NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying condensed consolidated financial statements include the accounts of CSB Bancorp, Inc. and its wholly-owned subsidiaries, The Commercial and Savings Bank (the "Bank") and CSB Investment Services, LLC (together referred to as the "Company" or "CSB"). All significant intercompany transactions and balances have been eliminated in consolidation.

The condensed consolidated financial statements have been prepared without audit. In the opinion of management, all adjustments (which include normal recurring adjustments) necessary to present fairly the Company's financial position at March 31, 2019, and the results of operations and changes in cash flows for the periods presented have been made.

Certain information and footnote disclosures typically included in financial statements prepared in accordance with U.S. generally accepted accounting principles ("U.S. GAAP") have been omitted. The Annual Report for CSB for the year ended December 31, 2018, contains Consolidated Financial Statements and related footnote disclosures, which should be read in conjunction with the accompanying Consolidated Financial Statements. The results of operations for the period ended March 31, 2019 are not necessarily indicative of the operating results for the full year or any future interim period.

Certain items in the prior-year financial statements were reclassified to conform to the current-year presentation.

ADOPTION OF NEW ACCOUNTING PRONOUNCEMENTS

ASU 2016-02 – Leases. This Update and all subsequent ASU's that modified Topic 842 set forth a new lease accounting model for lessors and lessees. For lessees, virtually all leases will be required to be recognized on the balance sheet by recording a right-of-use asset and lease liability. Subsequent accounting for leases varies depending on whether the lease is an operating lease or a finance lease. The accounting provided by a lessor is largely unchanged from that applied under the existing guidance. The ASU requires additional qualitative and quantitative disclosures with the objective of enabling users of financial statements to assess the amount, timing, and uncertainty of cash flows arising from leases.

The Update and its related amendments were adopted as of January 1, 2019, which resulted in the recognition of operating right-of-use assets totaling $477 thousand and operating lease liabilities totaling $469 thousand. The Company elected to adopt the transition relief provisions from ASU 2018-11 and recorded the impact of adoption as of January 1, 2019, without restating any prior-year amounts or disclosures. The Company has presented the necessary disclosures in Note 8.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

ASU 2016-13 - Financial Instruments - Credit Losses. The Update requires that financial assets be presented at the net amount expected to be collected (i.e. net of expected credit losses), eliminating the probable recognition threshold for credit losses on financial assets measured at amortized cost. The measurement of expected credit losses should be based on relevant information about past events, including historical experience, current conditions, and reasonable and supportable forecasts that affect the collectability of the reported amount. The Update is effective for annual and interim periods beginning after December 15, 2019. Early adoption is permitted for annual and interim periods beginning after December 15, 2018. We expect the Update will result in an increase in the allowance for credit losses for the estimated life of the financial asset, including an estimate for debt securities. The amount of any increase will be impacted by the portfolio composition and quality at the adoption date, as well as economic conditions and forecasts at that time. A cumulative-effect adjustment to retained earnings is required as of the beginning of the year of adoption. The Company expects to recognize a one-time cumulative effect adjustment to the allowance for loan losses, but cannot yet determine the magnitude of any such one-time adjustment or the overall impact of the new guidance on the consolidated financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

ASU 2017-04 - Simplifying the Test for Goodwill Impairment. The Update simplifies the goodwill impairment test. Under the new guidance, Step 2 of the goodwill impairment process that requires an entity to determine the implied fair value of its goodwill by assigning fair value to all its assets and liabilities is eliminated. Instead, the entity should recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value. An entity still has the option to perform the qualitative assessment for a reporting unit to determine if the quantitative impairment test is necessary. The new guidance is effective for annual and interim goodwill tests performed in fiscal years beginning after December 15, 2019. Early adoption is permitted. This Update is not expected to have a material impact on the Company's financial statements.

ASU 2018-13 - Fair Value Measurement - Changes the Disclosure Requirements for Fair Value Measurements. The Update removes the requirement to disclose the amount of and reasons for transfers between Level I and Level II of the fair value hierarchy; the policy for timing of transfers between levels; and the valuation processes for Level III fair value measurements. The Update requires disclosure of changes in unrealized gains and losses for the period included in other comprehensive income (loss) for recurring Level III fair value measurements held at the end of the reporting period and the range and weighted average of significant unobservable inputs used to develop Level III fair value measurements. This Update is effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. This Update is not expected to have a significant impact on the Company's financial statements.

ASU 2018-15 - Intangibles – Goodwill and Other – Internal-Use Software. This Update addresses customers' accounting for implementation costs incurred in a cloud computing arrangement that is a service contract and also adds certain disclosure requirements related to implementation costs incurred for internal-use software and cloud computing arrangements. The amendment aligns the requirements for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software (and hosting arrangements that include an internal-use software license). This Update is effective for public business entities for fiscal years beginning after December 15, 2019, and interim periods within those fiscal years, with early adoption permitted. The amendments in this Update can be applied either retrospectively or prospectively to all implementation costs incurred after the date of adoption. This Update is not expected to have a significant impact on the Company's financial statements.

ASU 2019-01 - Leases (Topic 842): Codification Improvements. This Update addresses issues lessors sometime encounter. Specifically addressed in this Update were issues related to 1) determining the fair value of the underlying asset by the lessor that are not manufacturers or dealers (generally financial institutions and captive finance companies, and 2) lessors that are depository and lending institutions should classify principal and payments received under sales-type and direct financing leases within investing activities in the cash flow statement. The ASU also exempts both lessees and lessors from having to provide the interim disclosures required by ASC 250-10-50-3 in the fiscal year in which a company adopts the new leases standard. The amendments addressing the two lessor accounting issues are effective for public business entities for fiscal years beginning after December 15, 2019, and interim periods within those fiscal years. This Update is not expected to have a significant impact on the Company's financial statements.

There were 67 securities in an unrealized loss position at March 31, 2019, 62 of which were in a continuous loss position for twelve months or more. At least quarterly, the Company conducts a comprehensive security-level impairment assessment. The assessments are based on the nature of the securities, the extent and duration of the securities in an unrealized loss position, the extent and duration of the loss and management's intent to sell or if it is more likely than not that management will be required to sell a security before recovery of its amortized cost basis, which may be maturity. Management believes the Company will fully recover the cost of these securities. It does not intend to sell these securities and likely will not be required to sell them before the anticipated recovery of the remaining amortized cost basis, which may be maturity. As a result, management concluded that these securities were not other-than-temporarily impaired at March 31, 2019.

Loan Origination/Risk Management

The Company has certain lending policies and procedures in place that are designed to maximize loan income within an acceptable level of risk. Management reviews and approves these policies and procedures on a regular basis. A reporting system supplements the review process by providing management with frequent reports related to loan production, loan quality, concentrations of credit, loan delinquencies and non-performing and potential problem loans. Diversification in the loan portfolio is a means of managing risk associated with fluctuations in economic conditions.

Commercial loans are underwritten after evaluating and understanding the borrower’s ability to operate profitably and prudently expand its business. Underwriting standards are designed to promote relationship banking rather than transactional banking. The Company’s management examines current and occasionally projected cash flows to determine the ability of the borrower to repay their obligations as agreed. Commercial loans are primarily made based on the identified cash flows of the borrower and secondarily on the underlying collateral provided by the borrower. The cash flows of borrowers; however, may not be as expected and the collateral securing these loans may fluctuate in value. Most commercial loans are secured by the assets being financed or other business assets such as accounts receivable or inventory and may incorporate a personal guarantee; however, some short-term loans may be made on an unsecured basis. In the case of loans secured by accounts receivable, the availability of funds for the repayment of these loans may be substantially dependent on the ability of the borrower to collect amounts due from its customers.

Commercial real estate loans are subject to underwriting standards and processes similar to commercial loans, in addition to those of real estate loans. These loans are viewed primarily as cash flow loans and secondarily as loans secured by real estate. Commercial real estate lending typically involves higher loan principal amounts and the repayment of these loans is largely dependent on the successful operation of the property securing the loan or the business conducted on the property securing the loan. Commercial real estate loans may be adversely affected by conditions in the real estate markets or in the general economy. The properties securing the Company’s commercial real estate portfolio are diverse in terms of type. This diversity helps reduce the Company’s exposure to adverse economic events that affect any single industry. Management monitors and evaluates commercial real estate loans based on collateral, geography, and risk grade criteria. In addition, management tracks the level of owner-occupied commercial real estate loans versus non-owner occupied loans.

With respect to loans to developers and builders that are secured by non-owner occupied properties, the Company generally requires the borrower to have had an existing relationship with the Company and have a proven record of success. Construction and land development loans are underwritten utilizing independent appraisal reviews, sensitivity analysis of absorption and lease rates, and financial analysis of the developers and property owners. Construction and land development loans are generally based upon estimates of costs and value associated with the completed project. These estimates may be inaccurate.

NOTE 3 – LOANS (CONTINUED)

Construction and land development loans often involve the disbursement of substantial funds with repayment substantially dependent on the success of the ultimate project. Sources of repayment for these types of loans may be pre-committed permanent loans from approved long-term lenders, sales of developed property, or an interim loan commitment from the Company until permanent financing is obtained. These loans are closely monitored by on-site inspections and are considered to have higher risk than other real estate loans due to their ultimate repayment being sensitive to interest rate changes, governmental regulation of real property, general economic conditions, and the availability of long-term financing.

The Company originates consumer loans utilizing a judgmental underwriting process. To monitor and manage consumer loan risk, policies and procedures are developed and modified, as needed, jointly by line and staff personnel. This activity, coupled with relatively small loan amounts that are spread across many individual borrowers, mitigates risk.

The Company maintains an independent loan review department that reviews and validates the credit risk program on a periodic basis. Results of these reviews are presented to management. The loan review process complements and reinforces the risk identification and assessment decisions made by lenders and credit personnel, as well as the Company's policies and procedures.

Loans serviced for others approximated $94.5 million and $92.3 million at March 31, 2019 and December 31, 2018, respectively.

Concentrations of Credit

Nearly all of the Company's lending activity occurs within the state of Ohio, including the four counties of Holmes, Stark, Tuscarawas and Wayne, as well as other markets. The majority of the Company's loan portfolio consists of commercial and commercial real estate loans. As of March 31, 2019 and December 31, 2018, there were no concentrations of loans related to any single industry.

Allowance for Loan Losses

The following tables detail activity in the allowance for loan losses by portfolio segment for the three months ended March 31, 2019 and 2018. Allocation of a portion of the allowance to one category of loans does not preclude its availability to absorb losses in other categories.

The decrease in the provision for loan losses for the three months ended March 31, 2019 related to commercial loans was primarily due to a recovery related to one loan relationship which contributed to declining historical losses of loans in this category. The decrease in the provision related to construction and land development loans was primarily due to the decrease in loan balances as construction projects were completed and transferred to permanent financing. The increase in the provision for consumer loans was related to increasing charge-offs as well as an increase in historical losses partially offset by lower delinquencies.

The increase in the provision for loan losses for the three months ended March 31, 2018 related to commercial loans was primarily due to the increase in substandard loans and the increase in loan volume of loans in this category. The decrease in the provision related to residential real estate loans is due to the decrease of loan delinquencies in this category.

Troubled Debt Restructurings

All troubled debt restructurings (“TDR’s) are individually evaluated for impairment and a related allowance is recorded, as needed. Loans whose terms have been modified as TDR’s totaled $2.2 million as of March 31, 2019, and $1.5 million as of December 31, 2018, with $17 thousand of specific reserves allocated to those loans at March 31, 2019 and December 31, 2018, respectively. At March 31, 2019, $1.9 million of the loans classified as TDR’s were performing in accordance with their modified terms. Of the remaining $271 thousand, all were in nonaccrual of interest status.

Other real estate owned amounted to one property at $99 thousand at March 31, 2019 and December 31, 2018, respectively. Consumer mortgage loans in the process of foreclosure were $56 thousand at March 31, 2019 and $57 thousand at December 31, 2018. Other repossessed assets were $15 thousand at March 31, 2019. There were no other repossessed assets at December 31, 2018.

(Dollars in thousands)	Number of loans restructured	Pre-Modification Recorded Investment	Post-Modification Recorded Investment
For the three months ended March 31, 2019			
Consumer	1	$ 17	$ 17
Total Restructured Loans	1	$ 17	$ 17

The loans restructured were modified by changing the monthly payment to interest only and extending the maturity dates. There were no new TDR’s for the three month period ended March 31, 2018.

There was one loan in the amount of $200 thousand restructured in 2018 that has subsequently defaulted in the first quarter of 2019. None of the loans restructured in 2017 defaulted in 2018.

Credit Quality Indicators

The Company categorizes loans into risk categories based on relevant information about the ability of borrowers to service their debt such as: current financial information, historical payment experience, credit documentation, public information, and current economic trends, among other factors. The Company analyzes commercial loans individually by classifying the loans as to credit risk. This analysis includes commercial loans with an outstanding balance greater than $300 thousand. This analysis is performed on an annual basis. The Company uses the following definitions for risk ratings:

Pass. Loans classified as pass (Acceptable, Low Acceptable or Pass Watch) may exhibit a wide array of characteristics but at a minimum represent an acceptable risk to the Bank. Borrowers in this rating may have leveraged but acceptable balance sheet positions, satisfactory asset quality, stable to favorable sales and earnings trends, acceptable liquidity and adequate cash flow. Loans are considered fully collectible and require an average amount of administration. While generally adhering to credit policy, these loans may exhibit occasional exceptions that do not result in undue risk to the Bank. Borrowers are generally capable of absorbing setbacks, financial and otherwise, without the threat of failure.

Special Mention. Loans classified as special mention have material weaknesses that deserve management's close attention. If left uncorrected, these weaknesses may result in deterioration of the repayment prospects for the loan at some future date.

Substandard. Loans classified as substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected.

Doubtful. Loans classified as doubtful have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

Loans not meeting the criteria above that are analyzed individually as part of the above described process are considered to be pass rated loans. Loans listed as not rated are either less than $300 thousand or are included in groups of homogeneous loans. Based on the most recent analysis performed, the risk category of loans by class is as follows as of March 31, 2019 and December 31, 2018:

NOTE 5 – FAIR VALUE MEASUREMENTS

The Company provides disclosures about assets and liabilities carried at fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and lowest priority to unobservable inputs. The three broad levels of the fair value hierarchy are described below:

Level I: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Company has the ability to access.

Level II: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by corroborated or other means. If the asset or liability has a specified (contractual) term, the Level II input must be observable for substantially the full term of the asset or liability.

Level III: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 5 – FAIR VALUE MEASUREMENTS (CONTINUED)

The following table presents the assets reported on the Consolidated Balance Sheets at their fair value on a recurring basis as of March 31, 2019 and December 31, 2018 by level within the fair value hierarchy. No liabilities are carried at fair value. Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Equity securities with readily determinable values and U.S. Treasury Notes are valued at the closing price reported on the active market on which the individual securities are traded. Obligations of U.S. government agencies, mortgage-backed securities, asset-backed securities, obligations of states and political subdivisions and corporate bonds are valued at observable market data for similar assets. Equity securities without readily determinable values are carried at amortized cost adjusted for impairment and observable price changes.

The following table presents the assets measured on a nonrecurring basis on the Consolidated Balance Sheets at their fair value as of March 31, 2019 and December 31, 2018, by level within the fair value hierarchy. Impaired loans are written down to fair value through the establishment of specific reserves. Techniques used to value the collateral that secure the impaired loans include: quoted market prices for identical assets classified as Level I inputs; and observable inputs, employed by certified appraisers, for similar assets classified as Level II inputs. In cases where valuation techniques included inputs that are unobservable and are based on estimates and assumptions developed by management based on the best information available under each circumstance, the asset valuation is classified as Level III inputs.

NOTE 6 – FAIR VALUES OF FINANCIAL INSTRUMENTS (CONTINUED)

The Company also has unrecognized financial instruments at March 31, 2019 and December 31, 2018. These financial instruments relate to commitments to extend credit and letters of credit. The aggregated contract amount of such financial instruments was approximately $174.1 million at March 31, 2019 and $173.3 million at December 31, 2018. Such amounts are also considered to be the fair values.

The fair value estimates of financial instruments are made at a specific point in time based on relevant market information. Since no ready market exists for a significant portion of the financial instruments, fair value estimates are largely based on judgments after considering such factors as future expected credit losses, current economic conditions, risk characteristics of various financial instruments, and other factors. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore, cannot be determined with precision. Changes in assumptions could significantly affect these estimates.

NOTE 8 – LEASES

Operating leases in which the Company is the lessee are recorded as operating lease Right of Use ("ROU") assets and operating lease liabilities, included in other assets and other liabilities, respectively, on the consolidated balance sheets. The Company does not currently have any finance leases. Operating lease ROU assets represent the right to use an underlying asset during the lease term and operating lease liabilities represent the obligation to make lease payments arising from the lease. The Company elected to adopt the transition method, which uses a modified retrospective transition approach. ROU assets and operating lease liabilities are recognized as of the date of adoption based on the present value of the remaining lease payments using a discount rate that represents the Company's incremental borrowing rate at the date of initial application.

Operating lease expense, which is comprised of amortization of the ROU asset and the implicit interest accreted on the operating lease liability, is recognized on a straight-line basis over the lease term, and is recorded in occupancy and equipment expense in the consolidated statements of income and other comprehensive income. The leases relate to bank branches with remaining lease terms of generally 7 to 8 years. Certain lease arrangements contain extension options which are typically 5 years at the then fair market rental rates. As these extension options are generally considered reasonably certain of exercise, they are included in the lease term.

ITEM 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following management's discussion and analysis focuses on the consolidated financial condition of the Company at March 31, 2019 as compared to December 31, 2018, and the consolidated results of operations for the three month periods ended March 31, 2019 compared to the same period in 2018. The purpose of this discussion is to provide the reader with a more thorough understanding of the Consolidated Financial Statements. This discussion should be read in conjunction with the interim Consolidated Financial Statements and related footnotes contained in Part I, Item 1 of this Quarterly Report.

FORWARD-LOOKING STATEMENTS

Certain statements contained in this Quarterly Report are not historical facts but rather are forward-looking statements that are subject to certain risks and uncertainties. When used herein, the terms "anticipates", "plans", "expects", "believes", and similar expressions as they relate to the Company or its management are intended to identify forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. The Company's actual results, performance or achievements may materially differ from those expressed or implied in the forward-looking statements. Risks and uncertainties that could cause or contribute to such material differences include, but are not limited to, general economic conditions, interest rate environment, competitive conditions in the financial services industry, changes in law, governmental policies and regulations, and rapidly changing technology affecting financial services. Other factors not currently anticipated may also materially and adversely affect the Company's results of operations, cash flows, and financial position. There can be no assurance that future results will meet expectations. While the Company believes that the forward-looking statements in this report are reasonable, the reader should not place undue reliance on any forward-looking statement.

The Company does not undertake, and specifically disclaims any obligation, to publicly revise any forward-looking statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events, except as may be required by applicable law.

FINANCIAL CONDITION

Total assets were $735 million at March 31, 2019 as compared to $732 million at December 31, 2018. During the three month period ended March 31, 2019, net loans decreased $1 million. Cash and cash equivalents, and securities decreased $1 million. On the liability side, deposits and repurchase agreements decreased by $247 thousand.

Net loans decreased $1 million, or less than 1%, during the three months ended March, 31, 2019 as business lines of credits decreased on the improved cash flow of businesses within the bank's markets. Commercial loans decreased $2 million, or 1%, while construction and land development loans decreased $10 million, contributing to the increase in commercial real estate loans by $9 million as construction loans moved to permanent financing. Residential real estate loans increased $3 million, or 2%, and consumer loans decreased $319 thousand, or 2%, from December 31, 2018. Home purchase activity has increased and, to a lesser extent, consumers continued to refinance their mortgage loans for historically low long-term fixed rates. Residential mortgage loan originations for the three months ended March 31, 2019 totaled $13 million, an increase from $12 million in originations during the three months ended March 31, 2018. Originations sold into the secondary market were $2.6 million and $2.2 million, respectively during the three month periods ended March 31, 2019 and March 31, 2018. The Bank originates and sells primarily fixed-rate thirty year mortgages into the secondary market.

The allowance for loan losses as a percentage of total loans was 1.15% at March 31, 2019 as compared to 1.08% at December 31, 2018. Outstanding loan balances decreased less than 1% to $548 million at March 31, 2019. The allowance for loan losses increased to $6.3 million at March 31, 2019 following a provision of $285 thousand and net loan recoveries of $95 thousand for the current quarter.

Nonaccrual loans decreased during the first three months of 2019. For the three months ending March 31, 2019 loans totaling $318 thousand were placed on nonaccrual status, there were $32 thousand in charge-downs recognized, and pay downs of $327 thousand were received.

(Dollars in thousands)	March 31, 2019	December 31, 2018	March 31, 2018
Non-performing loans	$ 3,188	$ 3,329	$ 4,602
Other real estate	99	99	20
Repossessed assets	15	—	—
Allowance for loan losses	6,287	5,907	5,633
Total loans	548,220	548,974	530,395
Allowance: Loans	1.15%	1.08%	1.06%
Allowance: Non-performing loans	2.0x	1.8x	1.2x

The ratio of gross loans to deposits was 90.3% at March 31, 2019, compared to 90.5% at December 31, 2018.

The Company has no exposure to government-sponsored enterprise preferred stocks, collateralized debt obligations, or trust preferred securities. Management has considered industry analyst reports, sector credit reports, and the volatility within the bond market in concluding that the gross unrealized losses of $1 million within the available-for-sale and held-to-maturity portfolios as of March 31, 2019, were primarily the result of customary and expected fluctuations in the bond market and not necessarily the expected cash flows of the individual securities. As a result, all security impairments on March 31, 2019, are considered temporary and no impairment loss relating to these securities has been recognized.

Deposits increased $844 thousand, or less than 1%, from December 31, 2018 with noninterest bearing deposits decreasing approximately $8 million and interest-bearing deposit accounts increasing approximately $9 million. Total deposits as of March 31, 2019 are $31 million greater than March 31, 2018 deposit balances. On a year over year comparison, increases were recognized in noninterest-bearing demand deposits of $11 million, interest-bearing demand deposits of $5 million, money market accounts of $5 million, savings of $5 million, and time deposits of $5 million.

Short-term borrowings consisting of overnight repurchase agreements with retail customers decreased $1 million to $36 million at March 31, 2019 as compared to December 31, 2018 and other borrowings decreased $152 thousand as the Company repaid FHLB advances.

Total shareholders' equity amounted to $79 million, or 10.7%, of total assets at March 31, 2019 up slightly from December 31, 2018. The increase in shareholders' equity during the three months ending March 31, 2019 was due to net income of $2.5 million and an increase in accumulated other comprehensive income of $604 thousand offset by dividends declared of $713 thousand. The Company and the Bank met all regulatory capital requirements at March 31, 2019.

RESULTS OF OPERATIONS

Three months ended March 31, 2019 and 2018

For the quarters ended March 31, 2019 and 2018, the Company recorded net income of $2.5 million and $2.2 million and $.93 and $.79 per share, respectively. The $376 thousand increase in net income for the quarter was primarily the result of a $622 thousand increase in net interest income, an increase of $79 thousand in other noninterest income, and a decrease in the provision for loan losses of $ 39 thousand. The increases were partially offset by an increase of $254 thousand in other noninterest expenses and an increase in the federal income tax provision of $110 thousand.

Return on average assets and return on average equity were 1.41% and 13.20%, respectively, for the three month period of 2019, compared to 1.25% and 12.33%, respectively for the same quarter in 2018.

Interest income for the quarter ended March 31, 2019, was $8 million representing a $1 million increase, or a 15% improvement, compared to the same period in 2018. This increase was primarily due to the increase in average loan rates, as well as loan volume increasing $23 million for the quarter ended March 31, 2019 as compared to the first quarter 2018. Interest expense for the quarter ended March 31, 2019 was $957 thousand, an increase of $397 thousand, or 71%, from the same period in 2018. The increase in interest expense occurred primarily due to an increase in rate on all interest-bearing liabilities for the quarter ended March 31, 2019.

For the quarter ended March 31, 2019, the provision for loan losses was $285 thousand, compared to a provision of $324 thousand provision for the same quarter in 2018. For more discussion see Financial Condition. The provision for loan losses is determined based on management's calculation of the adequacy of the allowance for loan losses, which includes provisions for classified loans as well as for the remainder of the portfolio based on historical data, including past charge-offs and current economic trends.

Noninterest income for the quarter ended March 31, 2019, was $1.2 million, an increase of $79 thousand, or 7%, compared to the same quarter in 2018. Service charges on deposit accounts increased $8 thousand, or 3%, compared to the same quarter in 2018 primarily from increases in overdraft fees. Debit card interchange income increased $34 thousand, or 11%, with increased card usage in the first quarter of 2019. Fees from trust and brokerage services increased $5 thousand to $224 thousand for the first quarter 2019 as compared to the same quarter in 2018. The gain on the sale of mortgage loans to the secondary market increased $2 thousand to $79 thousand for the quarter ended March 31, 2019.

Noninterest expenses for the quarter ended March 31, 2019 increased $254 thousand, or 6%, compared to the first quarter of 2018. Salaries and employee benefits increased $205 thousand, or 8%, a result of increases in employees, base salary, and other benefits. Marketing and public relations expense declined $3 thousand, or 3%, following a period of increase in brand recognition initiatives and increased community support in the company's market. Debit card expenses increased $11 thousand, or 9%, compared to the first quarter 2018. Occupancy expense declined $15 thousand over the first quarter of 2018 with a decrease in depreciation expense. Professional and director fees increased $28 thousand for the quarter ended March 31, 2019 as compared to the first quarter 2018.

Federal income tax expense increased $110 thousand, or 22%, for the quarter ended March 31, 2019 as compared to the first quarter of 2018. The provision for income taxes was $619 thousand (effective rate of 20%) for the quarter ended March 31, 2019, compared to $509 thousand (effective rate of 19%) for the same quarter ended 2018.

CAPITAL RESOURCES

The Company maintained a strong capital position with tangible common equity to tangible assets of 10.2% at March 31, 2019 compared with 9.9% at December 31, 2018.

Effective January 1, 2015 the Federal Reserve adopted final rules implementing Basel III and regulatory capital changes required by the Dodd-Frank Act. The rules apply to both the Company and the Bank. The rules established minimum risk-based and leverage capital requirements for all banking organizations. Effective with the March 31, 2015 Call Report the Bank selected the opt-out election for accumulated other comprehensive income ("AOCI"). This election neutralizes the effects of unrealized gains and losses from available-for-sale securities and other elements of the AOCI account for regulatory capital purposes.

Consistent with the Board of Director's commitment to public confidence and safe and sound banking operations, capital targets and minimum risk-based capital ratios for CSB were established to maintain excess capital to well-capitalized standards. To be considered well-capitalized, an institution must have a total risk-based capital ratio of at least 10%, a tier 1 capital ratio of at least 8%, a leverage capital ratio of at least 5%, a CET1 ratio of at least 6.5%, and must not be subject to any order or directive requiring the institution to improve its capital level. An adequately capitalized institution has a total risk-based capital ratio of at least 8%, a tier 1 capital ratio of at least 6%, a CET1 ratio of at least 4.5%, and a leverage ratio of at least 4%.

Failure to meet specified minimum capital requirements could result in regulatory actions by the Federal Reserve or Ohio Division of Financial Institutions that could have a material effect on the Company's financial condition or results of operations. Management believes there were no material changes to capital resources as presented in the Company's Annual Report on Form 10-K for the year ended December 31, 2018. As of March 31, 2019 the Company and the Bank met all capital adequacy requirements to which they were subject.

Liquidity refers to the Company's ability to generate sufficient cash to fund current loan demand, meet deposit withdrawals, pay operating expenses, and meet other obligations. Liquidity is monitored by the Company's Asset Liability Committee. Other sources of liquidity include, but are not limited to, purchases of federal funds, advances from the FHLB, adjustments of interest rates to attract deposits, brokered deposits, and borrowing at the Federal Reserve discount window. Management believes that its sources of liquidity are adequate to meet cash flow obligations for the foreseeable future.

The liquidity ratio was 30.4% and 29.1% at March 31, 2019 and December 31, 2018.

OFF-BALANCE SHEET ARRANGEMENTS

The Company does not have any off-balance sheet arrangements (as such term is defined in applicable Securities and Exchange Commission (the "Commission") rules) that are reasonably likely to have a current or future material effect on our financial condition, results of operations, liquidity, capital expenditures, or capital resources.

ITEM 3 – QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in the quantitative and qualitative disclosures about market risks as of March 31, 2019, from the disclosures presented in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2018.

Management performs a quarterly analysis of the Company's interest rate risk over a twenty-four month horizon. The analysis includes two balance sheet models, one based on a static balance sheet and one on a dynamic balance sheet with projected growth in assets and liabilities. Minor variances with net interest income exceeding the board approved policy are being projected in the March 2019 dynamic balance sheet simulation coupled with immediate rate shocks. All other balance sheet positions and interest rate projections are currently within the Company's board-approved policy.

The following table presents an analysis of the estimated sensitivity of the Company's annual net interest income to sudden and sustained -200 through +400 basis point changes, in 100 basis point increments, in market interest rates at March 31, 2019 and -200 through +400 basis point changes at December 31, 2018. The net interest income reflected is for the first twelve month period of the modeled twenty-four month horizon. The underlying balance sheet for illustrative purposes is dynamic with projected growth in assets and liabilities.

ITEM 4 - CONTROLS AND PROCEDURES

With the participation of the Company's management, including its Chief Executive Officer and Chief Financial Officer, the Company has evaluated the effectiveness of its disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act") as of the end of the period covered by this Quarterly Report on Form 10-Q. Based upon that evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that:

(a) information required to be disclosed by the Company in this Quarterly Report on Form 10-Q would be accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure;

(b) information required to be disclosed by the Company in this Quarterly Report on Form 10-Q would be recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms; and

(c) the Company's disclosure controls and procedures are effective as of the end of the period covered by this Quarterly Report on Form 10-Q to ensure that material information relating to the Company and its consolidated subsidiary is made known to them, particularly during the period for which the Company's periodic reports, including this Quarterly Report on Form 10-Q, are being prepared.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

There were no changes during the period covered by this Quarterly Report on Form 10-Q in the Company's internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 1- LEGAL PROCEEDINGS.

In the opinion of management there are no outstanding legal proceedings that are reasonably likely to have a material adverse effect on the company's financial condition or results of operations.

ITEM 1A- RISK FACTORS.

There have been no material changes to the Company's risk factors from those disclosed in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2018.

ITEM 2- UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

On July 7, 2005 CSB Bancorp, Inc. filed Form 8-K with the Commission announcing that its Board of Directors approved a Stock Repurchase Program authorizing the repurchase of up to 10% of the Company's common shares then outstanding. Repurchases may be made from time to time as market and business conditions warrant, in the open market, through block purchases, and in negotiated private transactions. No repurchases were made during the quarterly period ended March 31, 2019.

President and Chief Executive Officer
I, Eddie L. Steiner, certify that:

1. I have reviewed this quarterly report on Form 10-Q of CSB Bancorp, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant’s other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f) for the registrant and have:

   a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

   b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

   c) Evaluated the effectiveness of the registrant’s disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

   d) Disclosed in this report any change in the registrant’s internal control over financial reporting that occurred during the registrant’s most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant’s internal control over financial reporting; and

5. The registrant’s other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant’s auditors and the audit committee of the registrant’s board of directors (or persons performing the equivalent functions):

   a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant’s ability to record, process, summarize and report financial information; and

   b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant’s internal control over financial reporting.
