, processes, summarizes and reports in a timely manner the information it must disclose in reports that it files with or submits to the U.S. SEC. Richard M. Weil, Chief Executive Officer, and Jennifer J. McPeck, Executive Vice President and Chief Financial Officer, reviewed and participated in management's evaluation of the disclosure controls and procedures. Based on this evaluation, Mr. Weil and Ms. McPeck concluded that as of the date of their evaluation, JCG's disclosure controls and procedures were effective.

There has been no change in JCG's internal controls over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the second quarter 2015 that has materially affected, or is reasonably likely to materially affect, JCG's internal controls over financial reporting.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings

See Part I, Item 1. Financial Statements, Note 12 — Litigation and Other Regulatory Matters.

Item 1A. Risk Factors

The Company has had no material changes in its risk factors from those previously reported in the Company's Annual Report on Form 10-K for the year ended December 31, 2014.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Common Stock Repurchases

JCG's Board of Directors authorized a \$500 million share repurchase program in July 2008. JCG did not repurchase any of its common stock from the end of 2008 through the end of 2011. As part of its capital and liquidity management, JCG resumed share repurchases in the first quarter 2012.

During the six months ended June 30, 2015, JCG repurchased 914,104 shares of its common stock at an average price of \$17.52 per share and a total cost of \$16.0 million as part of the share repurchase program. The share repurchase program is within the parameters of Rule 10b5-1 of the Exchange Act. Any future repurchases of common stock will depend on prevailing market conditions, the Company's liquidity requirements, contractual and legal restrictions, and other factors.

JCG also repurchased 295,850 shares of common stock from The Dai-ichi Life Insurance Company ("Dai-ichi Life") on January 27, 2015, for a total cost of \$4.6 million in order for Dai-ichi Life to comply with the ownership limit obligations under the investment agreement between JCG and Dai-ichi Life.

In addition to the share repurchase program, JCG repurchased 1,525 shares in January 2015, 791,172 shares in February 2015 and 13,088 shares in April 2015 from employees as part of a share withholding program to satisfy the employees' minimum statutory income tax liabilities attributable to the vesting of restricted stock.

The following table presents monthly 2015 JCG common stock repurchases:

Period	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of publicly announced plans	Approximate dollar value of shares that may yet be purchased under the plans (end of month)
