Report of Independent Registered Public Accounting Firm

The Board of Directors of TCF Financial Corporation and
The Plan Sponsor and Plan Administrator of the
TCF Employees Stock Purchase Plan:

We have audited the accompanying statements of net assets available for plan benefits of the TCF Employees Stock Purchase Plan (the “Plan”) as of December 31, 2013 and 2012, and the related statements of changes in net assets available for plan benefits for each of the years in the three-year period ended December 31, 2013. These financial statements are the responsibility of the Plan’s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the Plan as of December 31, 2013 and 2012, and the changes in net assets available for plan benefits for each of the years in the three-year period ended December 31, 2013 in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. Supplemental Schedules 1 and 2 are presented for the purpose of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan’s management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

TCF Employees Stock Purchase Plan

Notes to Financial Statements

(1) Accounting Policies

Basis of Presentation

The financial statements of the TCF Employees Stock Purchase Plan (the “Plan”) have been prepared on the accrual basis of accounting. All investments of the Plan are stated at fair value. Purchases and sales of investments are recorded on a trade-date basis. The cost of Plan investments sold is determined by the average cost method. Distributions are recorded when paid.

On November 30, 2011, TCF Financial Corporation (“TCF Financial”) acquired Gateway One Lending & Finance LLC (“GOLF”). Effective December 31, 2011, the Gateway One Lending & Finance 401(k)Plan (“GOLF Plan”) along with its assets of \$1,438,555 was merged into the Plan. On April 3, 2012, the Plan liquidated the GOLF Plan participant investments held at Principal Financial Group for a total of \$1,526,326. The total amount was then transferred to and invested in the Plan investment options available through Mercer Trust Company. Principal Financial Group is no longer a Plan trustee.

Notes Receivable from Participants

The Plan does not allow for loans to participants. Due to the GOLF Plan merger on December 31, 2011, the Plan held notes receivable from GOLF Plan participants as of year end. Notes receivable from GOLF Plan participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant notes receivable are reclassified as distributions. During 2013 and 2012 notes receivable from participants of \$0 and \$4,447 were reclassified as distributed, respectively.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (“GAAP”) requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits at the date of the financial statements and the reported amounts of changes in net assets available for plan benefits during the reporting period. These estimates are based on information available to Plan sponsor at the time the estimates are made. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the statement of net assets available for plan benefits.

The Plan provides for investment in TCF Financial common stock. At both December 31, 2013 and 2012, approximately 61% of the Plan’s total assets were invested in the common stock of TCF Financial. The underlying value of the TCF Financial common stock is entirely dependent upon the performance of TCF Financial and the market’s evaluation of such performance.

TCF Employees Stock Purchase Plan

Notes to Financial Statements (Continued)

(2) Employees Stock Purchase Plan

The Plan is intended to meet the requirements of a stock bonus plan under Section 401(a) of the Internal Revenue Code of 1986, as amended (the "Code"), an employee stock ownership plan under Section 4975(e) of the Code, and a qualified cash or deferred arrangement under Section 401(k) of the Code. Commencing July 1, 2012, the portion of the Plan that is invested in the TCF Financial Stock Fund is the Plan's stock bonus portion, which is an employee stock ownership plan under Section 4975(e) of the Code, designed to invest primarily in TCF Financial common stock, and the portion of the Plan that is not invested in the TCF Financial Stock Fund is the Plan's profit sharing portion; both portions are part of a plan that includes a qualified cash or deferred arrangement under Section 401(k) of the Code. The Plan continues to qualify under Section 401(a) of the Code. There is no impact to the Plan participants. The Plan is a tax-qualified contributory plan subject to the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Plan sponsor is TCF Financial. For the year ended December 31, 2013 and 2012, Mercer Trust Company ("Mercer") was the trustee of the Plan appointed to serve under the trust agreement. Record keeping administration of the Plan was managed by Mercer HR Services, LLC for the year ended December 31, 2013 and 2012.

All full-time and part-time employees of TCF Financial or its subsidiaries are eligible to participate in the Plan with the exception of GOLF employees who were eligible to participate starting January 1, 2012. Participants may elect to invest, in increments of 1%, up to 50% of their covered pay on a tax deferred basis. Contributions of employees defined by the Code as "highly compensated" are limited based on an annual determination by TCF Financial. The aggregate contributions are subject to the limits imposed by the Internal Revenue Service ("IRS"). The maximum annual limit was \$17,500 for 2013, \$17,000 for 2012 and \$16,500 for 2011, respectively. The Plan allows participants age 50 or older to make "catch up" pre-tax contributions in excess of the IRS limits stated above. The maximum catch-up contribution was \$5,500 for 2013, 2012 and 2011, respectively.

Participating employers match the contributions of employees who have completed one year of service at the rate of 50 cents per dollar contributed for employees with one to less than five years of service, 75 cents per dollar contributed for employees with five to less than ten years of service and \$1 per dollar contributed for employees with ten or more years of service. Employer matching contributions are made on the first 6% of eligible compensation contributed. Employer contributions are generally made in cash and can also be made in the form of TCF Financial common stock.

All employee and employer contributions are invested in participant directed investments. Participants may elect to invest their employee account balance in any or all of the offered mutual fund investments or the TCF Financial Stock Fund. Employer matching contributions initially are invested in the TCF Financial Stock Fund, but participants may direct investment of employer matching contributions in available mutual funds; if a participant does not make a valid investment election with respect to any

TCF Employees Stock Purchase Plan

Notes to Financial Statements (Continued)

other contributions, including participant contributions, these contributions will be invested in the TCF Financial Stock Fund.

The participating employers, at their discretion, may make additional contributions to the Plan, subject to an overall limit. These additional contributions, if any, are allocated to participants' matching accounts in proportion to their respective percentage rate of matched contributions, subject to certain limitations. To date, no such contributions have been made.

Participant contributions to the Plan are fully vested at all times. Participants' interests in the employer matching contributions generally vest at the rate of 20% per year (with full vesting after five years of service). The Plan permits financial hardship withdrawals consistent with the safe harbor provisions of regulations issued pursuant to the Tax Reform Act of 1986.

Dividends paid on the TCF Financial Stock Fund are reinvested in such fund or, at the election of the participant, may be paid in cash to the participant. Dividends paid from the mutual funds are reinvested in the mutual funds.

Amounts which have been forfeited in accordance with the provisions of the Plan are available to use for payment of various Plan obligations according to the following hierarchy: reinstatement of participant accounts upon rehire, reduction of employer contributions and Plan administration expenses as defined. Other Plan obligations are paid directly by TCF Financial. Administrative expenses, which includes trustee, record keeper and audit fees, were paid by TCF Financial during 2013, 2012 and 2011 totaled \$527,908, \$499,246 and \$461,952, respectively. Any remaining forfeiture amounts are retained by the Plan to be used for payment of Plan obligations in future periods.

The trustee redeposits to the Plan, on a monthly basis, all outstanding distribution checks which have not been cashed within 9 months

from date of issuance. During 2013 and 2012, TCF Financial received \$24,586 and \$13,899 of redeposited distributions from the trustee and reissued distribution checks to former participants totaling \$16,570 and \$1,335, respectively. As of December 31, 2013 and 2012, \$226,209 and \$218,193 of distributions were payable to former participants, respectively.

Each participant may exercise voting rights for the TCF Financial common stock allocated to his or her Plan account. The Advisory Committee directs the voting of the shares of TCF Financial common stock allocated to participants' accounts for which no direction is received from participants. Unallocated shares are voted in the same proportion as the allocated shares.

TCF Financial has reserved the right to amend the Plan at any time and each participating employer may cease to participate in the Plan and stop offering the Plan at any time to its employees. In the event of termination of the Plan, participating employees become 100% vested in their employer matching account balances.

(4) Income Tax Status

TCF Financial has received a favorable tax determination letter from the IRS dated November 4, 2013, indicating that the Plan qualified under Sections 401(a) and 4975(e)(7) of the Code and met the requirements for a qualified cash or deferred arrangement under Section 401(k) of the Code, and the trust established thereunder is thereby exempt from federal income taxes under Section 501(a) of the Code. As such, the Plan's assets are exempt from federal income tax, and participant tax-deferred contributions and amounts contributed by participating employers are not taxed to the employee until distributed from the Plan. Continued compliance with applicable provisions of the Code is required to maintain this tax-exempt status.

Based on the tax exempt status of the Plan, there are no accruals for income tax uncertainties. The Plan administrator believes the Plan is no longer subject to income tax examinations for the years prior to 2010 and there are currently no audits for any tax period in progress.

(6) Fair Value Measurement

FASB Accounting Standard Codification (“ASC”) 820, *Fair Value Measurements and Disclosures*, defines fair value and establishes a consistent framework for measuring fair value and disclosure requirements for fair value measurements. Fair values represent the estimated price that would be received from selling an asset or paid to transfer a liability, otherwise known as an “exit price”.

At December 31, 2013, assets held in trust for the Plan included investments in publicly traded stock and mutual funds. The fair value of level 1 assets are based upon quotes from independent asset pricing services based on active markets, which are considered level 1 under ASC 820 and are measured on a recurring basis. At December 31, 2013, there were no assets measured on a recurring basis that are based on observable market prices (level 2) or company determined market prices (level 3).

The following is a description of the valuation techniques and inputs used by the Plan to measure each major class of assets at the fair value:

- TCF Financial common stock: Valued at the closing price reported in the active market in which the individual securities are traded.
- Mutual funds: Valued at the quoted net asset value (NAV) of shares held by the Plan at year-end in the active market in which the individual mutual funds are traded.

TCF Employees Stock Purchase Plan

Notes to Financial Statements (Continued)

As required by applicable authoritative accounting guidance, the level in the fair value hierarchy within which the fair value measurement of the asset in its entirety is classified is based on the lowest level input that is significant to the fair value measurement.

The following table summarizes the Plan’s investment assets measured at fair value on a recovery basis:

TCF’s Categories	Readily Available Market Prices (Level 1)
