CROMBIE REAL ESTATE INVESTMENT TRUST
Consolidated Financial Statements
December 31, 2018

Management's Statement of Responsibility for Financial Reporting

The management of Crombie Real Estate Investment Trust ("Crombie") is responsible for the preparation and fair presentation of the accompanying annual consolidated financial statements and Management's Discussion and Analysis ("MD&A"). The annual consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board. The annual consolidated financial statements and information in the MD&A include amounts based on best estimates and judgments by management of the expected effects of current events and transactions. In preparing this financial information, we make determinations about the relevancy of information to be included, and estimates and assumptions that affect the reported information. The MD&A also includes information regarding the impact of current transactions and events, sources of liquidity and capital resources, operating trends, risks and uncertainties. Actual results in the future may vary materially from our present assessment of this information as future events and circumstances may not occur as expected.

In meeting our responsibility for the fair presentation of the annual consolidated financial statements and MD&A and for the accounting systems from which they are derived, management has established internal controls designed to ensure that our financial records are reliable for preparing consolidated financial statements and other financial information, transactions are properly authorized and recorded, and assets are safeguarded against unauthorized use or disposition.

As at December 31, 2018, our Chief Executive Officer and Chief Financial Officer evaluated, or caused an evaluation under their direct supervision, the design and operation of our internal controls over financial reporting and, based on that assessment, determined that our internal controls over financial reporting were appropriately designed and operating effectively.

The Board of Trustees oversees management's responsibility for financial reporting through an Audit Committee. This committee reviews Crombie's annual consolidated financial statements and MD&A with both management and the independent auditor before such statements are approved by the Board of Trustees. The Audit Committee also recommends the appointment of independent external auditors to the Unitholders. The Audit Committee meets regularly with senior management and the independent auditor to discuss internal controls, audit activities and financial reporting results. The independent auditor has full and free access to, and meets regularly with, the Audit Committee to discuss their audits and related matters.

Independent auditor's report

To the Unitholders of Crombie Real Estate Investment Trust

Our opinion

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of Crombie Real Estate Investment Trust and its subsidiaries (together, the Trust) as at December 31, 2018 and 2017, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards (IFRS).

What we have audited
The Trust's consolidated financial statements comprise:

- the consolidated balance sheets as at December 31, 2018 and 2017;
- the consolidated statements of comprehensive income (loss) for the years then ended;
- the consolidated statements of changes in net assets attributable to unitholders for the years then ended;
- the consolidated statements of cash flows for the years then ended; and
- the notes to the consolidated financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence
We are independent of the Trust in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada. We have fulfilled our other ethical responsibilities in accordance with these requirements.

Other information

Management is responsible for the other information. The other information comprises Management's Discussion and Analysis, which we obtained prior to the date of this auditor's report and the information, other than the consolidated financial statements and our auditor's report thereon, included in the annual report, which is expected to be made available to us after that date.

PricewaterhouseCoopers LLP
Cogswell Tower, 2000 Barrington Street, Suite 1101, Halifax, Nova Scotia, Canada B3J 3K1
T: +1 902 491 7400, F: +1 902 422 1166

"PwC" refers to PricewaterhouseCoopers LLP, an Ontario limited liability partnership.

Our opinion on the consolidated financial statements does not cover the other information and we do not and will not express an opinion or any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard. When we read the information, other than the consolidated financial statements and our auditor's report thereon, included in the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Trust's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Trust or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Trust's financial reporting process.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Trust's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Trust to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Trust to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The engagement partner on the audit resulting in this independent auditor's report is Donald M. Flinn.

1) GENERAL INFORMATION AND NATURE OF OPERATIONS

Crombie Real Estate Investment Trust (“Crombie”) is an unincorporated “open-ended” real estate investment trust created pursuant to the Declaration of Trust dated January 1, 2006, as amended. The principal business of Crombie is investing in income-producing retail, office and mixed use properties in Canada. Crombie is registered in Canada and the address of its registered office is 610 East River Road, Suite 200, New Glasgow, Nova Scotia, Canada, B2H 3S2. The consolidated financial statements for the years ended December 31, 2018 and December 31, 2017 include the accounts of Crombie and all of its subsidiary entities. The units of Crombie are traded on the Toronto Stock Exchange (“TSX”) under the symbol “CRR.UN”.

The consolidated financial statements were authorized for issue by the Board of Trustees on February 27, 2019.

2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Statement of compliance

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

(b) Basis of presentation

These consolidated financial statements are presented in Canadian dollars ("CAD"); Crombie's functional and reporting currency, rounded to the nearest thousand. The consolidated financial statements are prepared on a historical cost basis except for any financial assets and liabilities classified as fair value with changes in fair value either recognized as an Increase (decrease) in net assets attributable to Unitholders ("FVTPL" classification) or fair value through other comprehensive income ("FVOCI" classification).

(c) Presentation of financial statements

When Crombie: (i) applies an accounting policy retrospectively; (ii) makes a retrospective restatement of items in its financial statements; or (iii) reclassifies items on the balance sheet, it will present an additional balance sheet as at the beginning of the earliest comparative period.

(d) Basis of consolidation

(i) Subsidiaries

Crombie's financial statements consolidate those of Crombie and all of its subsidiary entities as at December 31, 2018. Subsidiaries are all entities over which Crombie has control. All subsidiaries have a reporting date of December 31, 2018.

All intercompany transactions, balances, income and expenses are eliminated in preparing the consolidated financial statements. Where unrealized losses on intercompany asset sales are reversed on consolidation, the underlying asset is also tested for impairment from an entity perspective.

Operating income (loss) and other comprehensive income (loss) of subsidiaries acquired or disposed of during the period are recognized from the effective date of acquisition, or up to the effective date of disposal, as applicable.

(ii) Joint arrangements

Joint arrangements are business arrangements whereby two or more parties have joint control. Joint control is based on the contractual sharing of control over the decisions related to the relevant activities. Joint arrangements are classified as either joint operations or joint ventures depending on the contractual arrangements related to the rights and obligations of the parties to the arrangement.

Joint operations

A joint operation is an arrangement wherein the parties to the arrangement have rights to the assets and obligations for the liabilities related to the arrangement. For joint operations, Crombie recognizes its proportionate share of the assets, liabilities, revenues and expenses of the joint operation in the relevant categories of Crombie's financial statements.

Joint ventures

A joint venture is an entity over which Crombie shares joint control with other parties and where the joint venture parties have rights to the net assets of the joint venture. Joint control exists where there is a contractual agreement for shared control and wherein decisions about the significant relevant activities of the arrangement require unanimous consent of the parties sharing control.

Investment in joint ventures is accounted for using the equity method. Under the equity method, the investment is initially recorded at cost with subsequent adjustments for Crombie's share of the results of operations and any change in net assets. Crombie's joint venture entities have the same reporting period as Crombie and adjustments, if any, are made to bring the accounting policies of joint venture entities in line with the policies of Crombie.

(e) Investment properties

Investment properties are properties which are held to earn rental income. Investment properties include land, buildings and intangible assets. Investment properties are carried at cost less accumulated depreciation and are reviewed for impairment as described in Note 2(v).

Depreciation of buildings is calculated using the straight-line method with reference to each property's cost, the estimated useful life of the building (not exceeding 40 years) and its components, significant parts and residual value.

Amortization of intangible assets is calculated using the straight-line method over the term of the tenant lease.

Repairs and maintenance items are expensed as incurred or, in the case of major items that constitute a capital asset, are capitalized to the building and amortized on a straight-line basis over the estimated useful life of the improvement.

Upon acquisition, Crombie performs an assessment of investment properties being acquired to determine whether the acquisition is to be accounted for as an asset acquisition or a business combination. A transaction is considered to be a business combination if the acquired property meets the definition of a business under IFRS 3 - Business Combinations; being an integrated set of activities and assets that are capable of being managed for the purpose of providing a return to the Unitholders.

For asset acquisitions, the total cost is allocated to the identifiable assets and liabilities on the basis of their relative fair values on the acquisition date. Asset acquisitions do not give rise to goodwill. Fair value of such assets and liabilities is determined based on the following:

Land - the amount allocated to land is based on an appraisal estimate of its fair value.

Buildings - are recorded at the estimated fair value of the building and its components and significant parts.

Intangible assets - are recorded for tenant relationships, based on estimated costs avoided should the respective tenants renew their leases at the end of the initial lease term, adjusted for the estimated probability of renewal.

Fair value of debt - values ascribed are determined based on the differential between contractual and market interest rates on long-term liabilities assumed at acquisition.

For business combinations, the acquisition method is used wherein the components of the business combination (assets acquired, liabilities assumed, consideration transferred and any goodwill or bargain purchase) are recognized and measured. The assets acquired and liabilities assumed from the acquiree are measured at their fair value on the acquisition date.

Change in useful life of investment properties

The estimated useful lives of significant investment properties are reviewed whenever events or circumstances indicate a change in useful life. Estimated useful lives of significant investment properties are based on management's best estimate and the actual useful lives may be different. Revisions to the estimated useful lives of investment properties constitute a change in accounting estimate and are accounted for prospectively by amortizing the cumulative changes over the remaining estimated useful life of the related assets.

(f) Cash and cash equivalents

Cash and cash equivalents are defined as cash on hand, cash in bank and guaranteed investments with a maturity less than 90 days at date of acquisition.

(g) Assets held for sale and discontinued operations

A non-current asset is classified as held for sale if its carrying amount will be recovered principally through a sale transaction rather than continuing use. A property is classified as held for sale at the point in time when it is available for immediate sale, management has committed to a plan to sell the property and is actively locating a purchaser for the property at a sales price that is reasonable in relation to the current estimated fair value of the property, and the sale is expected to be completed within a one year period. Properties held for sale are carried at the lower of their carrying values and estimated fair value less costs to sell. In addition, assets classified as held for sale are not depreciated and amortized. A property that is subsequently reclassified as held and in use is measured at the lower of its carrying value amount before it was classified as held for sale, adjusted for any depreciation and amortization expense that would have been recognized had it been continuously classified as held and in use, and its estimated fair value at the date of the subsequent decision not to sell.

Assets that are classified as held for sale and that constitute a component of Crombie are presented as discontinued operations and their operating results are presented separately in the Consolidated Statements of Comprehensive Income (Loss). A component of Crombie includes a property type or geographic area of operations.

(h) Employee future benefits obligation

The cost of Crombie's pension benefits for defined contribution plans is expensed for employees in respect of the period in which they render services. The cost of defined benefit pension plans and other benefit plans is accrued based on estimates, using actuarial techniques, of the amount of benefits employees have earned in return for their services in the current and prior periods. The present value of the defined benefit obligation and current service cost is determined by discounting the estimated benefits using the projected unit credit method to determine the fair value of the plan assets and total actuarial gains and losses and the proportion thereof which will be recognized. Other factors considered for other benefit plans include assumptions regarding salary escalation, retirement ages and expected growth rate of health care costs. The fair value of any plan assets is based on current market values. The present value of the defined benefit obligation is based on the discount rate determined by reference to the yield of high quality corporate bonds of similar currency, having terms of maturity which align closely with the period of maturity of the obligation. The defined benefit plan and post-employment benefit plan are unfunded.

The impact of changes in plan provisions will be recognized in benefit costs on a straight-line basis over a period not exceeding the average period until the benefit becomes vested. To the extent that the benefits are already vested immediately following the introduction of, or changes to, the plan, the past service cost will be recognized immediately.

In measuring its defined benefit liability, Crombie recognizes actuarial gains and losses directly to other comprehensive income (loss).

(i) Unit based compensation plans

(i) Deferred Unit Plan (“DU Plan”)

Crombie provides a voluntary DU Plan whereby eligible trustees, officers and employees (the "Participants") may elect to receive all or a portion of their eligible compensation in deferred units ("DUs"). The Board (or its designated Committee) may determine that special compensation will be provided in the form of DUs. Unless otherwise determined by the Board (or its designated Committee), DUs are fully vested at the time they are allocated, with the value of the award recorded as a liability and expensed as general and administrative expenses. A Participant may redeem their vested DUs in whole or in part by filing a written notice of redemption; redemption will also occur as the result of specific events such as the retirement of a Participant. Upon redemption, a Participant will receive the net value of the vested DUs being redeemed, with the net value determined by multiplying the number of DUs redeemed by the REIT Unit's market price on redemption date, less applicable withholding taxes. The Participant may elect to receive this net amount as a cash payment or instead receive Crombie REIT Units for redeemed DU’s after deducting applicable withholding taxes. For fair value measurement purposes, each DU is measured based on the market value of a REIT Unit at the balance sheet date with changes in fair value recognized in the Consolidated Statements of Comprehensive Income (Loss).

(ii) Restricted Unit Plan (“RU Plan”)

Crombie has a RU Plan for certain eligible executives and employees ("RU Participants"), whereby the RU Participants will receive all or a portion of their annual long-term incentive plan awards in restricted units ("RUs"). The RUs are accounted for under IAS 19 Employee benefits and the liability and expense are recognized over the service period which ends on the vesting date. On the vesting date, each eligible RU Participant shall be entitled to receive a cash amount (net of any applicable withholding taxes) equal to the number of vested

RUs held by the RU Participant multiplied by the market value (as defined in the RU Plan) on the vesting date. No REIT Units or other securities of Crombie will be issued from treasury. Alternatively, an RU Participant may elect to convert their RUs to DUs under Crombie's DU Plan.

(iii) Performance Unit Plan ("PU Plan")

Crombie has a PU Plan for certain eligible executives and employees ("PU Participants"), whereby the PU Participants may elect each year to participate in the PU Plan and receive all or a portion of their of their eligible remuneration in the form of an allocation of performance units ("PUs"). The PUs are accounted for under IAS 19 Employee benefits and the liability and expense are recognized over the service period which ends on the vesting date. On the vesting date, each eligible PU Participant shall be entitled to receive a cash amount (net of any applicable withholding taxes) equal to the number of vested PUs held by the PU Participant multiplied by the market value (as defined in the PU Plan) on the vesting date. No REIT Units or other securities of Crombie will be issued from treasury. Alternatively, a PU Participant may elect to convert their PUs to DUs under Crombie's DU Plan.

(j) Distribution reinvestment plan ("DRIP")

Crombie has a DRIP which is described in Note 16.

(k) Revenue recognition

(i) Lease revenue

Revenue earned from tenants under lease agreements includes base rent, realty tax recoveries, percentage rent, and other incidental income. Certain leases have rental payments that change over their term due to changes in rates. Crombie records the rental revenue from leases on a straight-line basis over the term of the lease. Accordingly, an accrued rent receivable is recorded for the difference between the straight-line rent recorded as property revenue and the rent that is contractually due from the tenants. In addition, tenant incentives are amortized on a straight-line basis over the term of existing leases and the amortization is shown as a reduction in property revenue. Percentage rents are recognized when tenants are obligated to pay such rent under the terms of the related lease agreements. Realty tax recoveries, and other incidental income, are recognized on an accrual basis as they become due.

(ii) Revenue from contracts with customers

In May 2014, the IASB issued IFRS 15 "Revenue from Contracts with Customers", which replaces IAS 11 Construction Contracts, IAS 18 Revenue and IFRIC 13 Customer Loyalty Programmes. This standard outlines a single comprehensive model for entities to account for revenue arising from contracts with customers. The new standard excludes contracts within the scope of the accounting standards on leases, insurance contracts and financial instruments. Crombie adopted the standard on January 1, 2018 and applied the requirements of the standard retrospectively. In accordance with the transition guidance, IFRS 15 has only been applied to contracts that are incomplete as at January 1, 2017. The implementation of IFRS 15 did not have a significant impact on the timing or amount of revenue recognized by Crombie in any year. The presentation of Crombie's property revenue disclosed in Note 11 has been modified to disclose amounts from revenue from contracts with customers separately from operating lease revenue.

Certain lease agreements with tenants establish obligations for Crombie to incur property operating expenses and to invoice and recover these expenses. These recoveries are recognized as revenue over the period in which the service is provided and subject to collectability of the recoverable amount.

(l) Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Operating leases

(i) Crombie as lessor

Crombie has determined that all of its leases with its tenants are operating leases. Revenue is recorded in accordance with Crombie's revenue recognition policy (Note 2(k)).

(ii) Crombie as lessee

Operating leases consist mainly of land leases which are expensed to property operating costs as incurred. Crombie also has equipment and vehicle leases that are expensed to general and administrative expenses as incurred.

(m) Deferred financing charges

Deferred financing charges consist of costs directly attributable to the issuance of debt. These charges are amortized in finance costs - operations using the effective interest method, over the term of the related debt.

(n) Finance costs - operations

Finance costs - operations primarily comprise interest on Crombie's borrowings. Finance costs directly attributable to the acquisition, redevelopment, construction or production of a qualifying asset are capitalized as a component of the cost of the asset to which it is related. All other finance costs - operations are expensed in the period in which they are incurred.

(o) Finance costs - distributions to Unitholders

The determination to declare and make payable distributions from Crombie is at the discretion of the Board of Trustees and, until declared payable by the trustees, Crombie has no contractual obligation to pay cash distributions to Unitholders.

(p) Income taxes

Crombie is taxed as a "mutual fund trust" for income tax purposes. It is the intention of Crombie, subject to approval of the trustees, to make distributions not less than the amount necessary to ensure that Crombie will not be liable to pay income tax, except for the amounts incurred in its incorporated subsidiaries.

Deferred tax assets and/or liabilities of Crombie relate to tax and accounting basis differences of all incorporated subsidiaries of Crombie. Income taxes are accounted for using the liability method. Under this method, deferred taxes are recognized for the expected deferred tax consequences of differences between the carrying amount of balance sheet items and their corresponding tax values. Deferred taxes are computed using substantively enacted corporate income tax rates for the years in which tax and accounting basis differences are expected to reverse.

Deferred tax assets and/or liabilities are offset only when Crombie has a right and intention to set off tax assets and liabilities from the same taxation authority. Changes in deferred tax assets or liabilities are recognized as a component of income or expense in operations, except where they relate to items that are recognized in other comprehensive income (loss) (such as the unrealized gains and losses on cash flow hedges) or directly in change in net assets, in which case the related deferred tax is also recognized in other comprehensive income (loss) or change in net assets, respectively.

(q) Hedges

Crombie may use cash flow hedges to manage exposures to increases in variable interest rates. Cash flow hedges are recognized on the balance sheet at fair value with the effective portion of the hedging relationship recognized in other comprehensive income (loss). Any ineffective portion of the cash flow hedge is recognized in operating income. Amounts recognized in accumulated other comprehensive income (loss) are reclassified to operating income in the same periods in which the hedged item is recognized in operating income. Fair value hedges and the related hedged items are recognized on the balance sheet at fair value with any changes in fair value recognized in operating income. To the extent the fair value hedge is effective, the changes in the fair value of the hedge and the hedged item will offset each other.

Crombie assesses on an ongoing basis whether any existing derivative financial instrument continues to be effective in offsetting changes in interest rates on the hedged items.

(r) Comprehensive income (loss)

Comprehensive income (loss) is the change in net assets attributable to Unitholders during a period from transactions and other events and circumstances from non-Unitholder sources. Crombie reports a consolidated statement of comprehensive income (loss), comprising changes in net assets attributable to Unitholders and other comprehensive income (loss) for the year. Accumulated other comprehensive income (loss), has been included in the Consolidated Statements of Changes in Net Assets Attributable to Unitholders.

(s) Provisions

Provisions are recognized when: Crombie has a present obligation (legal or constructive) as a result of a past event; it is probable that Crombie will be required to settle the obligation; and, a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the balance sheet date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows, where the time value of money is material. When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably. Provisions reflect Crombie's best estimate at the reporting date.

Environmental liabilities are recognized when Crombie has an obligation relating to site closure or rehabilitation. The extent of the work required and the associated costs are dependent on the requirements of the relevant authorities and Crombie's environmental policies. Provisions for the cost of each closure and rehabilitation program are recognized at the time of occurrence and when Crombie has a reliable estimate of the obligation. Changes in the provision are recognized in the period of the change.

Crombie's provisions are immaterial and are included in trade and other payables.

(t) Financial instruments

IFRS 9 Financial Instruments: Classification and Measurement ("IFRS 9") issued on July 24, 2014, is the International Accounting Standard Board's (IASB's) replacement of IAS 39 Financial Instruments: Recognition and Measurement ("IAS 39"). The Standard includes requirements for classification and measurement of financial instruments, impairment, derecognition and general hedge accounting, and introduces a forward-looking expected loss impairment model. Crombie adopted the standard on January 1, 2018. The adoption of this standard has not had a material impact on Crombie's financial statements.

Financial assets are classified and measured based on the business model used for management of them and the contractual cash flow characteristics of each financial asset. The classification categories for financial assets under IAS 39 are replaced in IFRS 9 with categories that reflect measurement; amortized cost, FVOCI and FVTPL. The IFRS 9 requirements for the classification and measurement of financial liabilities are substantially unchanged from IAS 39. IFRS 9 requires that when a financial liability measured at amortized cost is modified or exchanged, and such a modification or exchange does not result in derecognition, the adjustment to the amortized cost will be recognized in operating income at that time.

The following table summarizes the classification and measurement changes for each class of Crombie's financial assets and financial liabilities upon adoption at January 1, 2018:

	IAS 39		IFRS 9	
Financial Asset/Liability	Category	Measurement	Category	Measurement
Cash and cash equivalents	Loans and receivables	Amortized cost	Assets at amortized cost	Amortized cost
Trade receivables	Loans and receivables	Amortized cost	Assets at amortized cost	Amortized cost
Restricted cash	Loans and receivables	Amortized cost	Assets at amortized cost	Amortized cost
Long-term receivables	Loans and receivables	Amortized cost	Assets at amortized cost	Amortized cost
Marketable securities	FVTPL	Fair value	FVTPL	Fair value
Derivative financial assets and liabilities	FVTPL	Fair value	FVTPL	Fair value
Accounts payable and other liabilities (excluding convertible debentures embedded derivatives and interest rate swaps)	Other liabilities	Amortized cost	Financial liabilities at amortized cost	Amortized cost
Investment property debt	Other liabilities	Amortized cost	Financial liabilities at amortized cost	Amortized cost
Convertible debentures (excluding embedded derivatives)	Other liabilities	Amortized cost	Financial liabilities at amortized cost	Amortized cost
Senior unsecured notes	Other liabilities	Amortized cost	Financial liabilities at amortized cost	Amortized cost

Crombie has adopted the new general hedge accounting model in IFRS 9. The adoption of IFRS 9 did not result in any changes in the eligibility of existing hedge relationships, the accounting for derivative financial instruments designated as effective hedging instruments or the line items in which they are included in the statement of financial position. In accordance with the transitional provisions of IFRS 9, changes to hedge accounting policies have been applied prospectively.

At each reporting date, Crombie assesses whether there is objective evidence that a financial asset carried at amortized cost is impaired. If such evidence exists, Crombie recognizes an impairment loss, as the difference between the carrying value of the instrument and the present value of the estimated future cash flows, discounted using the instrument's original effective interest rate or a discount rate based on the risk associated with the financial asset being tested. The carrying amount of the asset is reduced by this amount through a charge to the statement of comprehensive income.

Changes in accounting policies resulting from the adoption of IFRS 9 have been applied retrospectively.

(u) Fair value measurement

The fair value of financial instruments is the estimated amount that Crombie would receive to sell a financial asset or pay to transfer a financial liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability or, in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by Crombie.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

Crombie uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs. The fair value of any interest rate swap is estimated by discounting net cash flows of the swaps using forward interest rates for swaps of the same remaining maturities.

A fair value measurement of a non-financial asset takes into account a market participant’s ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

When determining the highest and best use of non-financial assets Crombie takes into account the following:

- use of the asset that is physically possible - Crombie assesses the physical characteristics of the asset that market participants would take into account when pricing the asset;
- use that is legally permissible - Crombie assesses any legal restrictions on the use of the asset that market participants would take into account when pricing the asset; and
- use that is financially feasible - Crombie assesses whether a use of the asset that is physically possible and legally permissible generates adequate income or cash flows to produce an investment return that market participants would require from an investment in that asset put to that use.

(v) Impairment of long-lived tangible and definite life intangible assets

Long-lived tangible and definite life intangible assets are reviewed for impairment when events or changes in circumstances indicate that the carrying value of the assets may not be recoverable. When such an indication exists, the recoverable amount of the asset is estimated in order to determine the extent of impairment loss (if any). The recoverable amount is the higher of fair value less costs to sell and value in use. Where the asset does not generate cash flows that are independent from other assets, Crombie estimates the recoverable amount of the cash generating unit(s) to which the asset belongs. When the recoverable amount of an asset (or cash generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash generating unit) is reduced to the recoverable amount. An impairment loss is recognized as an expense immediately in operating income.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash generating unit) is increased to the revised estimate, but is limited to the carrying amount that would have been determined if no impairment loss had been recognized in prior periods. A reversal of impairment loss is recognized immediately in operating income.

(w) Net assets attributable to Unitholders

(i) Balance Sheet presentation

In accordance with International Accounting Standard ("IAS") 32 Financial Instruments: Presentation, puttable instruments are generally classified as financial liabilities. Crombie's REIT Units and Class B LP Units with attached Special Voting Units ("SVU") are both puttable instruments, meeting the definition of financial liabilities in IAS 32. There are exception tests within IAS 32 which could result in classification as equity; however, Crombie's units do not meet the exception requirements. Therefore, Crombie has no instrument qualifying for equity classification on its Balance Sheet pursuant to IFRS. The classification of all units as financial liabilities with presentation as net assets attributable to Unitholders does not alter the underlying economic interest of the Unitholders in the net assets and net operating results attributable to Unitholders.

(ii) Balance Sheet measurement

REIT Units and Class B LP Units with attached SVUs are carried on the Balance Sheet at net asset value. Although puttable instruments classified as financial liabilities are generally required to be remeasured to fair value at each reporting period, the alternative presentation as net assets attributable to Unitholders reflects that, in total, the interests of the Unitholders is limited to the net assets of Crombie.

(iii) Statement of Comprehensive Income (Loss) presentation

As a result of the classification of all units as financial liabilities, the Statement of Comprehensive Income (Loss) recognizes distributions to Unitholders as a finance cost. In addition, terminology such as net income has been replaced by Increase (decrease) in net assets attributable to Unitholders to reflect the absence of an equity component on the Balance Sheet.

(iv) Presentation of per unit measures

As a result of the classification of all units as financial liabilities, Crombie has no equity instrument; therefore, in accordance with IAS 33 Earnings per Share, there is no denominator for purposes of calculation of per unit measures.

(v) Allocation of Comprehensive income (loss)

The components of Comprehensive income (loss) are allocated between REIT Units and Class B LP Units as follows:

- Operating income - based on the weighted average number of units outstanding during the reporting period.
- Distributions to Unitholders - based on the actual distributions paid to each separate unit class.
- Accumulated other comprehensive income (loss) - increases are allocated based on the weighted average number of units outstanding during the reporting period, decreases in previously accumulated amounts are drawn down based on the average accumulation allocation rate.

(x) Critical judgments in applying accounting policies

The following are the critical judgments that have been made in applying Crombie's accounting policies and that have the most significant effect on the consolidated financial statements:

(i) Investment properties

Crombie's accounting policies relating to investment properties are described in Note 2(e). In applying these policies, judgment is applied in determining whether certain costs are additions to the carrying amount of an investment property and whether properties acquired are considered to be asset acquisitions or business combinations. Crombie has determined that all properties acquired to date are asset acquisitions.

(ii) Investment in joint ventures

Crombie makes judgments in determining the appropriate accounting for investments in other entities. Such judgments include: determining the significant relevant activities and assessing the level of influence Crombie has over such activities through agreements and contractual arrangements.

(iii) Leases

Crombie makes judgments in determining whether certain leases, in particular long-term ground leases where Crombie is the lessee and the property meets the definition of investment property, are operating or finance leases. Crombie determined that all long-term

ground leases where Crombie is the lessee are operating leases. All tenant leases where Crombie is a lessor have been determined to be operating leases.

(iv) Classifications of Units as liabilities

Crombie's accounting policies relating to the classification of Units as liabilities are described in Note 2(w). The critical judgments inherent in this policy relate to applying the criteria set out in IAS 32, "Financial Instruments: Presentation", relating to the puttable instrument exception.

(y) Critical accounting estimates and assumptions

The preparation of the consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from these estimates. The estimates and assumptions that are critical to the determination of the amounts reported in the consolidated financial statements relate to the following:

(i) Fair value measurement

A number of assets and liabilities included in Crombie's consolidated financial statements require measurement at, and/or disclosure of, fair value.

In estimating the fair value of an asset or a liability, Crombie uses market-observable data to the extent it is available. Where Level 1 inputs are not available, Crombie estimates the fair value based on discounted future cash flows using discount rates that reflect current market conditions for instruments with similar terms and risks. Such fair value estimates are not necessarily indicative of the amounts Crombie might pay or receive in actual market transactions. The significant methods and assumptions used in estimating fair value are set out in Notes 2(i), 3 and 19.

(ii) Investment in joint arrangements

Crombie makes judgments in determining the appropriate accounting for investments in other entities. Such judgments include: determining the significant relevant activities and assessing the level of control or influence Crombie has over such activities through agreements and contractual arrangements; and, determining whether Crombie's rights and obligations are directly related to the assets and liabilities of the arrangement or to the net assets of the joint arrangement.

(iii) Investment properties

Investment properties are carried at cost less accumulated depreciation. Crombie estimates the residual value and useful lives of investment properties and the significant components thereof to calculate depreciation and amortization.

(iv) Impairment of long-lived tangible and definite life intangible assets

Long-lived tangible and definite life intangible assets are reviewed for impairment when events or changes in circumstances indicate that the carrying value of the assets may not be recoverable. When such an indication exists, the recoverable amount of the asset is estimated in order to determine the extent of impairment loss (if any). The recoverable amount is the higher of fair value less costs to sell and value in use. Where the asset does not generate cash flows that are independent from other assets, Crombie estimates the recoverable amount of the cash generating unit(s) to which the asset belongs. When the recoverable amount of an asset (or cash generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash generating unit) is reduced to the recoverable amount. An impairment loss is recognized as an expense immediately in operating income.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash generating unit) is increased to the revised estimate, but is limited to the carrying amount that would have been determined if no impairment loss had been recognized in prior periods. A reversal of impairment loss is recognized immediately in operating income.

(v) Investment property valuation

External, independent valuation companies, having appropriate recognized professional qualifications and recent experience in the location and category of properties being valued, value Crombie's investment property portfolio on a rotating basis over a maximum period of four years. The fair values, based on the measurement date, represent the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Internal quarterly valuations are performed using internally generated valuation models prepared by considering the aggregate net property income received from

leasing the property. A yield obtained from an independent valuation company, which reflects the specific risks inherent in the net property income, is then applied to the net annual property income to arrive at the property valuation.

(vi) Defined benefit liability

Management estimates the defined benefit liability annually with the assistance of independent actuaries; however, the actual outcome may vary due to estimation uncertainties. The estimate of Crombie's defined benefit liability is based on standard rates of inflation, medical cost trends and mortality. It also takes into account Crombie's specific anticipation of future salary increases. Discount factors are determined each reporting period by reference to high quality corporate bonds that are denominated in the currency in which the benefits will be paid and that have terms to maturity approximating the terms of the related pension liability. Estimation uncertainties exist particularly with regard to medical cost trends, which may vary significantly in future appraisals of Crombie's defined benefit obligations.

(vii) Purchase price allocation

Investment properties are properties which are held to earn rental income. Investment properties include land, buildings and intangible assets. Upon acquisition, management allocates the purchase price of the acquisition as described in Note 2(e). This allocation contains a number of estimates and underlying assumptions including, but not limited to, highest and best use and fair value of the properties, estimated cash flows, discount rates, lease-up rates, inflation rates, renewal rates, tenant incentive allowances, cost recoveries and leasing costs and termination costs.

(z) Future changes in accounting standards

The IASB has issued a number of standards and interpretations with an effective date after the date of these financial statements. Set out below are only those standards that may have a material impact on the consolidated financial statements in future periods. Management is currently evaluating the impact of these future policies on its consolidated financial statements.

(i) IFRS 16 - Leases

In January 2016, the IASB issued IFRS 16 “Leases” which replaces IAS 17 and its associated interpretative guidance. The new standard brings most leases on-balance sheet for lessees under a single model, eliminating the distinction between operating and finance leases. A lessee is required to recognize a right-of-use asset representing its right to use the underlying leased asset and a lease liability representing its obligation to make lease payments. Assets and liabilities arising from a lease are initially measured on a present value basis. Lessor accounting remains largely unchanged with the distinction between operating and finance leases retained.

Entities have the option of adopting a full retrospective approach or a modified retrospective approach on transition to IFRS 16. The new standard will be effective January 1, 2019 and Crombie is transitioning using the modified retrospective approach. On transition, Crombie will elect the practical expedient to not reassess prior conclusions related to contracts containing leases. In addition, Crombie will apply the recognition exemptions for all classes of assets under short term leases and all leases of low value assets on an ongoing basis.

Crombie has several investment properties located on land that is leased from third parties. Lease payments under these leases are currently expensed under property operating expenses. Under the new lease standard, Crombie will recognize a right-of-use asset which will be amortized over the lease term and interest costs will be recognized on the lease liability.

Certain of Crombie's land leases have extended lease terms which will result in a material amount being recognized on the balance sheet as a right-of-use asset and related lease obligation. The new standard is not expected to have a material impact on the comprehensive income (loss) or cash flows.

3) INVESTMENT PROPERTIES

	December 31, 2018	December 31, 2017
Income properties	**$ 3,693,464**	$ 3,751,262
Properties under development	**66,179**	75,699
	$ 3,759,643	$ 3,826,961

Income properties

	Land	Buildings	Intangibles	Deferred Leasing Costs	Total
Cost					
Opening balance, January 1, 2018	$ 1,208,424	$ 2,942,538	$ 120,650	$ 8,821	$ 4,280,433
Acquisitions	33,192	84,167	6,420	—	123,779
Additions	1,361	78,917	—	1,545	81,823
Dispositions	(82,191)	(132,704)	(5,681)	(681)	(221,257)
Write-off fully depreciated assets	—	(24,637)	(208)	(2,876)	(27,721)
Reclassification from properties under development	15,959	19,935	—	201	36,095
Balance, December 31, 2018	1,176,745	2,968,216	121,181	7,010	4,273,152
Accumulated depreciation and amortization and impairment					
Opening balance, January 1, 2018	2,357	458,973	63,056	4,785	529,171
Depreciation and amortization	—	88,818	6,701	792	96,311

Impairment	—	15,000	—	—	15,000
Write-off fully depreciated assets	—	(24,637)	(208)	(2,876)	(27,721)
Balance, December 31, 2018	2,357	509,304	65,777	2,250	579,688
Net carrying value, December 31, 2018	$ 1,174,388	$ 2,458,912	$ 55,404	$ 4,760	$ 3,693,464

During the year ended December 31, 2018, Crombie recorded impairments totalling $15,000 on three properties. The impairments were the result of the fair value impact of tenant lease expiries and departures and slower than expected leasing activity. Impairment was measured on a per property basis and was determined as the amount by which carrying value, using the cost method, exceeded the recoverable amount for that property. The recoverable amount was determined to be each property's fair value which is the higher of the economic benefits of the continued use of the asset or the selling price less costs to sell.

During the year ended December 31, 2018, Crombie commenced redevelopment of three properties which included partial demolition of the existing structures. As a result, accelerated depreciation of $17,353 related to the buildings was recognized.

	Land	Buildings	Intangibles	Deferred Leasing Costs	Total
Cost					
Opening balance, January 1, 2017	$ 1,189,999	$ 2,820,193	$ 114,549	$ 7,800	$ 4,132,541
Acquisitions	20,981	93,298	6,832	—	121,111

Balance, December 31, 2018	**$ 49,967**	**$ 16,095**	**$ 117**	**$ 66,179**

On March 6, 2018, Crombie disposed of 1.47 hectares of residential lands adjacent to a commercial development project in Langford, British Columbia. The transaction was completed with a third party.

During the year, Crombie reclassified completed phases of two development properties to income properties.

	Land	Buildings	Deferred Leasing Costs	Total
Opening balance, January 1, 2017	$ 33,442	$ —	$ —	$ 33,442
Acquisitions	31,252	—	—	31,252
Additions	4,031	6,858	116	11,005
Balance, December 31, 2017	$ 68,725	$ 6,858	$ 116	$ 75,699

On May 4, 2017, Crombie acquired the remaining portion of a development property in Langford, British Columbia, from a subsidiary of Empire Company Limited ("Empire"), a related party.

Fair value

Crombie's total fair value of investment properties exceeds carrying value by $797,088 at December 31, 2018 (December 31, 2017 - $900,804). Crombie uses the cost method for accounting for investment properties, and increases in fair value over carrying value are not recognized until realized through disposition or derecognition of properties, while impairment is recognized at the time of impairment.

The estimated fair values of Crombie’s investment properties are as follows:

	Fair Value	**Carrying Value**
December 31, 2018	**$ 4,776,000**	**$ 3,978,912**
December 31, 2017	$ 4,944,000	$ 4,043,196

Carrying value consists of the net carrying value of:

	Note		December 31, 2018		December 31, 2017
Income properties	3	**$**	**3,693,464**	$	3,751,262
Properties under development	3		**66,179**		75,699
Accrued straight-line rent receivable	5		**81,689**		72,743
Tenant incentives	5		**137,580**		143,492
Total carrying value		**$**	**3,978,912**	$	4,043,196

The fair value of investment properties is a Level 3 fair value measurement. The fair value represents the estimated price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value included in this summary reflects the fair value of the properties as at December 31, 2018 and 2017, respectively, based on each property's current use as a revenue generating investment property. Crombie owns several properties where the highest and best use as a development property would result in higher fair values.

The valuation techniques and significant unobservable inputs used in determining the fair value of investment properties are set out below:

(i) The capitalized net operating income method - Under this method, capitalization rates are applied to net operating income (property revenue less property operating expenses). The key assumption is the capitalization rates for each specific property. Crombie receives quarterly capitalization rate reports from external, knowledgeable property valuators. The capitalization rate reports provide a range of rates for various geographic regions and for various types and qualities of properties within each region. Management selects the appropriate rate for each property from the range provided. Crombie generally employs this method to determine fair value.

(ii)The discounted cash flow method - Under this method, discount rates are applied to the forecasted cash flows reflecting the initial terms of the lease or leases for that specific property and assumptions as to renewal and new leasing activity. The key assumptions are the discount rate applied over the initial term of the lease, as well as lease renewals and new leasing activity. Crombie employs this method when the capitalized net operating income method indicates a risk of impairment or when a property is, or will be, undergoing redevelopment.

(iii) External appraisals - Crombie has external, independent appraisals performed on all properties on a rotational basis over a maximum period of four years.

As at December 31, 2018, all properties have been subjected to external, independent appraisal over the past four years.

Crombie has utilized the following weighted average capitalization rates on its income properties. Related to the growth in properties under development, Crombie reports the weighted average capitalization rate excluding the value of properties under development with the comparative rates adjusted to reflect this change. Crombie has determined that an increase (decrease) in this applied capitalization rate of 0.25% would result in an increase (decrease) in the fair value of the investment properties as follows:

		Impact of a 0.25% Change in Capitalization Rate			
	Weighted Average Capitalization Rate		Increase in Rate		Decrease in Rate
December 31, 2018	**6.10%**	**$**	**(186,000)**	**$**	**203,000**
December 31, 2017	5.93%	$	(198,000)	$	217,000

Income Property Acquisitions and Dispositions

The operating results of acquired properties are included from the respective date of acquisition and for disposed properties up to the date of disposition.

2018

Transaction Date	**Vendor/ Purchaser**	**Properties Acquired (Disposed)**	**Approximate Square Footage**	**Initial Acquisition (Disposition) Price**	**Assumed Mortgages**
February 5, 2018	Third party	(1)	(92,000)	$ (15,000)	$ —

			(304,000)	**$ (134,843)**	**$ 5,595**

[(1)] Includes additions to existing retail properties.
[(2)] Represents disposition of 50% interest in a portfolio of properties.
[(3)] Represents disposition of property to joint venture.

All the dispositions in 2018, excluding the August 16, 2018 transaction, were transacted with third parties. The property disposed on August 16, 2018 was sold to a joint venture Partnership in which Crombie is a 50% partner. The properties disposed of during the year had a total fair value of $246,218 at the end of the quarter preceding the date of disposition resulting in a fair value gain of $7,870 before closing and transaction costs. Acquisitions completed on April 6, 2018, June 29, 2018 and September 28, 2018 were transacted with Empire, a related party.

2017

Transaction Date	**Vendor/ Purchaser**	Properties Acquired (Disposed)	Approximate Square Footage	Initial Acquisition (Disposition) Price	Assumed Mortgages
March 16, 2017	Related party	1	50,000	$ 8,320	$ —
July 5, 2017	Third party	1	64,000	14,100	—
July 6, 2017	Third party	1	61,000	42,000	—

September 5, 2017	Third party	2	79,000	16,000	—
September 29, 2017 [(1)]	Related party	—	31,000	7,671	—
December 12, 2017	Third party	(1)	(67,000)	(15,600)	—
			314,000	$ 100,648	$ 18,397

[(1)] Relates to an acquisition of additional development on a pre-existing retail property.

The acquisitions on March 16, 2017 and September 29, 2017 were transacted with Empire, a related party.

The initial acquisition (disposition) prices stated above exclude closing and transaction costs.

The allocation of the total cost of the acquisitions (including closing and transaction costs) is as follows:

	Year ended December 31,	
Income property acquired, net:	**2018**	2017
Land	**$ 33,192**	$ 20,981
Buildings	**84,167**	93,298
Intangibles	**6,420**	6,832
Fair value debt adjustment on assumed mortgages	**160**	(436)
Net purchase price	**123,939**	120,675
Assumed mortgages	**(5,595)**	(18,397)
	$ 118,344	$ 102,278

	Year ended December 31,	
Investment property disposed:	**2018**	2017

Floating Rate Revolving Credit Facility

The floating rate revolving credit facility has a maximum principal amount of $400,000 (December 31, 2017 - $400,000) and matures June 30, 2022. The facility is used by Crombie for working capital purposes and to provide temporary financing for acquisitions and development activity. It is secured by a pool of first and second mortgages on certain properties and the maximum principal amount is subject to available borrowing base (December 31, 2018 – borrowing base of $400,000). Borrowings under the revolving credit facility can be by way of Bankers Acceptance or Prime Rate Advance and the Floating interest rate is contingent on the type of advance plus the applicable spread or margin. The respective spread or margin may change depending on Crombie's unsecured bond rating with DBRS and whether the facility remains secured or migrates to an unsecured status.

Unsecured Bilateral Credit Facility

The unsecured bilateral credit facility has a maximum principal amount of $100,000 and matures May 16, 2020. The facility is used by Crombie for working capital purposes and to provide temporary financing for acquisitions and development activity. Borrowings under the bilateral credit facility can be by way of Bankers Acceptance or Prime Rate Advance and the Floating interest rate is contingent on the type of advance plus the applicable spread or margin. The respective spread or margin may change depending on Crombie's unsecured bond rating with DBRS.

See Note 19(a) for fair value information.

7) SENIOR UNSECURED NOTES

	Maturity Date	Interest Rate	**December 31, 2018**	December 31, 2017

Deferred financing charges					(2,352)
					$ 698,716

On August 31, 2018 Crombie issued, on a private placement basis, an additional $75,000 Series B Notes (senior unsecured) maturing June 1, 2021. The proceeds were used to fund the redemption of the Series E Convertible Debentures. The Additional Notes were priced with an effective yield to maturity of 3.882% and sold at a price of $1,002.02 per $1,000.00 principal amount plus accrued interest. Interest is payable in equal semi-annual installments in arrears on June 1 and December 1.

On October 31, 2018 Crombie issued, on a private placement basis, $175,000 Series E Notes (senior unsecured) maturing January 31, 2025. The proceeds were used to fund the repayment of the Series A Notes. The notes were priced with an effective yield to maturity of 4.802% and sold at a price of $999.96 per $1,000.00 principal amount. Interest is payable in equal semi-annual installments on January 31 and July 31.

See Note 19(a) for fair value information.

8) CONVERTIBLE DEBENTURES

	Conversion Price	Maturity Date	Interest Rate	December 31, 2018	December 31, 2017
Series E (CRR.DB.E)	$ 17.15	August 31, 2018	5.25%	$ —	$ 74,400
Deferred financing charges				—	(1,236)
				$ —	$ 73,164

On August 31, 2018, Crombie exercised its right to redeem its 5.25% Series E Extendible Convertible Unsecured Subordinated Debentures originally maturing on March 31, 2021 (the "Debentures") in accordance with the terms of the supplemental trust indenture dated August 14, 2013. Upon redemption, Crombie paid to the holders of Debentures the redemption price equal to the outstanding principal amount of the Debentures redeemed, together with all accrued and unpaid interest thereon, for a total of $1,022.01 per $1,000 principal amount of Debentures, less any taxes required to be deducted or withheld.

See Note 19(a) for fair value information.

9) EMPLOYEE FUTURE BENEFITS

Crombie has a number of defined benefit and defined contribution plans providing pension and other retirement benefits to most of its employees.

Defined contribution pension plans

The contributions required by the employee and the employer are specified. The employee's pension depends on what level of retirement income (for example, annuity purchase) can be achieved with the combined total of employee and employer contributions and investment returns over the period of plan membership, and the annuity purchase rates at the time of the employee's retirement.

Defined benefit plans

The retirement benefit provides pension benefits to members designated in writing by the Board of Trustees based on a formula recognizing length of service and final average earnings. The annual pension payable at age 65 is equal to 2% of the final average base earnings multiplied by years of credited service (to a maximum of 30 years), offset by the deemed retirement income provided under the defined contribution pension plan and deferred profit sharing plan. For the purpose of calculating the deemed retirement income provided under the defined contribution pension plan and deferred profit sharing plan, the assumptions stipulated in the SERP plan text are used, including an assumed annuity conversion

discount rate of 7.0%. The final average earnings are 12 times the average of the 60 highest months of eligible earnings. Employee contributions, if required, pay for part of the cost of the benefit, and the employer contributions fund the balance. The employer contributions are not specified or defined within the plan text; they are based on the result of actuarial valuations which determine the level of funding required to meet the total obligation as estimated at the time of the valuation. Crombie's defined benefit plans are unfunded.

Once participants attain age 55 and 5 years of continuous service, they can retire. The total pension payable is reduced by 5/12% for each month by which the early retirement precedes age 60 (62 for a member who was designated as a member on or after June 25, 2009). The normal form of pension payment is a 60% joint and survivor pension.

The post-employment benefits program offered to Crombie employees and retirees in Canada is an open plan that provides life and medical benefits for grandfathered employees and employees retired prior to May 1, 2011 as well as critical illness coverage for other employees. Full-time employees must be over age 55 to be eligible for the post-employment benefits program.

The total defined benefit cost related to pension plans and post-employment benefit plans for the year ended December 31, 2018 was $551 (year ended December 31, 2017 - $541).

The plan typically exposes Crombie to actuarial risks such as: interest rate risk, mortality risk and salary risk.

(i) Interest rate risk - The present value of the defined benefit liability is calculated using discount rates that reflect the average yield, as at the measurement date, on high quality corporate bonds of similar duration to the plans' liabilities. A decrease in the market yield on high quality corporate bonds will increase Crombie's defined benefit liability.

(ii) Mortality risk - The present value of the defined benefit plan is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

(iii) Salary risk - The present value of the defined benefit plan liability is calculated by reference to the anticipated future salary of the plan participants. As such, an increase in the salary of plan participants over that anticipated will increase the plan's liability.

	Most recent valuation date	Next required valuation date
Senior Management Pension Plan	December 31, 2018	December 31, 2019
Post-Employment Benefit Plans	January 1, 2016	December 31, 2019

The significant actuarial assumptions adopted in measuring the Company's accrued benefit obligations and pension costs are as follows:

	December 31, 2018		December 31, 2017	
	Senior Management Pension Plan	**Post-Employment Benefit Plans**	Senior Management Pension Plan	Post-Employment Benefit Plans
Discount rate - accrued benefit obligation	**3.60%**	**3.70%**	3.40%	3.40%
Rate of compensation increase	**3.00%**	**N/A**	3.00%	N/A

For measurement purposes, a 5.25% (2017 - 5.50%) annual rate increase in the per capita cost of covered health care benefits was assumed. The cumulative rate is expected to decrease 0.25% annually to 5.00% in 2020.

These assumptions were developed by management with the assistance of independent actuaries. Discount factors are determined close to year-end by reference to market yields of high quality corporate bonds that have a maturity approximating the terms of the related pension obligation. Other assumptions are based on current actuarial benchmarks and management's historical experience.

The projected unit credit method is used to determine the present value of the defined benefit obligation and the related current service cost for all active members.

Crombie uses December 31 as a measurement date for accounting purposes for its defined benefit pension plans.

Information about Crombie's defined benefit plans are as follows:

	December 31, 2018		**December 31, 2017**	
	Senior Management Pension Plan	**Post-Employment Benefit Plans**	Senior Management Pension Plan	Post-Employment Benefit Plans
Accrued benefit obligation				
Balance, beginning of year	**$ 4,831**	**$ 4,299**	$ 4,533	$ 3,859
Current service cost	**200**	**38**	191	33
Interest cost	**168**	**146**	173	144
Actuarial losses (gains)	**(81)**	**(185)**	134	345
Benefits paid	**(200)**	**(96)**	(200)	(82)
Balance, end of year	**4,918**	**4,202**	4,831	4,299
Plan Assets				
Fair value, beginning of year	**—**	**—**	—	—
Employer contributions	**200**	**96**	200	82
Benefits paid	**(200)**	**(96)**	(200)	(82)
Fair value, end of year	**—**	**—**	**—**	**—**
Funded status - deficit	**4,918**	**4,202**	4,831	4,299
Current portion	**200**	**96**	200	82
Non-current portion	**4,718**	**4,106**	4,631	4,218
Accrued benefit obligation recorded as a liability	**$ 4,918**	**$ 4,202**	$ 4,831	$ 4,300
Net expense				
Current service cost	**$ 200**	**$ 38**	$ 191	$ 33
Interest cost	**168**	**146**	173	144
Net expense	**$ 368**	**$ 184**	$ 364	$ 177

The table below outlines the sensitivity of the fiscal 2018 key economic assumptions used in measuring the accrued benefit plan obligations and related expenses of Crombie's pension and other benefit plans. The sensitivity of each key assumption has been calculated independently. Changes to more than one assumption simultaneously may amplify or reduce the impact on the accrued benefit obligation or benefit plan expenses. There was no change to the method and assumptions used in preparing the sensitivity analysis from prior years.

		Senior Management Pension Plan		Post-Employment Benefit Plans	
		Benefit Obligations	Benefit Cost[1]	Benefit Obligations	Benefit Cost[1]
Discount Rate		3.60%	3.60%	3.70%	3.70%
Impact of:	1% increase	$ (557)	$ (7)	$ (544)	$ 10
	1% decrease	$ 677	$ 7	$ 667	$ (16)
Growth rate of health costs[2]				5.25%	5.25%
Impact of:	1% increase			$ 624	$ 31
	1% decrease			$ (514)	$ (25)

[1] Reflects the impact on the current service costs, the interest cost and the expected return on assets.
[2] Gradually decreasing to 5.0% in 2020 and remaining at that level thereafter.

For the year ended December 31, 2018, the net defined contribution pension plans expense was $873 (year ended December 31, 2017 - $800).

10) TRADE AND OTHER PAYABLES

	December 31, 2018			December 31, 2017		
	Current	**Non-current**	**Total**	Current	Non-current	Total

Unit based compensation plans

(i) **Deferred Unit Plan ("DU")**

Crombie has a DU Plan available to eligible Participants, which is designed to promote a greater alignment of interests between the Trustees, officers and employees of Crombie and its Unitholders. Participation in the DU Plan is voluntary unless Crombie's Board of Trustees (the "Board") or Human Resources Committee ("HRC") decides that special compensation is to be provided in the form of DUs. Unless otherwise determined by the Board or HRC, DUs granted under the DU Plan are fully vested at the time they are awarded. DUs are not Crombie REIT Units and do not entitle a Participant to any Unitholder rights, including voting rights, distribution entitlements (other than those noted below) or rights on liquidation. During the time that a Participant has outstanding DUs, whenever cash distributions are paid on REIT Units, additional DUs will be credited to the Participant's DU account, determined by multiplying the number of DUs in the Participant's DU account on the REIT distribution record date by the distribution paid per REIT Unit, and dividing the result by the market value of a Unit as determined in accordance with the DU Plan. Additional DUs issued as a result of distributions vest on the same basis as noted above and the value of the additional DUs credited is expensed to general and administrative expenses on allocation. Upon redemption, a Participant will receive the net value of the vested DUs being redeemed, with the net value determined by multiplying the number of DUs redeemed by the REIT Unit's market price on redemption date, less applicable withholding taxes. The Participant may elect to receive this net amount as a cash payment or instead receive Crombie REIT Units after deducting applicable withholding taxes.

(ii) **Restricted Unit Plan ("RU")**

Crombie has a RU Plan available to eligible RU Participants, which is designed to: promote a greater alignment of interests between the specific employees of Crombie and its Unitholders; and assist Crombie in attracting, retaining and rewarding specific employees. RU Participants will receive their long-term incentive plan awards in RUs. The RUs vest over a period of not more than three years, ending on the final day of the third quarter of the third calendar year of the RU term. The RUs are subject to vesting conditions including continuing employment. The number of RUs which fully vest is determined by: (a) the dollar amount of the award divided by the market value of a REIT Unit on the award grant date, plus (b) deemed distributions on RUs during the vesting period at a rate equivalent to the number of REIT Units that would have been issued had the vested RUs been treated as a REIT Unit. The value of these additional RUs from deemed distributions are expensed to general and administrative expenses at the time of allocation. On the vesting date, each participant shall be entitled to receive a cash amount (net of any applicable withholding taxes) equal to the number of vested RUs held by the RU Participant multiplied by the market value on the vesting date, as determined by the market value of a REIT Unit. Alternatively, a RU Participant who is an eligible employee on the vesting date may elect to convert their vested RUs to DUs under Crombie's DU Plan. No REIT Units or other securities of Crombie will be issued from treasury as settlement of any obligation under the RU Plan.

(iii) **Performance Unit Plan ("PU")**

Crombie introduced a PU Plan in 2017. The PU Plan, in conjunction with the RU Plan, is designed to: promote a greater alignment of interests between the executives and employees of Crombie and/or its subsidiaries and the holders of REIT Units; and assist Crombie in attracting, retaining and rewarding key executives. Eligible employees may elect each calendar year to participate in the PU Plan and receive all, or if permitted by the HRC, a portion at the participation level of their choice, of their eligible remuneration in the form of an allocation of PUs. The PUs vest over a period of not more than three years, ending on the final day of the third quarter of the third calendar year of the PUs term. The PUs are subject to vesting conditions including continuing employment. The number of PUs which vest for each participant shall be determined by (a) multiplying the number of PUs granted under the award by an adjustment factor applicable to the performance level achieved, and (b) adding the number

of PUs or fractions thereof that would be credited to such participant upon the payment of distributions by Crombie on the REIT Units, based on the number of additional REIT Units a participant would have received had the vested PUs been treated as REIT Units under a distribution reinvestment plan during the PU Term. Alternatively, a PU Participant who is an eligible employee on the vesting date may elect to convert their vested PUs to DUs under Crombie's DU Plan. A PU is not considered to be a REIT Unit or entitle any participant to exercise voting rights or any other rights or entitlements associated with a REIT Unit.

Deferred Revenue

During 2014, Crombie completed a sale-leaseback of the land component of an investment property. The proceeds received in excess of fair value of the land have been deferred and is being recognized as a reduction in property operating expenses over the term of the land lease. In addition, Crombie received a prepayment, from a related party, of their future obligation under a land sub-lease. This prepayment has also been deferred and is being recognized as a reduction in property operating expenses over the term of the land lease.

11) PROPERTY REVENUE

	Year ended	
	December 31, 2018	December 31, 2017
Operating lease revenue		
Rental revenue contractually due from tenants [1]	**$ 359,878**	$ 353,804
Contingent rental revenue	**2,064**	1,750
Straight-line rent recognition	**11,040**	13,542
Tenant incentive amortization	**(12,875)**	(12,768)
Lease termination income	**710**	1,258
Revenue from Contracts with Customers		
Common area cost recoveries	**48,425**	48,113
Parking revenue	**5,407**	6,114
	$ 414,649	$ 411,813

[1] Includes reimbursement of Crombie's property tax expense.

The following table sets out tenants that contributed in excess of 10% of total property revenue:

	Year ended			
	December 31, 2018		December 31, 2017	
	Revenue	**Percentage**	Revenue	Percentage
Sobeys Inc.	**$ 209,814**	**50.6%**	$ 202,593	49.2%

12) OPERATING LEASES

Crombie as a Lessor

Crombie's operations include leasing commercial real estate. Future minimum rental income under non-cancellable tenant leases as at December 31, 2018, is as follows:

	Year Ending December 31,						
	2019	**2020**	**2021**	**2022**	**2023**	**Thereafter**	**Total**
Future minimum rental income	$ 289,391	$ 276,812	$ 264,694	$ 252,885	$ 243,054	$ 1,925,119	$ 3,251,955

Crombie as a Lessee

Operating lease payments primarily represent rentals payable by Crombie for all of its land leases. These land leases have varying terms ranging from six to 71 years including renewal options:

	Year Ending December 31,						
	2019	**2020**	**2021**	**2022**	**2023**	**Thereafter**	**Total**
Future minimum lease payments	$ 1,939	$ 2,001	$ 2,021	$ 2,058	$ 2,083	$ 138,774	$ 148,876

13) CORPORATE EXPENSES AND CHANGE IN FAIR VALUE OF FINANCIAL INSTRUMENTS

(a) General and administrative expenses

	Year ended	
	December 31, 2018	December 31, 2017
Salaries and benefits	**$ 13,111**	$ 11,175
Professional and public company costs	**3,085**	4,472
Occupancy and other	**3,030**	3,430
	$ 19,226	$ 19,077

(b) Employee benefit expense

Crombie's payroll expenses are included in property operating expenses and in general and administrative expenses.

	Year ended	
	December 31, 2018	December 31, 2017
Wages and salaries	**$ 26,572**	$ 25,369
Post-employment benefits	**873**	800
	$ 27,445	$ 26,169

(c) Change in fair value of financial instruments

	Year ended	
	December 31, 2018	December 31, 2017
Deferred Unit ("DU") Plan	**$ 402**	$ (54)
Marketable securities	**—**	199
Total change in fair value of financial instruments	**$ 402**	$ 145

14) FINANCE COSTS – OPERATIONS

	Year ended	
	December 31, 2018	December 31, 2017
Fixed rate mortgages	**$ 75,454**	$ 79,484
Floating rate term, revolving and demand facilities	**5,316**	4,345
Capitalized interest	**(4,104)**	(2,388)
Senior unsecured notes	**25,119**	17,876
Convertible debentures	**3,846**	6,460
Finance costs - operations, expense	**105,631**	105,777
Amortization of fair value debt adjustment and accretion income	**808**	1,366
Change in accrued finance costs	**1,068**	(244)
Amortization of effective swap agreements	**(2,263)**	(2,354)
Capitalized interest [1]	**4,104**	2,388
Amortization of issue premium on senior unsecured notes	**407**	330
Amortization of deferred financing charges	**(5,158)**	(4,474)
Finance costs - operations, paid	**$ 104,597**	$ 102,789

[1] As at December 31, 2018, interest was capitalized to qualifying development projects based on a weighted average interest rate of 3.72% (December 31, 2017 - 3.45%).

15) INCOME TAXES

The tax recovery (expense) consists of the following:

	Year ended	
	December 31, 2018	December 31, 2017
Taxes - current		
Taxes - operating income earned in corporate subsidiaries	**$ (3)**	$ 9
Recovery of taxes previously paid on dispositions of investment properties	**—**	2,069
Total current taxes	**$ (3)**	$ 2,078
Taxes - deferred		
Provision for income taxes at the expected rate	**$ —**	$ (6,067)
Tax effect of income attribution to Crombie's Unitholders	**—**	5,067
Impact of tax reorganization	**—**	76,400
Total deferred taxes	**$ —**	$ 75,400

On June 30, 2017, Crombie completed a tax reorganization, as approved by Unitholders, resulting in, amongst other structural changes, the winding up of its most significant, wholly-owned corporate subsidiary. Through the tax reorganization, all property within the corporate entity was transferred to a limited partnership resulting in the elimination of Crombie's obligation for deferred income taxes related to this corporate subsidiary.

16) UNITS OUTSTANDING

Crombie REIT Units

Crombie is authorized to issue an unlimited number of REIT Units and an unlimited number of SVU and Class B LP Units. Issued and outstanding REIT Units may be subdivided or consolidated from time to time by the Trustees without the approval of the Unitholders. REIT Units are redeemable at any time on demand by the holders at a price per REIT Unit equal to the lesser of: (i) 90% of the weighted average price per Crombie REIT Unit during the period of the last ten days during which Crombie's REIT Units traded; and (ii) an amount equal to the price of Crombie's REIT Units on the date of redemption, as defined in the Declaration of Trust.

The aggregate redemption price payable by Crombie in respect of any REIT Units surrendered for redemption during any calendar month will be satisfied by way of a cash payment in Canadian dollars within 30 days after the end of the calendar month in which the REIT Units were tendered for redemption, provided that the entitlement of Unitholders to receive cash upon the redemption of their REIT Units is subject to the limitation that:

(i) the total amount payable by Crombie in respect of such REIT Units and all other REIT Units tendered for redemption, in the same calendar month must not exceed $50 (provided that such limitation may be waived at the discretion of the Trustees);

(ii) at the time such REIT Units are tendered for redemption, the outstanding REIT Units must be listed for trading on the TSX or traded or quoted on any other stock exchange or market which the Trustees consider, in their sole discretion, provides representative fair market value prices for the REIT Units; and

(iii) the normal trading of REIT Units is not suspended or halted on any stock exchange on which the REIT Units are listed (or if not listed on a stock exchange, in any market where the REIT Units are quoted for trading) on the Redemption Date or for more than five trading days during the 10 day trading period commencing immediately after the Redemption Date.

Crombie REIT Special Voting Units ("SVU") and Class B LP Units

The Declaration of Trust and the Exchange Agreement provide for the issuance of SVUs to the holders of Class B LP Units used solely for providing voting rights proportionate to the votes of Crombie's REIT Units. The SVUs are not transferable separately from the Class B LP Units to which they are attached and will be automatically transferred upon the transfer of such Class B LP Unit. If the Class B LP Units are exchanged in accordance with the Exchange Agreement, a like number of SVUs will be redeemed and cancelled for no consideration by Crombie.

The Class B LP Units issued by a subsidiary of Crombie to ECL Developments Limited ("ECLD") are indirectly exchangeable on a one-for-one basis for Crombie's REIT Units at the option of the holder, under the terms of the Exchange Agreement.

Each Class B LP Unit entitles the holder to receive distributions from Crombie, pro rata with distributions made by Crombie on REIT Units.

Employee Unit Purchase Plan ("EUPP")

Crombie previously provided for REIT Unit purchase entitlements under the EUPP for certain senior executives. As at December 31, 2014, the EUPP was replaced with an RU Plan with a specific vesting period and no employee loans.

As at December 31, 2018, there are loans receivable from executives of $1,667 under Crombie's EUPP, representing 131,417 REIT Units, which are classified as a reduction to net assets attributable to Unitholders. The loans are being repaid through the application of the after-tax amounts of all distributions received on the REIT Units, as payments on interest and principal. The loans are required to be repaid by December 31, 2023. Loan repayments will result in a corresponding increase to net assets attributable to Unitholders. Market value of the REIT Units held as collateral at December 31, 2018 was $1,645.

The compensation expense related to the EUPP for the year ended December 31, 2018 was $21 (year ended December 31, 2017 - $33).

Distribution Reinvestment Plan ("DRIP")

Crombie has a DRIP whereby Canadian resident REIT Unitholders may elect to automatically have their distributions reinvested in additional REIT units. Units issued under the DRIP will be issued directly from the treasury of Crombie REIT at a price equal to the volume-weighted average trading price of the REIT units on the TSX for the five trading days immediately preceding the relevant distribution payment date, which is typically on or about the 15th day of the month following the declaration. Crombie recognizes the net proceeds in Net assets attributable to Unitholders.

17) SUPPLEMENTARY CASH FLOW INFORMATION

a) Items not affecting operating cash

	Year ended	
	December 31, 2018	December 31, 2017
Items not affecting operating cash:

Balance, December 31, 2017	$ 1,762,815	$ 10,288	$ 53,168	$ 1,431	$ 625,000	$ 1,323	$ 2,003	$ 74,400	$ 1,236

18) RELATED PARTY TRANSACTIONS

As at December 31, 2018, Empire, through its wholly-owned subsidiary ECLD, holds a 41.5% indirect interest in Crombie. Related party transactions primarily include transactions with entities associated with Crombie through Empire's indirect interest. Related party transactions also include transactions with key management personnel and post-employment benefit plans.

Related party transactions are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

Crombie's revenue (expense) transactions with related parties are as follows:

	Year ended	
	December 31, 2018	December 31, 2017
Property revenue		
Property revenue	**$ 214,565**	$ 208,083
Head lease income	**$ 730**	$ 922
Lease termination income	**$ —**	$ 100
Property operating expenses	**$ (58)**	$ (47)
General and administrative expenses		
Property management services recovered	**$ 611**	$ 645
Other general and administrative expenses	**$ (203)**	$ (295)
Finance costs - operations		
Interest on convertible debentures	**$ —**	$ (608)
Interest rate subsidy	**$ 299**	$ 335
Finance costs - distributions to Unitholders	**$ (55,900)**	$ (55,293)

Crombie provides property management, leasing services and environmental management to specific properties owned by certain subsidiaries of Empire on a fee for service basis pursuant to a Management Agreement effective January 1, 2016. Revenue generated from the Management Agreement is being recognized as a reduction of General and administrative expenses. This Agreement replaces the previous cost sharing arrangement covered by a Management Cost Sharing Agreement.

In addition to the above:

During the year ended December 31, 2018, Crombie issued 333,058 (December 31, 2017 - 977,009) Class B LP Units to ECLD under the DRIP (Note 16).

On April 6, 2018, Crombie acquired nine retail properties and two additions to existing retail properties from Sobeys. The properties, totalling 421,000 square feet, were acquired for $88,110, excluding closing and transaction costs.

On June 29, 2018, Crombie acquired one retail property from Sobeys. The property, totalling 37,000 square feet, was acquired for $12,500, excluding closing and transaction costs.

On September 28, 2018, Crombie acquired an addition to an existing retail property from Sobeys. The property addition, totalling 10,000 square feet, was acquired for $3,735, excluding closing and transaction costs.

Key management personnel compensation

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of Crombie. The following are considered to be Crombie's key management personnel: the Chief Executive Officer, Chief Financial Officer and the three other highest compensated executives.

The remuneration of members of key management during the year was approximately as follows:

	Year ended	
	December 31, 2018	December 31, 2017
Salary, bonus and other short-term employee benefits	**$ 5,865**	$ 4,389
Other long-term benefits	**106**	98
	$ 5,971	$ 4,487

19) FINANCIAL INSTRUMENTS

a) Fair value of financial instruments

The fair value of a financial instrument is the estimated amount that Crombie would receive to sell a financial asset or pay to transfer a financial liability in an orderly transaction between market participants at the measurement date.

Fair value determination is classified within a three-level hierarchy, based on observability of significant inputs, as follows:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 - unobservable inputs for the asset or liability.

The following table provides information on financial assets and liabilities measured at fair value as at December 31, 2018:

Financial assets	Level	**December 31, 2018**	December 31, 2017
Marketable securities	**1**	**$ —**	$ 1,285
Total financial assets measured at fair value		**$ —**	$ 1,285

There were no transfers between levels of the fair value hierarchy during the year ended December 31, 2018. During the year ended December 31, 2018, Crombie sold the marketable securities.

The fair value of other financial instruments is based on discounted cash flows using discount rates that reflect current market conditions for instruments with similar terms and risks. The following table summarizes the estimated fair value of other financial instruments which have a fair value different from their carrying value:

	December 31, 2018		December 31, 2017	
	Fair Value	**Carrying Value**	Fair Value	Carrying Value
Financial assets				
Long-term receivables[1]	**$ 21,885**	**$ 21,882**	$ 6,642	$ 6,628
Total other financial assets	**$ 21,885**	**$ 21,882**	$ 6,642	$ 6,628
Financial liabilities				
Investment property debt	**$ 1,829,772**	**$ 1,789,483**	$ 1,846,029	$ 1,815,983
Senior unsecured notes	**702,893**	**700,000**	627,120	625,000
Convertible debentures	**—**	**—**	76,818	74,400
Total other financial liabilities	**$ 2,532,665**	**$ 2,489,483**	$ 2,549,967	$ 2,515,383

[1] Long-term receivables include amounts in other assets for capital expenditure program, interest rate subsidy and receivable from related parties.

The fair value of convertible debentures is a Level 1 measurement and the long-term receivables, investment property debt and senior unsecured notes are Level 2.

Due to their short-term nature, the carrying value of the following financial instruments approximates their fair value at the balance sheet date:

- Cash and cash equivalents
- Trade receivables
- Restricted cash
- Trade and other payables (excluding any embedded derivatives).

b) Risk Management

In the normal course of business, Crombie is exposed to a number of financial risks that can affect its operating performance. There has been no significant change in Crombie's risk management during the year ended December 31, 2018. The more significant risks, and the actions taken to manage them, are as follows:

Credit risk

Credit risk arises from the possibility that tenants may experience financial difficulty and be unable to fulfill their lease commitments. A provision for doubtful accounts is taken for all anticipated collectability risks (Note 5).

Crombie mitigates credit risk by geographical diversification, diversifying both its tenant mix and asset mix and conducting credit assessments for new and renewing tenants.

In measuring tenant concentration, Crombie considers both the annual minimum rent and total property revenue of major tenants:

- Crombie's largest tenant, Sobeys, represents 55.5% of annual minimum rent; excluding Sobeys, no other tenant accounts for more than 4.4% of Crombie's minimum rent.
- Total property revenue includes operating and realty tax cost recovery income and percentage rent. These amounts can vary by property type, specific tenant leases and where tenants may directly incur and pay operating and realty tax costs. For the year ended December 31, 2018, Sobeys represents 50.6% of total property revenue. Excluding Sobeys, no other tenant accounts for more than 4.6% of Crombie's total property revenue.
- Over the next five years, leases on no more than 6.1% of the gross leaseable area of Crombie will expire in any one year.

Receivables are substantially comprised of current balances due from tenants. The balance of accounts receivable past due is not significant. Generally, rents are due the first of each month and other tenant billings are due 30 days after invoiced, and in general, balances over 30 days are considered past due. None of the receivable balances are considered impaired. The provision for doubtful accounts is reviewed at each

balance sheet date. A provision is taken on accounts receivable from independent accounts and is recorded as a reduction to its respective receivable account on the balance sheet. Crombie updates its estimate of provision for doubtful accounts based on past due balances on accounts receivable. Current and long-term accounts receivable are reviewed on a regular basis and are provided for when collection is considered uncertain.

	Year ended	
	December 31, 2018	December 31, 2017
Provision for doubtful accounts, beginning of year	**$ 194**	$ 127
Additional provision	**399**	455
Recoveries	**(85)**	(165)
Write-offs	**(163)**	(223)
Provision for doubtful accounts, end of year	**$ 345**	$ 194

There have been no significant changes to Crombie's credit risk.

Interest rate risk

Interest rate risk is the potential for financial loss arising from increases in interest rates. Crombie mitigates this risk by utilizing staggered debt maturities and limiting the use of permanent floating rate debt and, on occasion, utilizing interest rate swap agreements. Crombie does not enter into interest rate swaps on a speculative basis.

As at December 31, 2018

- Crombie's weighted average term to maturity of its fixed rate mortgages was 4.6 years;
- Crombie has a floating rate revolving credit facility available to a maximum of $400,000, subject to available borrowing base, with a balance of $108,843 at December 31, 2018;
- Crombie has an unsecured bilateral credit facility available to a maximum of $100,000 with a balance of $70,000 at December 31, 2018; and,
- Crombie has interest rate swap agreements in place on $109,295 of floating rate mortgage debt.

Crombie estimates that $2,165 of accumulated other comprehensive income (loss) will be reclassified to finance costs during the year ending December 31, 2019, based on all settled swap agreements as of December 31, 2018.

A fluctuation in interest rates would have had an impact on Crombie's operating income related to the use of floating rate debt. Based on recent years' rate changes, a 0.5% interest rate change would reasonably be considered possible. The changes would have had the following impact:

	Impact of a 0.5% interest rate change	
Impact on operating income attributable to Unitholders of interest rate changes on the floating rate revolving credit facility and unsecured bilateral credit facility	**Decrease in rate**	**Increase in rate**
Twelve months ended December 31, 2018	**$ 611**	**$ (611)**
Twelve months ended December 31, 2017	$ 468	$ (468)

There have been no significant changes to Crombie's interest rate risk.

Liquidity risk

The real estate industry is highly capital intensive. Liquidity risk is the risk that Crombie may not have access to sufficient debt and equity capital to fund its growth program, refinance debt obligations as they mature or meet its ongoing obligations as they arise.

Cash flow generated from operating the property portfolio represents the primary source of liquidity used to service the interest on debt, fund general and administrative expenses, reinvest in the portfolio through capital expenditures, as well as fund tenant incentive costs and make distributions to Unitholders. Debt repayment requirements are primarily funded from refinancing Crombie's maturing debt obligations. Property acquisition funding requirements are funded through a combination of accessing the debt and equity capital markets and recycling capital from property dispositions.

There is a risk that the debt capital markets may not refinance maturing fixed rate and floating rate debt on terms and conditions acceptable to Crombie or at any terms at all. Crombie seeks to mitigate this risk by staggering its debt maturity dates. There is also a risk that the equity capital markets may not be receptive to a REIT unit offering issue from Crombie with financial terms acceptable to Crombie. As discussed in Note 20, Crombie mitigates its exposure to liquidity risk utilizing a conservative approach to capital management.

Access to the revolving credit facility is limited by the amount utilized under the facility and the amount of any outstanding letters of credit, and cannot exceed the borrowing base security provided by Crombie.

The estimated payments, including principal and interest, on non-derivative financial liabilities to maturity date are as follows:

		Twelve months ending December 31,					
	Contractual Cash Flows[1]	**2019**	**2020**	**2021**	**2022**	**2023**	**Thereafter**
Fixed rate mortgages[2]	$ 1,878,846	$ 247,213	$ 323,962	$ 180,834	$ 270,926	$ 312,584	$ 543,327
Senior unsecured notes	802,610	27,873	149,788	268,626	163,823	8,400	184,100
	2,681,456	275,086	473,750	449,460	434,749	320,984	727,427
Floating rate credit facilities	196,966	6,877	75,128	4,079	110,882	—	—
Total	$ 2,878,422	$ 281,963	$ 548,878	$ 453,539	$ 545,631	$ 320,984	$ 727,427

[1] Contractual cash flows include principal and interest and ignore extension options.
[2] Reduced by the interest rate subsidy payments to be received from Empire.

There have been no significant changes to Crombie's liquidity risk.

20) CAPITAL MANAGEMENT

Crombie's objective when managing capital on a long-term basis is to maintain overall indebtedness, including convertible debentures, at reasonable levels, utilize staggered debt maturities, minimize long-term exposure to excessive levels of floating rate debt and maintain conservative payout ratios.

Crombie's capital structure consists of the following:

	December 31, 2018	December 31, 2017
Fixed rate mortgages	**$ 1,601,584**	$ 1,751,096
Credit facilities	**178,843**	53,168
Senior unsecured notes	**698,716**	624,320
Convertible debentures	**—**	73,164
Crombie REIT Unitholders	**864,779**	873,478
SVU and Class B LP Unitholders	**578,061**	583,777
	$ 3,921,983	$ 3,959,003

At a minimum, Crombie's capital structure is managed to ensure that it complies with the limitations pursuant to Crombie's Declaration of Trust, the criteria contained in the Income Tax Act (Canada) in regard to the definition of a REIT and existing debt covenants. Some of the restrictions pursuant to Crombie's Declaration of Trust would include, among other items:

- A restriction that Crombie shall not incur indebtedness (other than by the assumption of existing indebtedness) where the indebtedness would exceed 75% of the market value of an individual property; and,
- A restriction that Crombie shall not incur indebtedness of more than 60% of gross book value (65% including any convertible debentures).

For debt to gross book value calculation, Crombie does not include in total debt the financial liabilities to REIT Unitholders and to holders of Class B LP Units, as shown on the balance sheet as Net assets attributable to Unitholders. Crombie's debt to gross book value as defined in Crombie's Declaration of Trust is as follows:

		December 31, 2018		December 31, 2017
Fixed rate mortgages	**$**	**1,610,640**	$	1,762,815
Senior unsecured notes		**700,000**		625,000
Convertible debentures		**—**		74,400
Revolving credit facility		**108,843**		8,168
Bilateral credit facility		**70,000**		45,000
Total debt outstanding		**2,489,483**		2,515,383
Less: Applicable fair value debt adjustment		**(818)**		(1,117)
Debt	**$**	**2,488,665**	$	2,514,266
Income properties, cost	**$**	**4,273,152**	$	4,280,433
Properties under development, cost		**66,179**		75,699
Below-market lease component, cost [(1)]		**66,319**		86,885
Investment in joint ventures		**39,485**		2,602
Other assets, cost (see below)		**338,616**		325,193
Deferred financing charges		**11,408**		14,958
Interest rate subsidy		**(818)**		(1,117)
Gross book value	**$**	**4,794,341**	$	4,784,653
Debt to gross book value - cost basis		**51.9%**		52.5%

[(1)] Below-market lease component is included in the carrying value of investment properties.

Other assets are calculated as follows:

		December 31, 2018		December 31, 2017
Other assets per Note 5	**$**	**271,946**	$	257,291
Add:				
Tenant incentive accumulated amortization		**66,670**		67,902
Other assets, cost	**$**	**338,616**	$	325,193

Under the amended terms governing the revolving credit facility, Crombie is entitled to borrow a maximum of 70% of the fair market value of assets subject to a first security position and 60% of the excess fair market value over first mortgage financing of assets subject to a second security position or a negative pledge. The terms of the revolving credit facility also require that Crombie must maintain certain covenants:

- annualized net operating income for the prescribed properties must be a minimum of 1.4 times the coverage of the related annualized debt service requirements;
- annualized net operating income on all properties must be a minimum of 1.4 times the coverage of all annualized debt service requirements;
- access to the revolving credit facility is limited by the amount utilized under the facility and the amount of any outstanding letters of credit not to exceed the borrowing base security provided by Crombie; and,
- distributions to Unitholders are limited to 100% of distributable income as defined in the revolving credit facility.

As at December 31, 2018, Crombie is in compliance with all externally imposed capital requirements and all covenants relating to its debt facilities.

21) COMMITMENTS, CONTINGENCIES, and GUARANTEES

There are various claims and litigation which Crombie is involved with arising out of the ordinary course of business operations. In the opinion of management, any liability that would arise from such contingencies in excess of existing accruals would not have a significant adverse effect on these financial statements.

Crombie has agreed to indemnify its trustees and officers, and particular employees, in accordance with Crombie's policies. Crombie maintains insurance policies that may provide coverage against certain claims.

Crombie obtains letters of credit to support its obligations with respect to construction work on its investment properties and satisfying mortgage financing requirements. As at December 31, 2018, Crombie has a total of $8,698 in outstanding letters of credit related to:

	December 31, 2018	December 31, 2017
Construction work being performed on investment properties	**$ 3,858**	$ 3,879
Mortgage lenders primarily to satisfy mortgage financings on redevelopment properties	**4,840**	4,840
Total outstanding letters of credit	**$ 8,698**	$ 8,719

Crombie does not believe that any of these standby letters of credit are likely to be drawn upon.

Land leases have varying terms ranging from six to 71 years including renewal options. For the year ended December 31, 2018 Crombie paid $1,864 in land lease payments to third party landlords (year ended December 31, 2017 - $1,685). Crombie's commitments under the land leases are disclosed in Note 12.

As at December 31, 2018, Crombie had signed construction contracts totalling $206,295 of which $165,120 has been paid.

Crombie has 100% guarantees on mortgages related to properties in which it has less than a 100% interest. The mortgages payable related to these guarantees are secured by specific charges against the properties. As at December 31, 2018, Crombie has provided guarantees of approximately $38,245 (December 31, 2017 - $NIL) on mortgages in excess of their ownership interest in the properties. The mortgages have a weighted average term to maturity of 5.9 years.

22) SUBSEQUENT EVENTS

(a) On January 21, 2019, Crombie declared distributions of 7.417 cents per Unit for the period from January 1, 2019 to and including, January 31, 2019. The distributions were paid on February 15, 2019, to Unitholders of record as of January 31, 2019.

(b) On February 19, 2019, Crombie declared distributions of 7.417 cents per Unit for the period from February 1, 2019 to and including February 28, 2019. The distributions will be paid on March 15, 2019, to Unitholders of record as of February 28, 2019.

(c) On February 5, 2019, Crombie disposed of a 50% interest in seven retail properties totalling 296,376 square feet of gross leaseable area. Total proceeds, before closing adjustments and transaction costs, were approximately $41,600.

(d) Since December 31, 2018, Crombie also disposed of a 100% interest in three retail properties totalling 182,800 square feet of gross leaseable area. Total proceeds, before closing adjustments and transaction costs, were approximately $64,800.

23) SEGMENT DISCLOSURE

Crombie owns and operates primarily retail and office real estate assets located in Canada. Management, in measuring Crombie's performance or making operating decisions, does not distinguish or group its operations on a geographical or other basis. Accordingly, Crombie has a single reportable segment.

24) INDEMNITIES

Crombie has agreed to indemnify its trustees and officers, and particular employees, in accordance with Crombie's policies. Crombie maintains insurance policies that may provide coverage against certain claims.
